FROM THE

SECRETARY OF THE TREASURY,

TRANSMITTING

ESTIMATES OF APPROPRIATIONS

REQUIRED FOR THE

SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1890.

TREASURY DEPARTMENT,
Document No. 1153.
Secretary—W., E., and A.

LETTER
FROM
THE SECRETARY OF THE TREASURY,
TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1890.*

TREASURY DEPARTMENT,

December 3, 1888.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884, (23 Stat., page 254,) I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1890, as furnished by the several Executive Departments; also, statements of the proceeds of sales of Government property, and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1888.

I have the honor to be,

Very respectfully, your obedient servant,

C. S. FAIRCHILD,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

Two laborers (one additional submitted)	do.....						
NOTE.—Since the last year's estimates were submitted there has been an entire revision of the Civil-Service rules and of the classification of the Departmental service which has resulted in bringing into the classified service, and subject to examination, a large number of places (not far from 3,000) not heretofore classified for examination. For filling many of these places, notably those in the Coast and Geodetic Survey, the Geological Survey, the Nautical Almanac Office, the Hydrographic Office, the Naval Observatory, and the technical force of the Supervising Architect's Office, examinations of a very high grade and of the most technical character are required, demanding the most careful, pains-taking, and expert work on the part of the clerical and examining forces of the Commission. During the last year the classified service has also been increased by the addition of eight post-offices to the classified list, and it is certain that there will be an equal or greater increase in this direction in the year to come. It is also probable that there will be an early enlargement of the classified service by the inclusion of the Railway Mail Service and the Indian School Service. But without this enlargement the additional clerks estimated for are absolutely required for the proper performance of the work now imposed upon the Commission.						\$42, 760 00	\$29, 691 30
<i>Traveling Expenses, Civil-Service Commission—</i>							
Necessary traveling expenses, including those of examiners acting under the direction of the Commission.....	Appropriated..	25	263	1		5, 000 00	5, 000 00
<i>Contingent Expenses, Civil-Service Commission—</i>							
Furniture and repairs of furniture, carpet and matting, file-cases and file-boxes, books, newspapers, stationery, advertising, telegraphing, telephone service, typewriters and type-writing, expressage, ice, car-tickets, postage on matter addressed to Postal-Union countries, photolithographing, lighting and care of rooms and hall-ways and other necessary expenses, and for expenses of examinations and investigations held elsewhere than at Washington, including rent of rooms and furniture and reasonable fees to janitors, and stenographic and type-writing services.....	Submitted.....					3, 500 00	
NOTE.—For the fiscal years ending June 30, 1888, and June 30, 1889, provision was made for the contingent expenses and the printing and binding of the Civil-Service Commission in the appropriations for these objects made for the Interior Department. The linking together of the Department and the Commission in this way has been productive of no benefit to either; but, on the contrary, has resulted in inconvenience and embarrassment to both. These two branches of the service are wholly independent of each other in their functions, and it is illogical and embarrassing to thus connect them in administration. The Commission has submitted its independent estimates for the items of contingent expenses and printing and binding, in the hope that the appropriations therefor will be placed as entirely under its control as those for salaries and traveling expenses now are. The estimate for "Printing and binding," Civil-Service Commission, under section 2, act of May 8, 1872, (R. S., 720, sec. 3661,) will be found under the title of "Miscellaneous," <i>post</i> .

Three watchmen, at \$720 each.....	do.....				2,160 00		
Three laborers, at \$660 each.....	do.....				1,980 00		
<i>Provided, That one clerk of class four, two clerks of class two, and six clerks of class one shall be employed for the sole purpose of completing, with the necessary detail from the existing force, the regimental registers of the volunteer forces of the several States during the late war. And not less than two hundred of the clerks in the office of the Adjutant-General shall be exclusively engaged in preparing and making reports to expedite the settlement of pension applications and soldiers' claims.</i>						\$698,020 00	\$698,489 57
<i>NOTE.—An increase of two clerks of class three, and seven clerks of class one, has been made by transfer of the division of Confederate archives from the office of the Secretary of War to the office of the Adjutant-General of the Army, with clerks indicated by order of the Secretary of War, dated February 4, 1888. The amount (\$11,600) required to pay the salaries of said clerks for the current year is included in the "amount appropriated for the fiscal year ending June 30, 1889," shown on this estimate.</i>

One assistant messenger.....	do.....				720 00		
<i>NOTE.—In my estimate of appropriations for the fiscal year ending June 30, 1889, I expressed the opinion that the clerical force of this office should be graded so as to establish a line of promotion by regular intermediate steps from class one to the chief clerkship—as it exists in every other bureau of the War Department. I still regard such a classification as very desirable. The clerical force of the office, as now authorized, consists of a chief clerk, two clerks of class three, four clerks of class one, one at \$1,000, and one copyist.</i>						13,860 00	13,460 00
<i>By creating a fourth-class clerkship in lieu of one of the third-class positions, and a second-class clerkship in lieu of one of the first-class positions, the intermediate steps between the first and third classes, and between the third-class and the chief clerkship would be filled without increasing the number of clerks, and with only the slight increase of \$400 in the amount required for salaries. It is believed that such a classification would serve as an incentive to efficiency and zeal, and would promote the best interests of the service. It is hoped that Congress will authorize such a classification.—G. Norman Lieber, Acting Judge Advocate-General.</i>

MISCELLANEOUS.							
<i>Stationery, War Department—</i>							
Stationery for the War Department and its bureaus (except Signal Office).....	Appropriated..	25	281	1		21, 500 00	21, 510 00
NOTE.—The estimates for the Secretary's office and of the chiefs of bureaus are as follows:							
Secretary of War.....	\$2, 700						
Adjutant-General.....	7, 000						
Inspector-General.....	250						
Acting Judge-Advocate General.....	400						
Quartermaster-General.....	4, 000						
Commissary-General.....	700						
Surgeon-General.....	6, 500						
Chief of Ordnance.....	1, 000						
Paymaster-General.....	1, 000						
Chief of Engineers.....	1, 500						
Officer in charge of Rebellion Record.....	700						
Total.....	25, 750						
Reduced by Secretary of War to.....	21, 500						
The estimate for the signal office for stationery is included in the estimates for the "Signal Service," and will be found thereunder, <i>post</i> . The amount (\$3,490) allowed the signal service for stationery from the appropriation, "Stationery, War Department, 1889," has been deducted from the \$25,000 appropriated therefore, and appears as appropriated for "Signal Service stationery, 1889," <i>post</i> .							
<i>Contingent Expenses, War Department—</i>							
For contingent expenses of the War Department and its bureaus (except the Signal Office); purchase of professional and scientific books, blank-books, pamphlets, newspapers, maps; furniture, and repairs to same; carpets, matting, oil-cloth, file-cases, towels, ice, brooms, soap, sponges, fuel, gas, and heating apparatus for and repairs to the buildings (outside of the State, War, and Navy Department building), occupied by the Adjutant-General's Office, the Surgeon-General's Office, and the Office of Records of the Rebellion; freight and express charges, and other absolutely necessary expenses.....	July 11, 1888 Oct. 2, 1888	25 25	281 533	1 1		47, 750 00	50, 000 00
NOTE.—The estimates for the Secretary's office and of the chiefs of bureaus are as follows:							
Secretary of War.....	\$7, 000						
Adjutant-General.....	14, 000						
Inspector-General.....	300						
Acting Judge-Advocate General.....	2, 000						
Quartermaster-General.....	9, 000						
Commissary-General.....	3, 000						
Surgeon-General.....	16, 500						
Chief of Ordnance.....	2, 500						
Paymaster-General.....	2, 500						
Chief of Engineers.....	3, 500						
Officer in charge of Rebellion Records.....	2, 000						
Total.....	62, 300						
Reduced by Secretary of War to.....	47, 750						
The estimate of the Signal Office for contingent expenses is included in the estimates for the "Signal Service," and will be found thereunder, <i>post</i> . The amount (\$7,250) allowed the Signal Office from the appropriation, contingent expenses, War Department, 1889," has been deducted from the \$55,000 appropriated therefore, and appears as appropriated for "Signal Service, contingent expenses, 1889," <i>post</i> .							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
Rent of Buildings, War Department—							
For rent of buildings for use of the War Department, as follows:							
Medical Dispensary							
Office of Rebellion Records							
Signal Office.....							
NOTE.—The \$600 for the Signal Office is needed for the rent for three months at \$200 per month of the building No. 1744 G street, N. W., where is located the boiler, engine and printing presses connected with the printing office of the service.							
The building at Twenty-fourth and M streets was inadequate to accommodate the entire force of clerks, and new buildings had to be erected, which although the bill providing for the purchase and erection, passed February 24, 1888, said buildings are not yet completed; in fact the foundations for the boiler and engine have not yet been dug out, and it is believed the building which is especially intended to accommodate the printing-office will not be ready for occupancy much before October 1, 1889.—A. W. Greely, Chief Signal Officer, October 2, 1888.							
A statement of the buildings rented in Washington for use of the bureaus of the War Department, with the annual rent of the same, reported as required by the act of March 3, 1883 (22 Stat., p. 552), will be found in Appendix "F."							
Appropriated..	25	281	1		\$2,800 00	\$9,700 00

NOTE.—The foregoing estimates cover the exact amount appropriated for like expenses during the current fiscal year, and are submitted in accordance with what seems to be the policy of Congress. The estimated amounts are inadequate to the needs of the service, and the best interest of the Government and of the people demand larger appropriations. If Congress should concur in this view, this office will submit supplemental estimates sufficient for the purposes named.—S. M. Stockslager, Commissioner.

NOTE.—The estimates for clerical service, as submitted, cover the exact amount appropriated for the current fiscal year, and are submitted in accordance with what seems to be the policy of Congress. The estimated amounts are inadequate to the needs of the service, and, in the opinion of this office, the best interests of the Government demand larger appropriations. If Congress concurs in this view, then this office will submit supplemental estimates sufficient for the purposes named.—S. M. Stockslager, Commissioner.

		Vol. or R. S.	Page.	Sec.			
MISCELLANEOUS.							
<i>Botanical Investigations and Experiments, Botanical Division—</i> For purchasing specimens, paper, and all necessary materials for the herbarium, and for labor in preparing same; for investigations and experiments with grasses and forage-plants, including the establishment and maintenance of experimental grass-stations, and of other economic and medicinal plants, and for travel and other necessary expenses connected therewith; and for employing local botanists for exploration and collection of plants in little-known districts, and for special work for the improvement of the herbarium, and for artists for drawing and engraving.....	Appropriated..	25	330	1	\$20,000 00	\$20,000 00
<i>Vegetable Pathological Investigations and Experiments, Division of Vegetable Pathology—</i> For investigating the nature of the diseases of fruits and fruit-trees, grain, and other useful plants, due to parasitic fungi, and for the investigation of the disease and its remedy in peach trees, known as yellows; for chemicals and apparatus required in the field and laboratory; for experiments with remedies; for necessary traveling expenses; for the preparation of drawings and illustrations, and for other expenses connected with the practical work of the investigation.....	Appropriated..	25	330	1	15,000 00	15,000 00
<i>Pomological Information, Pomological Division—</i> For travel and other necessary expenses in investigating, collecting, and disseminating pomological information; for artists' materials, and other apparatus necessary in the work of the division; for the purchase of scions, plants, and trees of new and rare fruits for distribution; for preparation of papers upon subjects of a pomological nature, and expenses incurred in making investigations for the same; and for colored illustrations of fruits to be used in the special publications of the division.....	Appropriated..	25	330	1	8,500 00	4,000 00
<i>Investigating the Adulteration of Food, Microscopical Division—</i> For microscopical apparatus, chemicals, photographic illustrations, and other necessary supplies; for traveling expenses, and for the purchase of food samples and fibers in making investigations and examinations into the adulterations of food.....	Appropriated..	25	330	1	1,000 00	1,000 00
<i>Laboratory, Chemical Division—</i> For chemical apparatus, chemicals, laboratory fixtures and supplies, purchase of samples, and necessary expenses in conducting special investigations, including necessary traveling expenses, labor, and expert work in such investigations.....	Appropriated..	25	330	1	6,000 00	6,000 00
<i>Investigating the History and Habits of Insects, Entomological Division—</i> For investigating the history and habits of insects injurious and beneficial to agriculture, arboriculture, and horticulture; experiments in ascertaining the best means of destroying them; for publishing reports thereon, and for illustrations, chemicals, traveling, and other expenses in the practical work of the entomological division.....	Appropriated..	25	331	1	25,000 00	20,000 00
NOTE.—The object of the increase of \$5,000 asked is the necessity for increased work, and the specific encouragement of apiculture.							
<i>Silk Culture, Sericulture—</i> For collecting and disseminating information relating to silk culture; for purchasing and distributing silk-worm eggs and mulberry trees, and for conducting at some point in the District of Columbia, experiments with automatic machinery for reeling silk from the cocoon, and for expenses incurred in collecting, purchasing, preparing for transportation, and transporting the cocoons necessary therefor; for necessary traveling expenses, and for the expenses of sericultural stations..... And the Commissioner of Agriculture is hereby authorized to sell in open market any and all reeled silk and silk-waste produced in these experiments, and to apply the proceeds of such sales to the payment of the legitimate expenses incurred therein; and the Commissioner of Agriculture shall make full report to Congress of the experiments herein provided for, and also of all sales and purchases made under this paragraph.	Appropriated..	25	331	1	20,000 00	30,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

		Vol. or R. S.	Page.	Sec.			
UNDER THE WAR DEPARTMENT.							
COMMANDING-GENERAL'S OFFICE.							
Expenses of Commanding-General's Office—							
To defray the contingent expenses of the Commanding-General's Office.....	Mar. 3, 1875 Mar. 3, 1883 Mar. 3, 1885 June 30, 1886 Feb. 9, 1887 Sept. 22, 1888	18 22 23 24 24 25	452 456 356 99 401 488	1 1 1 1 1 1	\$1,750 00	\$1,200 00
NOTE.—The amount estimated for in excess of the appropriation for the current year, is deemed necessary to defray the legitimate and necessary expenses of the office; the present appropriation being inadequate therefor. For the fiscal year ending June 30, 1886, \$10,000 was allowed; from 1868 to 1876, \$5,000 each year; for 1877, \$3,000; from 1878 to 1883, \$2,500 each year; for 1884, 1885, and 1886, \$1,750 each year, a sum not more than sufficient to purchase the necessary supplies and books of reference required for the office.							
ADJUTANT-GENERAL'S DEPARTMENT.							
Expenses of Recruiting—							
For expenses of recruiting and transportation of recruits from rendezvous.....	Sept. 22, 1888	25	488	1	114,905 00	113,000 00
NOTE.—The number of recruits now required to fill the Army is..... 1,191 The number to be discharged on expiration of term during the year ending June 30, 1890, is..... 3,816 The loss by discharge for disability, under the sentences of courts-martial, by desertion, death, retirement, &c., as determined by the average for the 3 years past, will be..... 4,516 Making the number to be enlisted to keep the Army at its authorized strength of 25,000 men..... 9,523 The number that will be enlisted at military posts without expense is about 2,823 Leaving the number to be estimated for at a cost of \$17.15 for each recruit, which is the average cost of each recruit obtained at rendezvous during the 3 years ending June 30, 1888..... 6,700							
Contingencies, Adjutant-General's Department—							
For the contingent fund of the Adjutant-General's Department at the headquarters of the several military divisions and departments, being for the purchase of the necessary articles of office, toilet, and desk furniture, stationery, binding, maps, books of reference, police utensils, &c.....	Sept. 22, 1888	25	488	1	2,500 00	2,000 00
INSPECTOR-GENERAL'S DEPARTMENT.							
Contingencies, Inspector-General's Department—							
For the contingent fund of the Inspector's Department at the headquarters of the several military divisions and departments, for the purpose of binding current orders and purchasing maps, books of reference, and professional current foreign literature.....	Submitted.....				1,000 00	
NOTE.—Inspector's General at division and department headquarters have no contingent fund to pay for the binding of current orders, and as the orders have to be constantly consulted it is quite necessary that they should be put in a good state of preservation. Maps are constantly needed in the offices of the Inspectors' General. Foreign current literature is absolutely necessary for the members of the Inspector's Department if they are going to keep step with the growth of military art and science. The military literature in French and German is full of suggestions and every Inspector General should be liberally supplied with it.							
OFFICE OF THE CHIEF SIGNAL OFFICER.							
Signal Service of the Army—							
Expenses of the Signal Service of the Army, as follows:

NOTE.—For statement showing wherein the foregoing estimate varies from the appropriation for the current fiscal year, and tables showing the authorized active strength of the Army in commissioned officers and enlisted men, see Appendix "O."

SUBSISTENCE DEPARTMENT.

Subsistence of the Army—

For the purchase of subsistence supplies: For issue, as rations to troops, civil employes when entitled thereto, contract-surgeons, hospital-matrons, military convicts at posts, prisoners of war (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made), estimated for the fiscal year on the basis of ten million two hundred and ninety-four thousand eight hundred and twenty-five rations; for sales to officers and enlisted men of the Army; for authorized extra issues of candles, and salt and vinegar for public animals; for issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For cooked rations for recruiting parties and recruits; for hot coffee, canned beef, and and baked beans for troops traveling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department); for bake-ovens at posts and in the field, and repairs thereof; for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department, and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance-sergeants on duty at ungarrisoned posts, to enlisted men stationed at places where rations in kind cannot be economically issued to enlisted men traveling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department, division, and Army rifle competitions while traveling to and from places of contest; to be expended under the direction of the Secretary of War; in all.....

Prisoners of war, including Indians, for the subsistence of whom no other appropriation is made (A. R., 1297).....	750	365	273, 750	Sept. 22, 1888 25 483 1			
Additional half-rations to sergeants and corporals of ordnance.....	120	365	21, 900	<div>..... R. S. 224 1293</div> <div>Sept. 22, 1888 25 483 1</div>			
Total.....			10, 294, 825				
Estimated at 20 cents each.							
In making the estimate at 20 cents, the losses from wastage in issuing, damage in transportation, shrinkage, and deterioration while on hand, necessary abandonment or destruction in the field, and all expenses indicated in the appropriation for subsistence of the Army for the fiscal year ending June 30, 1889, have been considered and are included, and it is made on the basis of the average cost of the components of the ration for a number of years. It is impossible to know in advance the cost of any one of these components.							
QUARTERMASTER'S DEPARTMENT.							
Regular Supplies—							
For the regular supplies of the Quartermaster's Department, consisting of stores and heating apparatus, and repair and maintenance of the same; for heating offices, hospitals, and barracks and quarters; of ranges and stoves for cooking; of fuel and lights for enlisted men, guards, hospitals, storehouses and offices, and for sales to officers; of forage in kind, including its protection, for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations, and with the armies in the field; for the horses of the several regiments of cavalry, the batteries of artillery, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding; and of stationery, including blank books for the Quartermaster's Department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Departments, and for printing division and department orders and reports: <i>Provided</i> , That no part of this appropriation shall be expended in printing unless the same shall be done by contract, after due notice and competition, except in cases where the emergency will not admit of giving notice for competition.....				<div>..... R. S. 206 1133</div> <div>..... R. S. 221 1270, 1</div> <div>Revised Army Reg's, 1881, p. 203, par. 1821.</div> <div>Sept. 22, 1888 25 484 1</div>			
					\$2, 678, 000 00	\$2, 678, 000 00	
NOTE.—The estimate for "regular supplies" for the fiscal year 1889, was "for the regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of the same, for heating offices, hospitals, and barracks and quarters * * * \$2,678,000," and Congress appropriated that amount, leaving out of the act the words "offices, hospitals." The appropriation has always been used to supply stoves and heating apparatus to hospitals, and the Acting Secretary of War has inserted the word "hospitals" in the foregoing estimate.

MEDICAL DEPARTMENT.							
<i>Medical and Hospital Department—</i> For the purchase of medical and hospital supplies, including disinfectants for general sanitation, expenses of medical-purveying depots, pay of employes, medical care and treatment of officers and enlisted men of the Army on duty at posts and stations for which no other provision is made; for the proper care and treatment of cases in the Army, suffering from contagious or epidemic diseases, and the supply of the Army and Navy Hospital at Hot Springs, Ark.; advertising and other miscellaneous expenses of the Medical Department, the amount to be expended for the pay of civilian employes not to exceed forty-eight thousand dollars..	Sept. 22, 1888	25	486	1	230,000 00	*202,273 97
<p>NOTE.—The estimated amounts will, it is believed, be necessary to meet the wants of the Medical Department for the ensuing fiscal year. It becomes necessary, from time to time, to add to the standard supply table new remedies, new instruments, and new standard medical books, and provide them for use by the medical officers of the Army in the proper diagnosis and treatment of diseases.</p> <p>The limited number of contract surgeons allowed by law necessitates the employment of private physicians, under existing regulations, to furnish medical attendance to officers and enlisted men at stations where there is no medical officer of the Army; these physicians are paid by the visit from the "medical and hospital appropriation." Added to this is the necessary expenditure for the employment of skilled nurses for the proper care and treatment of cases of epidemic and contagious diseases.</p> <p>The merging of the appropriation for the maintenance of the Army and Navy Hospital, Hot Springs, Arkansas, into the appropriation for the Medical and Hospital Department, by the act approved September 22, 1888, adds to the amount to be expended for the pay of employes, the pay-roll of said hospital, which has been at the rate of twelve thousand dollars per year. The amount fixed by said act for pay of employes is forty-two thousand dollars, which, in my judgment, will not be sufficient to meet the necessities of the service, for the pay of employes at the medical purveying depots, medical directors' offices, and the U. S. Army Dispensary, Washington, D. C., heretofore allowed by law at thirty-six thousand dollars, and paid from the appropriation for the Medical and Hospital Department, and in addition thereto, the employes of the Hot Springs Hospital.</p> <p>The limit should, therefore, in my opinion, be not less than forty-eight thousand dollars.</p> <p>The order of the President prescribing the regulations for the administration and government of the Army and Navy Hospital, Hot Springs, Arkansas, provides that the employes of said hospital shall be <i>civilians</i>.—J. H. Baxter, Acting Surgeon-General, U. S. Army.</p>							
<i>Medical Museum and Library—</i> For the Army Medical Museum, preservation of specimens and the preparation, or purchase of new specimens.. For the library of the Surgeon-General's office.....	Sept. 22, 1888do.....	25	487	1	\$5,000 00 10,000 00	15,000 00	15,000 00

*Including \$2,273.97 appropriated by the continuing resolutions for "Maintenance of Army and Navy Hospital at Hot Springs, Ark.," for the period from July 1, 1888, to September 21, 1888, both dates inclusive.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
ENGINEER DEPARTMENT.							
<i>Engineer Depot at Willet's Point, New York—</i>							
For incidental expenses of depot, including fuel, lights, chemicals, stationery, extra duty pay to soldiers necessarily employed as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draughtsmen, printers, lithographers, photographers, engine-drivers, teamsters, &c., and for materials to repair public buildings, machinery, clerk-hire, and unforeseen expenses	Sept. 22, 1888	25	487	1	\$5,000 00		
Purchase of materials for instructions of engineer troops in their special duties as sappers, miners, for land and sub-marine mines, pontoniers, torpedo-drills, and signalling.....do.....				1,500 00		
Purchase and repair of instruments to be issued to officers of the Corps of Engineers and of the Army generally for use of public works, surveys, &c.....do.....				5,000 00		
NOTE.—This estimate is increased over that of last year by reason of the great demand for instruments for use from time to time by the officers of the Army other than engineer officers, for public purposes at military posts, government reservations, headquarters of Departments, &c.							
Purchase of professional works for the Library.....do.....				500 00		
NOTE.—This appropriation is necessary to keep the library of the school of application, which has received valuable accessions during the year, up to the proper standard.							
For a building to contain engineer models	Submitted.....				8,000 00	\$20,000 00	\$18,000 00
NOTE.—The building in which these models are stored is an old, leaky, frame structure, built during the war, and is not worth repairing, especially as it is located at a very inconvenient distance from the library and laboratory. A suitable fire-proof building can be built for about \$8,000.							
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
For current expenses of the ordnance service required to defray the current expenses at the arsenals; of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office furniture; of tools and instruments for use; incidental expenses of the ordnance service and those attending practical trials and tests of ordnance, small arms, and other ordnance supplies, including payment for mechanical labor in the office of the Chief of Ordnance.....	Sept. 22, 1888	25	487	1	100,000 00	80,000 00
<i>Ordnance, Ordnance Stores and Supplies—</i>							
For manufacture of metallic ammunition for small-arms and ammunition for reloading cartridges, and tools for the same, including the cost of targets and material for target practice and marksmen's medals and insignia.....	Sept. 22, 1888	25	487	1	150,000 00		
NOTE.—The quantity of rifle ammunition on hand is very limited, the reserve supply at our arsenals being only 2,855,190 cartridges on July 1, 1888. A supply should be kept on hand for the hostile uses of the Army. Rifle and carbine ammunition costs to manufacture \$18.50 per thousand, and revolver \$10 per thousand. Existing orders from the War Department authorize the expenditure for target practice of cartridges or reloading material to the amount of \$7.50 per man per annum, and about \$1.93 per man per annum for gallery practice, and basing the strength of the Army (enlisted men and commissioned officers) at 20,000 men, it will require \$188,600, for this expenditure alone. Soldiers should be made good marksmen, but this cannot be done without a liberal supply of ammunition for target practice. The amount asked for is reasonable if the soldier is to be provided with cartridges sufficient for his proper instruction. To enable the Ordnance Department to carry out these orders, the reserve supply has been wellnigh exhausted. Unless the appropriation asked for is granted, the supply for target-practice will have to be reduced, greatly to the detriment of the efficiency of the Army.							
For repairing and preserving ordnance and ordnance stores in the hands of troops and for issue at the arsenals and depots	Feb. 9, 1887	24	400	1	} 20,000 00		
	Submitted.....						
NOTE.—There is at present no appropriation applicable to the repairs, painting, and general preservation of guns, gun-carriages, projectiles, and general ordnance stores at forts and other military posts, and this money is absolutely necessary for the purpose.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Ordnance, Ordnance Stores and Supplies—Continued.</i>							
For purchase and manufacture of ordnance stores to fill requisitions of troops.....	Sept. 22, 1888	25	487	1	\$150,000 00		
For infantry, cavalry, and artillery equipments, including horse equipments for cavalry and artillery.....do.....				150,000 00		
NOTE.—The amounts asked for are required to meet the wants of the service. The equipments for the cavalry service prescribed by War Department, General Orders No. 73, of 1885, cannot be supplied as required by reason of the want of funds.							
For overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals. {	June 30, 1886 Submitted.....	24	99	1	} 20,000 00		
						\$490,000 00	*\$356,137 00
<i>Morning and Evening Gun—</i>							
For firing the morning and evening gun at military posts, prescribed by General Orders No. 70, Headquarters of the Army, dated July 23, 1867.....	Sept. 22, 1888	25	488	1		30,600 00	30,600 00
<i>Targets for Artillery Practice—</i>							
For targets for artillery practice.....	Sept. 22, 1888	25	488	1		5,000 00	5,000 00
NOTE.—At our forts we are obliged to make floating targets and anchor them in the roadsteads for artillery-practice firing, which is necessary for the instruction of the troops. The Secretary of War decided (Circular No. 1, A. G. O., 1886), that these targets and the material and labor for their construction shall be furnished by the Ordnance Department, but the appropriations now made by Congress will not enable the Department to supply them.							
<i>Manufacture of Arms—</i>							
Manufacture of arms at the national armories.....	Sept. 22, 1888	25	487	1		400,000 00	400,000 00
Provided, that section 3709 of the Revised Statutes shall not apply to the purchase of supplies not exceeding in value the sum of two hundred dollars.							
NOTE.—Besides supplying the Regular Army, the Militia, the various colleges, and the other branches constituting the Military Establishment, the War Department has now to supply arms, ammunitions, &c., to the Marine Corps and to the several Executive Departments for use in protecting public money and property, under the act of March 3, 1879 (20 Stats., 412). The increased cost of the present breech-loading rifle, the greater demand for its use, and paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand July 1, 1888, subject to issue but 196,008 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty.							
Total, support of the Army.....						24,970,658 24	23,774,710 97

		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of chemistry, mineralogy and geology :							
For chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet-metal, ores, photographic apparatus and materials.....	May 1, 1888	25	109	1	\$500 00		
Rough specimens, fossils, files, alcohol, lamps, blow-pipes, pencils and paper for practical instruction in mineralogy, and for gradual increase and improvement of the cabinet.....do.....				500 00		
Repairs and additions to electric, magnetic, pneumatic, and thermic apparatus, and apparatus illustrating optical properties and substances : <i>Provided</i> , That any of the above sums may be available for the purchase of a gas-engine for operating electric machines.....	May 1, 1888	25	110	1	650 00		
For pay of mechanic employed in chemical and geological section-rooms and in lecture-rooms.....do.....				1,000 00		
Models, maps and diagrams, books of reference, text-books and stationery for use of instructors.....do.....				180 00		
Contingenciesdo.....				100 00		
Total					\$2,930		
NOTE.—The total amount asked for is the same as heretofore appropriated, but authority to apply any of the money, for apparatus and material, to the purchase of a gas engine is asked for by the head of this department, who states that as few purchases as possible are desired to be made pending the question of a new building, and it is therefore thought that enough can be saved, from the amounts appropriated for the purchase of the engine referred to.							
Department of history, geography, and ethics :							
For text-books, books of reference and stationery for instructors, and repairs.....do.....				150 00		
Department of cavalry, artillery, and infantry tactics :							
For tanbark or other proper cover for riding-hall, to be immediately available upon approval of this act, and to be purchased in open market on written order of the superintendent.....do.....				600 00		
For repairing camp-stools and camp-furniture.....do.....				100 00		
For furniture for offices and reception-rooms.....do.....				100 00		
For stationery for use of instructor and assistant instructors of tactics.....do.....				150 00		
For repairs of gymnasium and gymnasium suppliesdo.....				250 00		
For foils, masks, belts, fencing and boxing gloves, fencing-jackets, gaiters, and repairs, and for metal-lined boxes for proper protection of fencing gloves and jackets.....do.....				250 00		
For books and maps, binding books and mounting maps.....do.....				75 00		
For plumes for cadet officers of the first-class.....do.....				75 00		
Total.....					\$1,600		
NOTE.—In recent years the price of tanbark has risen, and it is found that \$300—the amount usually appropriated—now buys 3,750 bushels, as against 5,000 bushels some years ago. The last years' allowance, 3,750 bushels, has already been used in order to place the riding-hall in a serviceable condition. It is also found that in private riding-halls of less area than the cadet riding-hall, more than 5,000 bushels of tanbark are used annually, and it is thought that as much as that now purchased should be used in the riding-hall twice a year in order to keep it in good condition.							
Department of law :							
For stationery, text-books, and books of reference for use of instructors, and for repairing and rebinding same, and furniture for office.....do.....				250 00		
Department of civil and military engineering :							
For models, maps, purchase and repair of instruments, text-books, books of reference, and stationery for use of instructors, and contingencies.....do.....				500 00		
Extra pay of one enlisted man employed as draughtsman.....do.....				256 00		
Total.....					\$756		
Department of ordnance and gunnery :							
For purchase and repairs of instruments, models, and apparatus, and purchase of necessary materials ; for the purchase of samples of arms and accoutrements other than those supplied to the military service ; for the purchase and preparation of specimens for use in the testing machine ; for books of reference, text-books, and stationerydo.....				400 00		

General object (title of appropriation) and details and explanations.

Date of acts, or treaties, providing for the expenditure.

References to Stats. at Large, or to Revised Statutes.

Vol. or R S	Page.	Sec.
----------------	-------	------

Estimated am't
required for
each detailed
object of ex-
penditure.

Total amount to be appropriated under each head of appropriation.

Amount appropriated for the fiscal year ending June 30, 1889.

For stereotyping, and for making lithographic drawings illustrating revised course of instruction in ordnance and gunnery.....

Provided, That from the amounts so appropriated extra pay, at fifty cents per day, may be paid to an enlisted man while employed as a draughtsman.....

NOTE.—The first item is a reduction of \$100 below amount appropriated last year. The second item is necessary, as the supply of printed text-books in store is nearly exhausted, and they are too obsolete to be worth reproduction without considerable rearrangement.

The provisions for extra pay is necessary to secure the services of a draughtsman willing to enlist. Extra pay to ordnance soldiers is now practically forbidden by law.

Department of practical military engineering :

For purchase and repair of instruments ; transportation ; purchase of tools, implements and materials, and for extra-duty pay of engineer soldiers, as follows, viz. : instruments for use in instructing cadets in making reconnoissances ; photographic apparatus and materials for field photography ; drawing instruments and materials for plating reconnoissances ; surveying instruments ; one type-writer, instruments and materials for signaling and field telegraphy ; transportation of field parties ; tools and materials for the preservation, renewal, and repair of one wooden ponton, and one canvas ponton-bridge train ; sapping and mining tools and material, profiling material ; rope ; cordage, and materials for rafts and for spar and trestle bridges ; trenching tools ; tools and materials for the repair of Fort Clinton and the batteries at the Academy, and extra-duty pay of engineer soldiers employed upon the same ; extra-duty pay of two engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering ; for models, books of reference, and stationery....

NOTE.—The amount is the same as for current year. Special importance is attached to the item for extra-duty pay, for the reasons given at length in Major Stanton's letter of August 19, 1884.

Department of drawing :

For books and periodicals on art and technology.....	do.....	100 00
For models (machine, architectural, and topographical), in flat and facsimile, for second and third classes.....	do.....	150 00
For repairs to desks, models, stretchers, and material.....	do.....	100 00
For photographic material, <i>i. e.</i> , dry plates and sensitized paper, chemicals, and apparatus for instruction in re- production processes and photographic surveying.....	do.....	150 00
Drawing material for use of instructors, glue, alcohol, tacks, tumblers, saucers, sponges, brushes, cloth, tow- els, soap, ink-pads, blank-pads, hektograph, ink, paint, and contingencies.....	do.....	200 00
Stationery.....	do.....	5 00
Total	\$705	
Extra pay of two enlisted men, employed as clerks in the offices of the adjutant, United States Military Academy, and commandant of cadets, at thirty-five cents per day...	do.....	237 30
Extra pay of two enlisted men as printers, at headquarters United States Military Academy, at fifty cents per day...	do.....	313 00
Extra pay of one enlisted man, employed as watchman, at thirty-five cents per day.....	do.....	159 60

NOTE.—The original estimate for this man's services called for the above amount, which was thought a fair compensation for his services. Of this amount only \$127.75 cents was allowed, which, for the length of time he is employed daily, is not deemed sufficient. As the soldier is employed daily at least ten hours, and as eight hours constitute a legal working day, it is deemed just and proper to pay him for the extra hours in question, and it is so provided in A. R., 1881, paragraph 413. In order to show the necessity for this watchman, and the very valuable services rendered by him, the following explanatory note, relative to his duties, taken from last year's estimate, is respectively submitted: "Experience has proved that the services of a watchman at this post are indispensable. Very valuable property is daily placed under his charge, and it is thought that the multitudinous duties he has to perform precludes the possibility of their being performed by an ordinary sentinel. It is made his duty to see that the police regulations, so far as relates to suspicious characters, tramps, &c., are carried out, and that the roads, walks, forts, slopes, and batteries are not injured by the various parties of pleasure-seekers daily visiting the post during the summer. His duties call him forth early and late, in all kinds of weather, Sundays and holidays, and I therefore strongly recommend that this item be allowed."

For gas-coal, oil, candles, lanterns, matches, chimneys, and wicking for lighting the Academy, chapel, library, cadet-barracks, mess-hall, shops, hospital, offices, stables and riding-hall, sidewalks, camp, and wharves.....	May 1, 1888	25	111,'2	1	3, 500 00		
Water-pipes, plumbing, and repairs.....	do.....				2, 000 00		
Cleaning public buildings (not quarters).....	do.....				600 00		
Brooms, brushes, pails, tubs, soap, and cloths.....	do.....				200 00		
Chalk, crayons, sponges, slate, rubbers, and card for recitation rooms.....	do.....				300 00		
Compensation of chapel organist.....	do.....				200 00		
Compensation of librarian	do.....				120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet-barracks, and office building, cadet hospital, chapel and philosophical building, including the library.....	do.....				1, 500 00		
Pay of assistant engineer of same.....	do.....				1, 000 00		
Pay of five firemen.....	do.....				2, 700 00		
Pay of librarian's assistant.....	do.....				1, 000 00		
Total.....					\$13,120		
<i>NOTE.—The increase (\$300) in the estimate for pay of engineer in charge of the steam-heating plant arises from the fact that this man has in previous years, i. e., from 1872 (date of his appointment) to 1878, both inclusive, received a salary of \$1,500 a year. During the time he has been employed his responsibility has largely been increased by the enlargement of the steam-heating plant, and it is thought it would be a matter of justice to raise his salary to its original standard, as the salaries of other employes which were reduced have been restored recently by Congress.</i>							
For increase and expense of library, namely: For periodicals, stationery, binding new books, and scientific, historical, biographical, and general literature; to be purchased in open market on the written order of the superintendent.....	do.....				1, 500 00		
For additional tables and chairs, furniture, and contingent repairs to library rooms.....	do.....				200 00		
For furniture for cadet-hospital, and repairs of the same..	do.....				100 00		
For contingencies for superintendent of the Academy.....	do.....				1, 000 00		
For renewing furniture in section-rooms, and repairing the same.....	do.....				500 00		
For contingent funds to be expended under the direction of the Academic Board; for instruments, books, repairs to apparatus, and other incidental expenses not otherwise provided for.	do.....				1, 000 00		
<i>Provided, That all technical and scientific supplies for the departments of instruction of the Military Academy shall be purchased by contract or otherwise, as the Secretary of War may deem best.</i>							
For purchase and repair of instruments for band.....	Submitted.....				500 00		
<i>NOTE.—The estimate for buildings and grounds, Military Academy, will be found under the title "Public Works," post.</i>

NAVAL ESTABLISHMENT.

NAVAL ESTABLISHMENT

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
UNDER THE NAVY DEPARTMENT.							
GENERAL EXPENSES.							
Pay of the Navy—							
For the pay of officers on sea duty ; officers on shore and other duty ; officers on waiting-orders ; officers on the retired-list ; Admiral's and Vice-Admiral's secretaries ; clerks to commandants of yards and stations ; clerks to paymasters at yards and stations ; inspections ; receiving-ships and other vessels ; extra pay to men re-enlisting under honorable discharge ; pay of petty officers, seamen, landsmen, and boys, including men in the engineers' force, and for the Coast-Survey service and Fish Commission, seven thousand five hundred men and seven hundred and fifty boys, at the pay prescribed by law.....		R. S.	246	1367	}	\$7, 541, 779 00	\$7, 082, 404 00
		R. S.	248	1386-8			
		R. S.	265	1556			
		R. S.	269	1569			
		R. S.	269	1573			
		R. S.	272	1595			
May 12, 1879		21	3	1			
Aug. 5, 1882		22	285-7	1			
Mar. 3, 1883		22	472, '3	1			
Mar. 3, 1885		23	340	1			
Sept. 7, 1888		25	458	1			
NOTE.—The foregoing estimate is made up as follows :							
Pay of 1,528 officers on the active list.....							\$3, 513, 000
Pay of 287 naval cadets under instruction.....							143, 500
Pay of 365 officers on the retired list.....							866, 279
Pay of 2 secretaries and 91 clerks.....							120, 000
Pay of petty officers, seamen, landsmen, and boys..							2, 800, 000
Extra pay to petty officers and seamen re-enlisting under honorable discharge (900) at an average of \$110.....							99, 000
							7, 541, 779
Increase over appropriation 1889, \$459,375.							
This increase arises as follows :							
Increase pay to officers under decisions of the Supreme Court.....							\$100, 000
Increase pay to petty officers and seamen under new classification and rates proposed.....							300, 000
Increase in bounty to additional number re-enlisting under honorable discharge.....							9, 000
Increase on account of additional number of cadets under instruction.....							30, 500
Increase on account of increase in clerks.....							6, 500
Increase on account of different assignment of officers to duty.....							40, 096
							486, 096
Decrease in pay of retired officers.....							26, 721
							459, 375
For a detailed statement of the officers, &c., of the Navy, see Appendix "P."							
Pay, Miscellaneous—							
For commissions and interest ; transportation of funds ; exchange ; mileage to officers while traveling under orders in the United States, and for actual personal expenses of officers while traveling abroad under orders, and for traveling expenses of apothecaries, yeomen, and civilian employes, and for actual and necessary traveling expenses of naval cadets while proceeding from their homes to the Naval Academy for examination and appointment as cadets ; for rent and furniture of buildings and offices not in navy-yards ; expenses of courts-martial, prisoners and prisons, and courts of inquiry, boards of investigation, examining boards, with clerks and witnesses' fees, and traveling expenses and costs ; stationery and recording ; expenses of purchasing-paymasters' offices of the various cities, including clerks, furniture, fuel, stationery, and incidental expenses ; newspapers and advertising ; foreign postage ; telegraphing, foreign and domestic ; telephones ; copying ; care of library, including purchase of books, prints, manuscripts, and periodicals ; ferriage, tolls, and express-fees ; cost of suits ; commissions, warrants, diplomas, and discharges ; relief of vessels in distress ; canal tolls and pilotage ; recovery of valuables from shipwrecks ; quarantine expenses ; reports, professional investigation, cost of special instruction at home or abroad in maintenance of students and attachés, and information from abroad and the collection and classification thereof, and other necessary incidental expenses.....	Sept. 7, 1888	25	458	1		225, 000 00	215, 000 00
Contingent Navy—							
For all emergencies and extraordinary expenses arising at home or abroad, but impossible to be anticipated or classified, exclusive of personal services in the Navy Department or any of its subordinate bureaus or offices at Washington, D. C.....	Sept. 7, 1888	25	459	1		7, 000 00	7, 000 00

BUREAU OF NAVIGATION.							
<i>Navigation and Navigation Supplies—</i>							
Foreign and local pilotage and towage of ships of war; services and materials in correcting compasses on board ship, and for adjusting and testing compasses on shore; nautical and astronomical instruments, nautical books, maps, charts, sailing directions, and repairs of nautical instruments for ships of war; books for libraries of ships of war, and professional papers; naval signals and apparatus, namely: signal-lights, lanterns, rockets, running-lights, drawings and engravings, for signal-books; compass-fittings, including binnacles, tripods, and other appendages of ship's compasses; logs and other appliances for measuring the ship's way, and leads and other appliances for sounding; lanterns and lamps, and their appendages for general use on board ship, including those for the cabin, wardroom, and steerage, for the holds and spirit-room; for decks and quartermaster's use; bunting and other materials for flags, and making and repairing flags of all kinds; oil for ships of war, other than that used in the engineer department; candles, when used as a substitute for oil in binnacles and running-lights, chimneys and wicks, and soap used in the navigation department; stationery for commanders and navigators of vessels of war, and for use of courts-martial; musical instruments and music for vessels of war; steering-signals and indicators, and speaking-tubes and gongs for signal communications on board of vessels of war; photographic instruments and materials; and for introducing and maintaining electric lights on board vessels of war.....	Sept. 7, 1888	25	459	1		\$130,000 00	\$90,000 00
<i>Electric-Lighting Plants—</i>							
For installing the monitors "Miantonomah," "Terror," and "Monadnock," with electric-lighting plants, \$15,000 each.....	Submitted.....				\$45,000 00		
For increasing the electric-lighting plant of the "Baltimore," to be immediately available.....do.....				2,600 00		
For increasing the electric-lighting plant of the "Charleston," to be immediately available.....do.....				2,600 00		
For installing the gunboat "Petrel," with an electric-lighting plant, to be immediately available.....do.....				5,000 00		
For installing the dynamite-gun cruiser "Vesuvius" with an electric-lighting plant.....do.....				5,000 00		
For installing the receiving-ship "Vermont" with an electric-lighting plant.....do.....				6,000 00		
						66,200 00	
<i>Ocean Surveys—</i>							
For special ocean surveys, and the publication thereof.....	Sept. 7, 1888	25	459	1		20,000 00	5,000 00
<i>Publication of Surveys, Mexican and other coasts—</i>							
For preparing and engraving on copper-plates the surveys of the Mexican coasts, and the publication of a series of charts of the coasts of the Central and South America..	Sept. 7, 1888	25	459	1		10,000 00	5,000 00
<i>Charts of China, Japan, and Pacific Islands—</i>							
For preparing and engraving on copper-plates a series of charts of the coasts of China and Japan and the Pacific Islands.....	Submitted.....					10,000 00	
<i>Naval War College—</i>							
For maintenance of War College; repairs and improvements on buildings; heating, lighting, and furniture for same; books and stationery; freight and other contingent expenses; purchase of feed and maintenance of horses and mail-wagon, and attendance on same.....	Sept. 7, 1888	25	459	1		10,000 00	10,000 00
<i>Contingent, Bureau of Navigation—</i>							
Contingent expenses of the Bureau of Navigation, viz: Freight and transportation of navigation materials; postage and telegraphing on public business; packing-boxes and materials; furniture, stationery, and fuel for navigation offices at navy-yards, and all other contingent expenses.....	Sept. 7, 1888	25	459	1		5,000 00	5,000 00

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Civil Establishment, Bureau of Navigation—</i>							
Navy-yard, New York, N. Y.:							
One clerk.....	Jan. 30, 1885	23	295	3	\$1,400 00		
One writer.....	Sept. 7, 1888	25	459	1			
One storekeeper.....	Same acts.....						
One master of tugs.....	do.....						
Navy-yard, Portsmouth, N. H.:							
One clerk.....	do.....				1,000 00		
Navy-yard, Norfolk, Va.:							
One clerk.....	do.....				1,200 00		
Navy-yard, Washington, D. C.:							
One clerk.....	do.....				1,000 00		
Navy-yard, Mare Island, Cal.:							
One clerk.....	do.....				1,000 00		
Naval War College:							
One clerk (increase of \$700 submitted).....	do.....				1,000 00		
						\$10,000 00	\$9,300 00
BUREAU OF ORDNANCE.							
<i>Ordnance and Ordnance Stores—</i>							
For procuring, producing, preserving, and handling ordnance material; for the armament of ships; for fuel, tools, and material, and labor to be used in the general work of the Ordnance Department; for furniture at magazines, at the ordnance dock, New York, and at the naval ordnance battery and proving-ground, and for prizes to enlisted men for excellence in ordnance exercise and target-practice.....	Sept. 7, 1888	25	460	1	130,000 00		
For proof of naval armaments.....	do.....				6,000 00		
For new wharf and approaches at Craney Island, Norfolk harbor.....	Submitted.....				5,000 00		
NOTE.—The old wharf is badly decayed and worn, and from the filling in of channel is accessible only at high water. It will require at least \$5,000 to dredge a channel, which from its location will fill in with mud almost as fast as it is removed. It is therefore recommended that the old wharf be abandoned, and a new wharf built further out, the end to be in deeper water.							
Main and secondary batteries, complete, of the new types, for two of the ships now in service.....	do.....				222,500 00		
Towards the general armament of the Navy with modern secondary batteries and small arms:							
24 machine-cannon of modern calibre.....	do.....				74,400 00		
10 musket-calibre machine-guns.....	do.....				27,500 00		
1,000 magazine-rifles, equipments and ammunition.....	do.....				34,750 00		
400 naval-cadet magazine-rifles.....	do.....				6,000 00		
1 steel-shell lighter, of about 68 tons displacement, with carrying capacity of about 45 tons.....	do.....				8,000 00		
						514,150 00	253,000 00
NOTE.—The above lighter is required for carrying shells from the magazine, Ellis Island, New York, to and from ships and the Navy Yard.							
<i>Repairs, Bureau of Ordnance—</i>							
Necessary repairs to ordnance buildings, magazines, gun-parks, boats, lighters, wharves, machinery, and other objects of the like character.....	Sept. 7, 1888	25	460	1		15,000 00	15,000 00
<i>Contingent, Bureau of Ordnance—</i>							
Miscellaneous items, viz: Freight to foreign and home stations; advertising; cartage and express charges; repairs to fire-engines; gas and water pipes; gas and water tax at magazines; toll, ferriage, foreign postage, and telegrams to and from the Bureau.....	Sept. 7, 1888	25	460	1		10,000 00	5,000 00
NOTE.—The usual amount (\$5,000) appropriated under the above head, is insufficient. A deficiency appropriation of \$3,000 additional has just been made for the year 1888, and it is found that a still further deficiency for that year will probably exist when all the accounts from foreign stations are in.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.

<i>Civil Establishment, Bureau of Ordnance—</i>							
Navy-yard, Portsmouth, N. H.:							
One writer	{ Jan. 30, 1885 Sept. 7, 1888	23	295	3	\$500 00		
		25	460	1			
Navy-yard, Boston, Mass.:							
One writer	Same acts.....				500 00		
Navy-yard, New York, N. Y.:							
One clerk	do.....				1,400 00		
Navy-yard, Washington, D. C.:							
One clerk.....	do.....				1,800 00		
Two writers, at \$1,017.25 each	do.....				2,034 50		
One draughtsman	do.....				1,800 00		
Three draughtsmen, at \$1,081 each	do.....				3,243 00		
One assistant draughtsman.....	do.....				772 00		
One foreman.....	do.....				2,156 00		
Two copyists, at \$720 each.....	do.....				1,440 00		
One telegraph operator.....	do.....				900 00		
Navy-yard, Norfolk, Va.:							
One clerk.....	do.....				1,200 00		
Navy-yard, Mare Island, Cal.:							
One writer	do.....				1,017 25		
Naval ordnance proving-ground, Annapolis, Md.:							
One writer	do.....				1,017 25		
Torpedo-station, Newport, R. I.:							
One chemist.....	do.....				2,500 00		
One clerk.....	do.....				1,200 00		
One draughtsman.....	do.....				1,500 00		
NOTE.—The above estimate increases the pay of the clerk (\$200) and principal draughtsman (\$255) at the Washington Navy-Yard. These are very laborious and responsible positions, and are filled by most efficient and excellent men, who should have the rate of pay estimated for.						\$24,980 00	\$24,525 00
<i>Torpedo Corps—</i>							
Labor, material, freight and express charges; general care of and repairs to grounds, buildings, and wharves; boats; instruction; instruments; tools; furniture; experiments, and general torpedo outfits.....	Sept. 7, 1888	25	461	1	60,000 00		
NOTE.—The Torpedo Station has developed very rapidly within the past few years, necessitating a somewhat larger appropriation for current purposes. The sum usually granted (\$50,000) is too small. It should, in justice to the work, be increased to \$60,000.							
For enlarging torpedo boat-house to receive the "Stiletto," and other torpedo boats.....	Submitted				5,000 00		
For torpedo boat marine railway	do.....				5,000 00	70,000 00	65,700 00
NOTE.—The two preceding items are imperatively necessary for the preservation of torpedo boats.							
BUREAU OF EQUIPMENT AND RECRUITING.							
<i>Equipment of Vessels—</i>							
For coal for steamers' and ships' use, including expenses of transportation, storage and handling; hemp, wire, and other materials for the manufacture of rope and cordage; iron for the manufacture of anchors, cables, galleys and chains; canvas for the manufacture of sails, awnings, bags, and hammocks; water for steam-launches; heating apparatus for receiving-ships, and for the purchase of all other articles of equipment at home and abroad, and for the payment of labor in equipping vessels and manufacture of equipment articles in the several navy-yards.....	Sept. 7, 1888	25	461	1		700,000 00	625,000 00
<i>Transportation and Recruiting Bureau of Equipment and Recruiting—</i>							
For expenses of recruiting for the naval service; rent of rendezvous, and expenses of maintaining the same; advertising for men and boys, and all other expenses attending the recruiting for the naval service, and for the transportation of all enlisted men and boys at home and abroad.....	Sept. 7, 1888	25	461	1		30,000 00	30,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.

<i>Support of Indian School at Salem, Oreg.—</i> Support of 200 Indian pupils, at \$175 per annum each; necessary out-buildings, repairs, and fencing, at the Indian school at Salem, Oreg. (formerly Forest Grove school), and for pay of the superintendent of said school..	Appropriated..	25	236	1	36,500 00	36,500 00
<i>Support of Indians at St. Ignatius School, Montana—</i> Support of 150 Indian pupils at the St. Ignatius Mission school, on the Jocko reservation, in Montana Territory, at \$150 per annum each.....	Appropriated..	25	236	1	22,500 00	22,500 00
<i>Support of Indian School, Wabash, Indiana—</i> Support of sixty Indian pupils at White's Manual Labor Institute, of Wabash, Indiana, including transportation..	Appropriated..	25	236	1	10,020 00	10,020 00
<i>Support of Indian School, Cherokee, N. C.—</i> Support of eighty pupils at the Cherokee Training School, at Cherokee, North Carolina, at \$150 per annum each...	Appropriated..	25	236	1	12,000 00	12,000 00
<i>Support of Indian Schools in Minnesota for Chippewa's—</i> Education and support of one hundred Chippewa Indian boys and girls at Saint John's University, and at Saint Benedict's Academy, in Stearns County, State of Minnesota, at \$150 each per annum.....	Appropriated..	25	236	1	15,000 00	15,000 00
<i>Support of Indian Children at Schools in States—</i> Care, support, and education of Indian pupils at industrial, agricultural, mechanical, or other schools, other than those herein provided for, in any of the States or Territories of the United States, at a rate not to exceed \$167 for each pupil.....	Appropriated..	25	236	1	63,180 00	63,180 00
<i>Indian School Transportation—</i> Collecting and transportation of pupils to and from Indian schools, and also for the transportation of Indian pupils from all the Indian schools and placing of them, with the consent of their parents, under the care and control of such suitable white families as may in all respects be qualified to give such pupils moral, industrial, and educational training, under arrangements in which their proper care, support, and education shall be in exchange for their labor.....	Appropriated..	25	237	1	28,000 00	28,000 00
INTEREST ON TRUST-FUND STOCKS.							
Payment of interest on certain abstracted and non-paying State stocks, belonging to the various Indian tribes, and held in trust by the Secretary of the Interior, for the fiscal year ending June 30, 1889:							
<i>Interest on Cherokee National Fund—</i> \$68,000 00 Abstracted bonds.....	Appropriated..	25	237	1	\$4,080 00		
13,000 00 Florida seven per cent. bonds.....	do.....				910 00		
28,000 00 North Carolina six per cent. bonds.....	do.....				1,680 00		
90,000 00 Virginia six per cent. bonds.....	do.....				5,400 00		
125,000 00 Tennessee five per cent. bonds.....	do.....				6,250 00		
118,000 00 South Carolina six per cent. bonds.....	do.....				7,080 00		
11,000 00 Louisiana six per cent. bonds.....	do.....				660 00		
						26,060 00	26,060 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Interest on Cherokee School-Fund—</i>							
\$15,000 00 Abstracted bonds	Appropriated..	25	237	1	\$900 00		
7,000 00 Florida seven per cent. bonds.....	do.....				490 00

	Oct. 2, 1888	25	505	1			
That limit of cost of building be extended by the amount obtained from sale of old site.....							
	Submitted.						

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Bear Island Light-Station, Maine—</i> For building a new keeper's dwelling at Bear Island Light-Station, Maine.....						\$3,750 00	
NOTE.—The dwelling now in use is sixty years old, and so much dilapidated that it will be more economical to build a new one than to repair it.							
<i>Great Duck Island Light-Station, Maine—</i> For establishing a light and fog-signal on Great Duck or Long Island, Maine						30,000 00	
NOTE.—A light and fog-signal here would be of great assistance to vessels desiring to enter either Bass harbor or Southwest harbor. Both of these are frequently used by coasting vessels at all seasons of the year.							
<i>Green Island Light-Station, Maine—</i> For establishing a light upon Green Island, near the entrance to Burnt Coat Harbor						12,000 00	
NOTE.—Burnt Coat harbor is an excellent and capacious harbor of refuge. The range-lights which guided to the entrance were unsatisfactory, and a vessel was wrecked in 1883, while trying to make the harbor by their aid. One of them was accordingly discontinued, and it is proposed to erect in its stead a light-house on Green Island, about one mile to the southward of the entrance.							
<i>Steam-tender for the First Light-House District—</i> For a new steam-tender for service in the First Light-House District.....						85,000 00	
NOTE.—This is to take the place of the Iris, an old vessel bought of the Navy Department in 1865. The establishment of additional steamer lines upon the Maine coast has made it necessary to extend the buoyage very greatly, and the service requires a new steel steamer with twin screws and all modern appliances for handling buoys. Effective service with the present appliances is impossible, and the Iris is also liable at any time to be disabled.							
<i>State Ledge Light-Station, Massachusetts—</i> For establishing a light-house and fog-signal at or near State Ledge, Boston Harbor, Massachusetts.....						42,000 00	
NOTE.—Required to mark an important turning-point in the main ship-channel Boston Harbor. Large steamers are frequently obliged to anchor in thick weather because they have no guide between Nix's Mate and the wharves.							
<i>Dumpling Rock Light-Station, Massachusetts—</i> For building a new dwelling for the keeper at Dumpling Rock Light-Station, entrance to New Bedford Harbor, Massachusetts.....						3,750 00	
NOTE.—The structure now occupied is over sixty years old, and so dilapidated that it would be a waste of money to repair it.							
<i>Egg Rock Light-Station, Massachusetts—</i> For establishing a light-house and fog-signal at or near Egg Rock, entrance to New Bedford Harbor, Massachusetts.....						45,000 00	
NOTE.—It is difficult for vessels drawing over nine feet of water to find the proper turning-point for entering this harbor during a fog. The station proposed will give them the proper guide. New Bedford now ranks as third in importance among the manufacturing cities of Massachusetts, and 500,000 tons of shipping came into this port last year.							
<i>Bird Island Light-Station, Massachusetts—</i> For building a new dwelling for the keeper of Bird Island Light-Station, entrance to Sippecan Harbor, Massachusetts.....						3,750 00	
NOTE.—The structure now in use is over sixty years old, and past economical repair.							
<i>Wing's Neck Light-Station, Massachusetts—</i> For building a new keeper's dwelling at Wing's Neck Light-Station, entrance to Sandwich Harbor, Massachusetts.....						3,750 00	
NOTE.—The dwelling at this station is also in such bad condition that it cannot be effectively and economically repaired.							
<i>Great Round Shoal Light-Ship, Massachusetts—</i> For establishment of a light-ship with a fog-signal to mark the channel through Great Round Shoal, near Nantucket, Mass.....						60,000 00	
NOTE.—This channel has recently been buoyed and become one of the principal thoroughfares, greatly relieving Pollock Rip.							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
Hog Island Light-Station, Virginia— For establishing a first-order light to take the place of the fourth-order one now at Hog Island, south side of the Great Machipongo Inlet, sea-coast of Virginia..... <small>NOTE.—The light now on Hog Island does not illuminate the entire interval between Assateague and Cape Charles. It is considered important to commerce that this dangerous coast should be fully lighted, and it is therefore proposed to place a first-order light on a tower 150 feet high.</small>	Submitted.....					\$125, 000 00	
Hog Island Wharf and Roadway, Virginia— For establishing a wharf, and roadway to the light-house at Hog Island, Virginia..... <small>NOTE.—This is required for the effective landing and transportation of supplies. Authorized by act approved October 19, 1888.</small>	Oct. 19, 1888	25	614	1		5, 000 00	
Bush's Bluff Light-Ship, Virginia— For establishing a light-ship and fog-signal at or near Bush's Bluff Shoal, Elizabeth River, near Norfolk, Va., in addition to the balance remaining of the appropriation made by the act approved March 3, 1885, for a light-house and fog-bell on Bush's Bluff, which is hereby made available for the same purpose..... <small>NOTE.—A careful examination of the site selected for this light-house has developed the fact that a solid foundation cannot be obtained unless the work is carried down 82 feet, through soft mud. The appropriation now available is, therefore, entirely inadequate for the work, and the board is of the opinion that it will be much cheaper to establish a light-ship than to build a light-house on such a site. In case the shoal should be removed, the light-ship would be available for use elsewhere.</small>	Submitted.....					40, 000 00	
Portsmouth Depot, Virginia— For the purchase of additional land for the site of the Portsmouth light-house depot, Virginia, including about ninety-six feet of water-front..... <small>NOTE.—The business of the district which draws supplies from this depot has been so greatly extended that the present storage capacity and wharves are insufficient.</small>	Submitted.....					10, 000 00	
Page's Rock Light-Station, Virginia— For establishing a light on or near Page's Rock, in York River, Virginia..... <small>NOTE.—This rock is quite dangerous, even to vessels of small draught. The increase of commerce upon the river, and still greater prospective increase, makes a light at this point quite necessary. The continuation of railroads now centering at West Point head of York River includes over 1,300 miles of road, necessitating additional and daily lines of steamers to New York and Baltimore.</small>	Submitted.....					25, 000 00	
Shark's Fin Shoal Light-Station, Maryland— For establishing a light on Shark's Fin Shoal, Maryland, to take the place of Clay Island light..... <small>NOTE.—The site at Clay Island is rapidly washing away, and expensive works of protection will be necessary. It will be cheaper to build a screw-pile light-house on the shoal.</small>	Submitted.....					25, 000 00	
Cedar Point Light-Station, Maryland— For establishing a light and fog-signal on Cedar Point, mouth of Patuxent River, Chesapeake Bay, Maryland.. <small>NOTE.—The harbor at the mouth of the Patuxent is the best on the western side of the bay. The light is needed to guide into this harbor, and also for the general navigation of the bay.</small>	Submitted.....					25, 000 00	
Greenbury Point Shoal Light-Station, Maryland— For establishing a light on the shoal off Greenbury Point, Maryland, to replace the one on the point..... <small>NOTE.—The land about the light-house on the point is washing away and the structure is endangered. In its present position the light is of little use, as it is difficult to distinguish it from the lights of Annapolis. It is proposed to build a new structure nearer the channel.</small>	Submitted.....					25, 000 00	
Swan Point Bar Light-Station, Maryland— For establishing a light and fog-signal on Swan Point Bar, opposite to Bodkin Point, Maryland..... <small>NOTE.—This is an important turning point for vessels navigating Chesapeake Bay. It is proposed to place a light-house in 12 feet of water on the extreme point of the bar. It must be strong enough to withstand ice.</small>	Submitted.....					50, 000 00	
Maryland Point Light-Station, Maryland— For the establishment of a light-house and fog-signal at or near Maryland Point, Potomac River, Maryland..... <small>NOTE.—This is an important turning-point in the river and a light would be of great benefit to navigation. The foundation must be strong enough to withstand ice.</small>	Submitted.....					45, 000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>False Cape Light-Ship, Virginia—</i> For the establishment of a light-ship at or near False Cape, sea coast of Virginia..... <i>NOTE.</i> —Shoals make out from this point which are dangerous to navigators. A light would be of very great assistance, both as a guide to Hampton Roads and a protection for coast-wise traffic.	Submitted.....					\$60,000 00	
<i>Diamond Shoal Light-Station, North Carolina—</i> For the establishment of a light-house and fog-signal on Outer Diamond Shoal, off Cape Hatteras, North Carolina..... <i>NOTE.</i> —The shoals off Cape Hatteras are among the most dangerous of the Atlantic Coast. The Board is satisfied that a light-house can be built there, upon a secure foundation, which would be of incalculable benefit by permitting shorter courses and ensuring safety.	Submitted.....					500,000 00	
<i>Cape Hatteras Light-Station, North Carolina—</i> For a new dwelling and oil-house at Cape Hatteras Light-Station..... <i>NOTE.</i> —The Cape Hatteras beacon has been recently re-established, and as an additional keeper is required for it, additional quarters are necessary. A detached oil-house is required for storing the oil that at present endangers the station.	Submitted.....					5,000 00	
<i>Pamplico Light-Station, North Carolina—</i> For establishing a light off Pamplico Point, North Carolina, to replace the one on the point..... <i>NOTE.</i> —The present structure is in danger of being washed away. This is so imminent that it has been found necessary to discontinue the light. A light on the shoal will be of much greater value to the extensive commerce of these waters, and would cost but little, if any, more than a permanent protection for the present tower and dwelling. Authorized by act approved October 19, 1888.	Oct. 19, 1888	25	614	1		25,000 00	
<i>Gull Shoal Light-Station, North Carolina—</i> For establishing a light and fog-signal on Gull Shoal, west side of Pamplico Sound, North Carolina..... <i>NOTE.</i> —No light exists between Long Shoal and Northwest Point Royal Shoal, a distance of 35 miles. Gull Shoal extends far into the Sound and many vessels have struck upon it. Authorized by act approved October 19, 1888.	Oct. 19, 1888	25	614	1		30,000 00	
<i>Pork Point Light-Station, North Carolina—</i> For establishing a light-station and fog-signal off Pork Point, Roanoke Island, Croatan Sound, North Carolina.. <i>NOTE.</i> —A large inland commerce navigates these waters and many serious accidents have occurred at this place for want of a light. It is also a turning-point for vessels navigating the Sound.	Submitted.....					20,000 00	
<i>North River Bar Beacons, North Carolina—</i> For the establishment of lighted beacons to guide through the dredged channel at North River Bar, North Carolina..... <i>NOTE.</i> —The Engineer Corps of the Army is about to complete a dredged channel through North River Bar. This should then be lighted.	Submitted.....					2,000 00	
<i>Bull's Bay Beacon, South Carolina—</i> For establishing a small beacon light at Bull's Bay, South Carolina..... <i>NOTE.</i> —Several steamers ply between Charleston and the ports on the Santee River. It is proposed to suspend a small light on a pole, to be located on the wharf of the Bull's Bay Oyster Company.	Submitted.....					60 00	
<i>Hilton Head Range-Beacons, South Carolina—</i> For the purchase of additional land for the purpose of shifting the range-beacons at Hilton Head, entrance to Port Royal Harbor, South Carolina..... <i>NOTE.</i> —Changes in the channel have made it desirable to shift the front beacon of this range beyond the limits of the site now owned by the United States.	Submitted.....					1,000 00	
<i>St. Catharine's Sound Light-Station, Georgia—</i> For the establishment of a light-house near the entrance to St. Catharine's Sound, Georgia..... <i>NOTE.</i> —An unlighted gap exists here between Tybee and Sapelo lights. A large number of vessels sight land for the first time at this locality.	Submitted.....					20,000 00	

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Fernandina Harbor Range-Lights, Florida—</i> For the establishment of one or more sets of range-lights, to guide into the harbor of Fernandina, Florida..... <i>NOTE.</i> —These are needed to guide past the dangerous shoals of Kingsley's Bank, City of Austin Bank, and Pelican Shoal.	Submitted.....					\$1,750 00	
<i>Hillsboro' Inlet Light-Station, Florida—</i> For establishing a light at Hillsboro' Inlet, Florida..... <i>NOTE.</i> —A light on this important point is necessary to complete the system for this dangerous coast.	Submitted.....					90,000 00	
<i>St. Joseph's Point Light-Station, Florida—</i> For establishing a light at St. Joseph's Point, in St. Joseph's Bay, west coast of Florida..... <i>NOTE.</i> —This is needed to guide into St. Joseph's Bay, the only harbor of refuge for some 60 miles. It would be of great advantage to the numerous fishing vessels on this coast.	Submitted.....					25,000 00	
<i>Dog River Bar Light-Station, Alabama—</i> For establishing a permanent light in the Dog River Bar channel, entrance to Mobile Bay, Alabama..... <i>NOTE.</i> —The present system of lights is inadequate for running vessels up to Mobile during the night.	Submitted.....					20,000 00	
<i>Pascagoula River Ranges, Mississippi—</i> For establishing range lights to guide into the mouth of the Pascagoula River, Mississippi..... <i>NOTE.</i> —The channel at the mouth of this river has been dredged out by the United States and should now be marked, as it is so narrow that it will be difficult to follow it at night.	Submitted.....					1,000 00	
<i>Pearl River Light-Station, Mississippi—</i> For establishment of a light on east bank of Pearl River, opposite the draw in the railway bridge <i>NOTE.</i> —This is believed to be a desirable aid for vessels entering the river and passing the draw.	Submitted.....					250 00	
<i>Point Isabel Light-Station, Texas—</i> For re-establishing the light at Point Isabel, entrance to Brazos Santiago, Texas..... <i>NOTE.</i> —This light was discontinued and it was found that the United States had no title to the land on which the structures were built. Evidence has been placed before the board that it should be re-established. The light-house buildings can be repurchased at a small comparative cost.	Submitted.....					8,000 00	
<i>Beaver Island, Fog-Signal, Michigan,</i> For establishing a fog-signal at Beaver Island, Lake Michigan..... <i>NOTE.</i> —This is needed as a guide to the northern passage between Beaver Island and the main land. Authorized by act approved October 1, 1888.	Oct. 1, 1888	25	499	1		5,500 00	
<i>Point Betsey Light-Station, Michigan—</i> For rebuilding the tower and dwelling at Point Betsey, east side of Lake Michigan, Michigan..... <i>NOTE.</i> —This is one of the most important stations on Lake Michigan and the power of the light should be increased. The present buildings are more than thirty years old and inadequate for the purpose. They are in bad condition and dangerously near the shore of the lake.	Submitted.....					35,000 00	
<i>Manistee Fog-Signal, Michigan—</i> For establishing a steam fog-signal at Manistee Light-Station, Lake Michigan, Michigan..... <i>NOTE.</i> —Manistee is an important port and one that steamers attempt to make when the ice opens during the winter. The fog-signal was authorized by act approved October 1, 1888.	Oct. 1, 1888	25	499	1		5,500 00	
<i>Chicago Breakwater Fog-Signal, Illinois—</i> For establishing a steam fog-whistle on the breakwater at Chicago, Illinois..... <i>NOTE.</i> —This is a part of the system of aids necessary to guide vessels into the Chicago Harbor of Refuge. Authorized by act approved October 1, 1888.	Oct. 1, 1888	25	499	1		5,200 00	

Twin River Point Fog-Signal, Wisconsin—
For establishing a steam fog-signal upon Twin River
Point, Lake Michigan, Wisconsin.....

Simmon's Reef Light-Station, Michigan—
For establishing a light and fog-signal on Simmon's Reef,
Michigan.....

NOTE.—This is a very dangerous reef, which lies almost in the center of the north passage, about 12 miles west of St. Helena Light Station. Seul Choix Point, Squaw Island, and Simmon's Reef, when occupied, will open up to navigation the direct channel between Green Bay and the Straits of Mackinac. Authorized by act approved October 1, 1888.

Squaw Island Light-Station, Michigan—
For establishing a light and fog-signal on Squaw Island,
northern end of Lake Michigan, to mark the passage
to the westward of Beaver Island.....

NOTE.—The passage to the westward of Beaver Island is being generally used by steam barges from Chicago to Milwaukee and the other ports of the Lake during fall and spring, when the northwesterly winds prevail. It would be used at all times but for the shoals and dangers on the north shore of Lake Michigan.

An appropriation has already been made for a light at Point Seul Choix, and with another at Squaw Island, the passage could be made at all times, with greater safety.

Point Peninsula Light-Station, Michigan—
For crib-work protection for boat-house and landing at
Point Peninsula Light-Station, Michigan.....

NOTE.—If this station is to be continued, this work of protection will be absolutely necessary. If the following-named appropriation is made, it will be unnecessary to make this.

Eleven-Foot Shoal Light-Station, Michigan—
For establishing a light at or near Eleven-Foot Shoal, off
Point Peninsula, Michigan.....

NOTE.—This is the principal passage leading to Escanaba, Michigan, a point of increasing importance for the shipment of mineral products. The 11-foot shoal is just at the turn of the channel, and the only light to mark the turn is $2\frac{1}{4}$ miles distant, at Point Peninsula. When this light is established, the Point Peninsula light can be discontinued.

Gladstone Light-Station, Michigan—
For the establishment of a light to guide into Gladstone
Harbor, Little Bay de Norquette, Michigan.....

NOTE.—It is stated that the Minneapolis, Sault Ste. Marie and Atlantic Railroad will make this an important shipping port. Last year over 300 vessels entered the harbor, and it is expected that next year the number will exceed 1,000.

Depot for the Ninth Light-House District—
For establishing a supply and buoy depot for the ninth
light-house district.....

NOTE.—A depot is absolutely necessary for the storage of supplies and buoys in this new light-house district. The sum mentioned will be expended for a site for the erection of wharves, sheds, and other necessary buildings, and the moving of the requisite buoys and materials from Detroit.

Cleveland Breakwater Fog-Signal, Ohio—
For establishing a steam fog-signal on the breakwater at
Cleveland, Ohio.....

NOTE.—The smoke from the manufactories and fires of Cleveland is sometimes so dense as to obscure the city and pier lights. Blinding snow-storms often occur. A fog-signal is therefore required. Authorized by act approved October 1, 1888.

Grosse Isle Ranges, Michigan—
For the establishment of range-lights on Grosse Isle, Detroit River, Michigan.....

NOTE.—A private light has been maintained here for some years.
Authorized by act approved October 1, 1888.

St. Clair River Ranges, Michigan—
For establishing range lights to guide through St. Clair
River, Michigan.....

NOTE.—Lights are now maintained by private parties. It is desirable that the entire system should be under Government control. Authorized by act of October 1, 1888.

Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Lake St. Clair Ranges, Michigan—</i> For establishing range and stake-lights in Lake St. Clair, from Grosse Point to the entrance of Detroit River, Michigan.....	Oct. 1, 1888	25	500	1	\$3,000 00	
NOTE.—This is a most-important thoroughfare, and should be thoroughly lighted. Authorized by act approved October 1, 1888.							
<i>Presque Isle Fog-Signal, Michigan—</i> For establishing a steam fog-signal at Presque Isle, Lake Huron, Michigan.....	Oct. 1, 1888	25	500	1	5,500 00	
NOTE.—This is a turning-point for navigation of Lake Huron, and a signal is much needed in thick weather. Authorized by act approved October 1, 1888.							
<i>Cheboygan Fog-Signal, Michigan—</i> For establishing a steam fog-signal at Cheboygan, opposite Bois Blanc Island, Straits of Mackinac, Michigan...	Oct. 1, 1888	25	499	1	5,500 00	
NOTE.—This is a very important point at the entrance of the Straits. Authorized by act approved October 1, 1888.							
<i>Old Mackinac Point Light-Station, Michigan—</i> For establishing a light-house and fog-signal at Old Mackinac Point, Michigan, to take the place of the one at McGulpin's Point.....	Oct. 1, 1888	25	499	1	25,000 00	
NOTE.—The light on McGulpin's Point can only be seen by vessels approaching in one direction. It is proposed to remedy this by placing the light 2 miles to the eastward. The fog-signal was authorized by the act approved October 1, 1888.							
<i>Point Iroquois Fog-Signal, Michigan—</i> For establishing a steam fog-signal at Point Iroquois, Lake Superior, Michigan.....	Oct. 1, 1888	25	499	1	5,500 00	
NOTE.—An immense number of vessels pass over this point, and it is desirable that a powerful fog-signal be placed here. Authorized by act approved October 1, 1888.							
<i>La Pointe Fog-Signal, Michigan—</i> For establishing a steam fog-signal at La Pointe (Point Chequamegon), entrance to Ashland Harbor, Lake Superior, Michigan.....	Oct. 1, 1888	25	499	1	5,500 00	
NOTE.—This is needed by the commerce of the region, and has been authorized by act approved October 1, 1888.							
<i>Devil's Island Light-Station, Michigan—</i> For establishing a light at Devil's Island, Apostle Grouss, Lake Superior, Michigan.....	Oct. 1, 1888	25	500	1	15,000 00	
NOTE.—This is believed to be a pressing necessity of commerce, and was authorized by the act approved October 1, 1888.							
<i>Two Harbors Fog-Signal, Minnesota—</i> For establishing a steam fog-signal at Two Harbors, Lake Superior, Minnesota.....	Oct. 1, 1888	25	500	1	5,500 00	
NOTE.—Fogs are very prevalent upon Lake Superior, and fog-signals are therefore required for all frequented harbors. Authorized by act approved October 1, 1888.							
<i>Steam-Tender for the Great Lakes—</i> For a steam-tender for service on the northern lakes.....	Submitted.....					85,000 00	
NOTE.—This vessel is intended to take the place of the "Warrington," a wooden vessel over 20 years old. She cannot be used longer without being partially rebuilt. An iron vessel that can be used in ice is required, with all appliances for handling heavy buoys.							
<i>San Pedro Harbor Light-Station, California—</i> For establishing a light and fog-signal to mark the entrance to San Pedro Harbor, California.....	Submitted.....					5,000 00	
NOTE.—This is the seaport for Los Angeles, and large quantities of coal, lumber, and general freight are brought here.							
<i>Point Arguello Light-Station, California—</i> For establishing a light and fog-signal at or near Point Arguello, California.....	Submitted.....					35,000 00	
NOTE.—This is a prominent point about 12 miles north of Point Conception, and one of the foggiest regions of the Pacific Coast. A sharp bend in the coast here makes it particularly desirable that proper aids should be established.							
<i>Point Buchon Light-Station, California—</i> For establishing a light and fog-signal at or near Point Buchon, near San Luis Obispo, California.....	Submitted.....					33,000 00	
NOTE.—This is a prominent and dangerous point, where vessels going to and from Port Harford make a sharp turn.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Point Pinos Light-Station, California—</i> For purchase of land for landing supplies at Point Pinos light-station, entrance to Monterey Harbor, California. NOTE.—There is at present no sea front to the light-house site. For convenience of landing stores and supplies it is essential that the United States should own a strip between the light-house and the sea coast.	Submitted.....					\$2,000 00	
<i>Roe Island Light-Station, California—</i> For establishing a light-house and fog-signal on Roe Island, Suisun Bay, California. NOTE.—This bay is large, with low shores and islands, submerged at some stages of the tide. Its navigation at night or during fog is very difficult.	Oct. 19, 1888	25	614	1		10,000 00	
<i>Punta Gorda Light-Station, California—</i> For establishment of a light and fog-signal, at or near Punta Gorda, between Shelter Cove and Cape Mendocino, California NOTE.—There are here several dangerous sunken rocks that add to the hazards of navigation, and in dark nights the overhanging mountains keep the shore line in dark shadows, so as to confuse even the most experienced.	Submitted.....					40,000 00	
<i>Humboldt Light-Station, California—</i> For establishing the light and fog-signal at Humboldt, California, upon a more secure site. NOTE.—During the past year the light-house structures at Humboldt have been seriously threatened, and it is believed that a severe storm may at any time overthrow them. It is proposed to rebuild the station upon Humboldt Bluff.	Submitted.....					25,000 00	
<i>Heceta Head Light-Station, Oregon—</i> For establishing a light and fog-signal at Heceta Head, mouth of Siuslaw River, Oregon. NOTE.—A light is much needed here to fill the unlighted gap between Cape Arago and Cape Foulweather.	Submitted.....					80,000 00	
<i>Columbia River Light-Ship, Oregon—</i> For establishing a light-ship with steam fog-signal, to mark the bar at the mouth of the Columbia River, Oregon NOTE.—Vessels experience great difficulty in entering the Columbia River, and no satisfactory aids of a fixed character can be established.	Submitted.....					60,000 00	
<i>Gray's Harbor Light-Station, Washington Territory—</i> For establishing a first-order light-house and fog-signal at Gray's Harbor, Washington Territory, in addition to the amount already appropriated. NOTE.—On further examination it is found that a small light will be inadequate for the needs of commerce at this point.	July 7, 1884 Submitted.....	23	198	1	{	60,000 00	
<i>Cape Flattery Fog-Signal, Washington Territory</i> For re-establishing the fog-signal at Cape Flattery light-station upon a new site. NOTE.—It is found that the fog-signal at this important station will be much more effective as an aid to mariners, if removed to West Island. The change would make it necessary to build new structures for accommodation of the signal and a new dwelling for the keeper.	Submitted.....					17,000 00	
<i>Patos Island Light-Station, Washington Territory—</i> For establishing a light and fog-signal on Patos Island, north entrance to the Canal de Haro, Washington Territory NOTE.—This is a very dangerous point and a light here would greatly benefit the considerable number of vessels that use this passage.	Submitted.....					12,000 00	
<i>Turn Point Light-Station, Washington Territory—</i> For establishing a light and fog-signal at Turn Point, west end of Stuart Island, Canal de Haro, Washington Territory NOTE.—This marks a place where a change of course is necessary in passing through San Juan Channel.	Submitted.....					15,000 00	
<i>Depot for the Thirteenth Light-House District—</i> For removing the buoy and supply-depot now at Tongue Point to Astoria. NOTE.—The present situation of the buoy depot is inconvenient and expensive. The water is shoaling rapidly, and it will be more economical to remove the depot to a proper location than to extend the wharf.	Submitted.....					15,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Depot for the Fourteenth Light-House District—</i> For establishing a depot for the fourteenth light-house district, at Carrollton, Kentucky, or such other point as the Light-House Board may select.....	Submitted.....					\$5,000 00	
NOTE.—The supplies for the lights on the Ohio River can be obtained much more cheaply if purchased in bulk. This cannot be done unless an adequate depot for such supplies is established.							
<i>Depot for the Fifteenth Light-House District—</i> For establishing a depot for the fifteenth light-house district.....	Submitted.....					20,000 00	
NOTE.—This is required for the storage of oil, lamps, stakes, and other supplies for use in the upper Mississippi, the Missouri, and Illinois Rivers.							
<i>Depot for the Sixteenth Light-House District—</i> For establishing a depot for the sixteenth light-house district.....	Submitted.....					20,000 00	
NOTE.—The establishment of this new light-house district renders it necessary to have a depot of supplies at a convenient point. The sum mentioned is asked for the purchase of a site and the erection of wharves and buildings.							
<i>Building for the Light-House Board—</i> For erecting a suitable building at Washington, D. C., for the use of the Light-House Board, to contain its archives, its museum, and its laboratory.....	Submitted.....					210,000 00	
NOTE.—The board has been for some time very seriously inconvenienced by the insufficiency of the quarters assigned to it in the Treasury building. The building is necessarily crowded by offices and bureaus constantly increasing in number and size, and, notwithstanding the fact that the Light-House Service and the business connected therewith are constantly increasing in magnitude and importance, the quarters for the board are more and more confined.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Government Hospital for the Insane—</i> General repairs and improvements.....	Appropriated..	25	527	1	\$12, 000 00		
<p>NOTE.—This includes the care of the grounds. These grounds are among the most beautiful in the vicinity of Washington, and the hospital buildings are perhaps the most extensive in the District of Columbia belonging to the United States. When the destructive tendencies of the inmates are considered and the constant wear and tear to which the whole is subjected it will be found that the sum named is but barely sufficient to maintain that true economy which keeps everything in the best working trim.</p> <p>Special improvements, viz.:</p> <p>Lodge at lower entrance.....do..... 1, 200 00</p> <p>Green-house.....do..... 2, 400 00</p> <p>Alterations at stable, including poultry-house.....do..... 1, 300 00</p> <p>Renewing heating-apparatus, west wing and lodges.....do..... 9, 600 00</p> <p>Renewing boiler at engine-house.....do..... 800 00</p> <p>Steam fire-engine and house.....do..... 5, 200 00</p>							
<p>NOTE.—\$1,200 to place a brick cottage at the lower entrance is an improvement necessary to the proper police of the place, to guard an entrance that must be left open by day. Such gardener's cottage would be a tasteful addition to the grounds and would do away with a special watchman at that point. There would seem to be no reason for keeping a gatekeeper at the main entrance, if this opening, also on the leading highway, is to be left without protection.</p> <p>The little wooden frame, never worthy the name of green-house, but which, with a few cold frames, has furnished all the bedding plants for our lawns, is falling in decay and must be given up. If it could be replaced at a moderate outlay with one of brick and iron, we might have not alone the bedding plants which have helped to make our grounds rival the more pretentious one's of the Capitol, but should also be able to brighten our new infirmary with winter carnations and roses. Shall we not have it?</p> <p>One thousand three hundred dollars is asked to refit the old stables left vacant by the removal of the swine and neat cattle to their new quarters on the out-farm. Such changes are included as may be found necessary to provide proper shelter for the mules and some of the team-horses now stabled in sheds and unsuitable quarters, also for the farm-wagons, carts, and agricultural implements that can now be stored only in open sheds or left exposed to the weather. Another important gain would be a suitable provision for poultry. Every year the institution expends some thousands of dollars for poultry and eggs over and above what are received from the farm. There seems to be no good reason why with proper appliances these could not be produced here. The refuse from the table affords the very materials needed for their food, and it needs only the alchemy of proper skill and surroundings for raising fowls, to convert what is now relatively valueless material, into an abundance of chickens and eggs.</p> <p>The hot-water apparatus, on which the heating of the main building and lodges mainly depends, has for years shown symptoms of failure. This system of pipes has now been in constant winter use for more than a quarter of a century, is at best an old style, and an entire change now becomes necessary. To replace it with steam apparatus, removing the fires entirely from the building, and so reducing the danger in that direction, will require \$16,000 to complete the work. As the boilers of the west wing and the lodges are the oldest, it is contemplated to change the apparatus in these sections first, completing this during the fiscal year 1890, and for this work \$9,600 will be required.</p> <p>The boiler at the engine house which generates steam for driving the fan, planer, laundry machinery and everything requiring power, is old and defective, needing renewal. For this \$800 will be required, and in view of the possible unsafe condition of the present boiler, this appropriation is asked to be made immediately available.</p> <p>Congress has been liberal in past years in providing for the protection of this helpless class from danger from fire. The result is that by fire walls dividing the main building into sections, iron stairs built inside, fire-escapes made fast outside, fire-pumps with pipes, hydrants and hose attached, fire-ladders and extinguishers provided, reservoirs constructed and brick arches with iron beams built up under some of the corridor floors, the hospital has been made as safe from fire as any building not more nearly fire-proof in its original construction can be without rebuilding. It still remains that a general conflagration in a hospital for the insane is one of the most terrible events, one that justifies any reasonable expenditure that will still further increase the protection against it. The nearest steam fire-engine of the Washington fire department is more than two miles distant, so that while ponds, basins, and reservoirs have been and are still being provided at accessible points to the hospital and other buildings, no fire-engine to use them could be made available until a fire had made such headway that it is doubtful if they could be of any use. For the further protection of the barns, outbuildings, and dwellings, as well as the hospital itself and its inmates, an appropriation of \$5,200 is asked for the purchase of an efficient steam fire-engine and to provide a suitable building for the same. The hospital force, under the direction of the hospital engineer could, by practice at regular times, be trained in the use of this as they are now in the handling of hose and the fire-ladders, and an efficient fire brigade organized that might in an emergency render efficient aid in the neighborhood.</p> <p>The estimate for current expenses, Government Hospital for the Insane, will be found under the title of "Miscellaneous." <i>post.</i></p>						\$32, 500 00	\$42, 700 00

ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i> For shop K., an iron finishing-shop for the armory.....	Oct. 2, 1888	25	530	1	\$10,000 00		
NOTE.—This sum will be needed to complete this shop, being required for outside granite steps and platforms, for the 17 doors, and for grading on sides of building.							
For completing storehouse K.....	do.....				45,000 00		
NOTE.—The amounts heretofore appropriated for this building were so much less than the estimates that this sum is now required to complete it.							
For machinery and shop-fixtures.....	do.....				17,000 00		
NOTE.—It is proposed with the money asked for to continue the work of putting shafting and other fixtures in the shops now being completed; to add to the plant of the arsenal such machines as are required for immediate use and form part of the permanent plant of the arsenal, and to continue the construction of one of the great lines of shafting for connecting the shops with the water-power. It is important that the fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal shops, and the work can be done much more cheaply at slack times, in connection with other work, than postponed until the other work is completed.							
For one set of officers' quarters.....	Submitted.....				20,000 00		
NOTE.—The three sets of subaltern quarters are all occupied, and should additional officers or an officer of the Medical Department be ordered here, there are no quarters for them. Additional quarters should be provided.							
For coal-dumps, located south of shop E.....	do.....				20,000 00		
NOTE.—This building is intended to hold all the different varieties of coal in use at this arsenal in sufficient quantity to last at least one quarter; and being covered, will prevent the coal from disintegrating. It is quite important that this building should be put in as early as practicable.							
For new hospital building, to be built of brick.....	do.....				34,000 00		
NOTE.—The present hospital is a frame building, and is very old and dilapidated, and is not worth repairing. The commanding officer and medical officer have frequently reported that this building should be torn down and a new hospital built, not only on account of its miserable appearance, but also for sanitary reasons. It occupies a very prominent position near one of the main avenues, and is a relic of the old hospital building during the war. A new and suitable building for a hospital is very much needed, and the appropriation for this purpose is earnestly recommended.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
For lower stables.....	Submitted.....				\$26, 500 00		
For upper stables.....	do.....				15, 250 00		
NOTE.—The present stables are built of wood, and are only intended for temporary purposes, although they have been standing for many years. They are in very bad condition, and should be replaced by more permanent and substantial buildings.							
For general care, preservation, and improvement, &c.; for building new roads; for care and preservation of the water-power; for painting and care and preservation of permanent buildings, bridges, and shores of the island; for building fences and sewers, and grading grounds, &c.....	Oct. 2, 1888	25	530	1	26, 000 00	\$213, 750 00	\$101, 200 00
NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operation, and should be so permanently built as to become a permanent part of the arsenal, and this work on roads, grading, and sewers, can be done far more economically while other excavations and buildings are going on, thus economizing by maintaining the two kinds of work which are mutually dependent. A large portion of the amount is absolutely necessary for the preservation of the immense buildings and extensive roads, bridges and other constructions already built, and for the maintenance of the water power and transmission of power. The amount appropriated under this head for some years past has been only \$10,000, but this amount is totally inadequate for the manifold and necessary purposes for which this appropriation is needed at this large establishment such as building new and repairing old roads; care and preservation of permanent buildings, bridges, and shores of the island; for building fences, grading grounds, &c., &c., and consequently a great deal of this work has to be neglected. The roofs of some of the permanent buildings and some of the area walls require repairing every year, owing to the severe weather of this climate. It is important that the full amount of this estimate be granted as a matter of necessity and economy. I cannot too strenuously urge the importance of this estimate and the economy and necessity of an appropriation of the whole amount asked for.							
<i>Rock Island Arsenal, Water Power—</i>							
Repairs of wing dam.....	Oct. 2, 1888	25	530	1	9, 000 00		
Repairs of Benham's dam.....	Submitted.....				900 00		
Repairs of Moline dam dyke wall.....	do.....				2, 700 00		
Protecting island shores by raising dykes and rip-rapping them.....	do.....				4, 300 00	16, 900 00	300, 000 00
NOTE.—These repairs have been rendered necessary by gradual wear and tear and by damages from freshets. Unless these repairs are made, further damages to a much greater extent are likely to occur, necessitating a much larger expenditure of money to put in good condition.							
<i>Rock Island Bridge, Rock Island, Ill.—</i>							
For care, preservation, and expense of operating the draw..	Oct. 2, 1888	25	530	1	12, 000 00		
NOTE.—This estimate is for the care and preservation of the bridges between Davenport, Iowa, and Rock Island, Ill., and the island, and the road and causeway connecting the bridges. It includes all ordinary repairs, but is mainly for expense of operating the draw, for which two sets of hands, consisting of engineer, fireman, and tender are required, and guards for maintaining order on the long bridges in their large use by the public. This large use also causes considerable wear and necessity for repairs. The amount of travel over this bridge is increasing annually and there should be a corresponding increase in the annual amount appropriated for care and preservation.							
For protecting Rock Island bridge by means of sheer booms.....	Mar. 3, 1887	24	529	1	1, 250 00		
For repairs to draw-pier of the Rock Island bridge, in addition to the \$50, 000 appropriated in the Sundry Civil act, for fiscal year ending June 30, 1889 (act of October 2, 1888).....	Submitted.....						
	Oct. 2, 1888	25	530	1	36, 522 00		
NOTE.— ROCK ISLAND ARSENAL, June 27, 1888. SIR: I have the honor to state that in the sundry civil bill, as I have seen it reported in the papers, the appropriation for the repairs of the draw-pier of the Rock Island bridge has been reduced from \$86,522, the amount I estimated for the work, to \$50,000. This latter sum will be totally inadequate for replacing the present decayed wooden sides of this pier by stone walls between the end piers, upon which my estimate was based. I could, I presume, replace the old wood-work by new for this sum, but this would be poor economy, for it would only last ten or twelve years and would then require renewing; hence, an all stone pier would really be cheaper from its greater strength and endurance. Very respectfully, your obedient servant, T. G. BAYLER, Colonel of Ordnance, Commanding. The CHIEF OF ORDNANCE, U. S. Army.

		Vol. or R. S.	Page.	Sec.			
<i>Springfield Arsenal, Springfield, Mass.—</i> For repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes..... <i>Provided</i> , that section 3709 of the Revised Statutes shall not apply to the purchase of supplies not exceeding in value the sum of two hundred dollars.	Oct. 2, 1888	25	531	1	\$15,000 00	\$25,000 00
<i>Allegheny Arsenal, Pittsburg, Pa.—</i> For rebuilding stone enclosing wall on river front between 39th and 40th streets..... <i>NOTE.</i> —The stone enclosing wall on the river front and within a few feet of the Allegheny Valley Railroad tracks has become weakened by the floods in the Allegheny River and the jarring caused by the constant passing of trains. A part of it has been taken down, as it was dangerous and about to fall out on the railroad tracks. The wall should be taken down to the ground level and rebuilt.	Submitted.....				1,000 00	
<i>Augusta Arsenal, Augusta, Ga.—</i> For one brick hospital building, uniform in architecture { with the other buildings..... <i>NOTE.</i> —There never has been a hospital here, and consequently the sick have to be kept in the barracks. The hospital steward and matron also live separate. The two rooms now occupied as dispensary and medical store-room were an old smithy. A hospital building is an absolute necessity.	Oct. 2, 1888 Submitted.....	25	531	1	}	10,000 00	10,000 00
<i>Benicia Arsenal, Benicia, Cal.—</i> For the erection of a fire-proof boiler-house..... <i>NOTE.</i> —The present boiler-house is a frame building, unsightly in appearance, and insufficient in size. It was originally constructed for two boilers, and has been twice extended by temporary additions to accommodate the four now in use. For erection of a new wharf..... <i>NOTE.</i> —The mud is filling around the present wharf, and it will be necessary to build a new one at "Army Point," where the tide runs swiftly, and the probability of the deposit of mud, etc., is the least. For one boiler for steamer..... <i>NOTE.</i> —The present boiler is very old and has given out on several occasions. It also has insufficient capacity to supply steam easily. The hull of the steamer is comparatively new and well worth a new boiler. For one steam-engine for steamer..... <i>NOTE.</i> —The present engine is old and has not sufficient power. It is a high-pressure, non-condensing engine, and it is necessary to carry fresh water enough to furnish steam which much circumscribes the usefulness of the boat, as her tanks have a capacity for only a seven hours' run. She should have a compound condensing engine, which would save 50 per cent. and enable her to use salt water.	Oct. 2, 1888 Submitted.....	25	531	1	} \$5,000 00 4,000 00 1,200 00 1,000 00	11,200 00	16,000 00
<i>Frankford Arsenal, Philadelphia, Pa.—</i> For one set of officers' quarters..... <i>NOTE.</i> —The additional set is needed for the accommodation of the officers on duty at this post. A medical officer of the Army is now stationed here and quarters have to be provided. For new machinery..... For one screw-cutting and milling machine, complete, largest size..... <i>NOTE.</i> —This last machine would cheapen the cost of sundry small tools, and would be applicable in the manufacture of fuses and other varieties of special work. The special work other than the manufacture of cartridges has increased so much of late years, both in variety and quantity, that the plant improvised to meet the immediate demands of the service is incapable of doing such work at the lowest cost. An outlay of the amount asked, for modern appliances, would repay the Government in a few years by cheapening the cost of the product. For taking down and rebuilding a portion of the stone wall on the Frankford Creek and along the dyke on the east side of the arsenal..... <i>NOTE.</i> —The wall on the creek and dyke is of open stone work, subject to the action of the tides, and needs constant repairs. The one along the east dyke has fallen in places and is in very bad condition. If once properly built this annual source of expense would cease. In asking for five thousand dollars for the next fiscal year it is proposed to make a beginning of this job, and by securing an annual appropriation of this amount for four or five years the whole work can be done. The amount now asked will erect the wall from Bridge street to the Arsenal Wharf and repair the worst part of that along the dyke.	Submitted.....do.....do.....do.....				9,000 00 5,620 00 1,600 00 5,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Frankford Arsenal, Philadelphia, Pa.—Continued.</i>							
Repairs to buildings, fences, walls, sewers, water-pipes, &c., and for new drains.....	Submitted.....				\$5,000 00		
NOTE.—The wooden fences need renewing and the buildings generally need extensive repairs.							
Steam-heating apparatus for office.....	do.....				810 00	\$27,030 00	
NOTE.—The office is now heated by a hot-air furnace which is worn out and must be renewed or replaced, and the experience here with this mode of heating is, that in very cold weather when heat is most needed in all parts of the building only one side of the building can be comfortably heated. The steam-heating apparatus introduced into the public quarters have proven a success under all emergencies and I recommend a similar apparatus for the office.							
<i>Fort Monroe Arsenal, Fort Monroe, Va.—</i>							
For painting and repairing public buildings and fences, painting exterior and repairing roofs, gutters, and spouting of shops and store-houses, painting and repairing enlisted men's quarters, making walks and grading grounds.....	Submitted.....					4,500 00	
<i>New York Arsenal, Governor's Island, New York Harbor—</i>							
For one frame building for use as officers' quarters.....	Submitted.....					7,000 00	
NOTE.—This building is very necessary. At present the officer who is to occupy these quarters is obliged to live in New York City at great expense and at great inconvenience to his work on the Island at the Arsenal. The interest on the \$7,000 asked for is less than is now paid the officer for commutation of quarters, and the appropriation asked for is in the interest of economy.							
<i>Proving-Ground, Sandy Hook, N. J.—</i>							
For cleaning, leveling, and grading grounds, building and repairing roads.....	Oct. 2, 1888	25	531	1		3,000 00	\$2,000 00
<i>Powder Depot, Dover, N. J.—</i>							
For finishing magazine No. 5, making reservoir, laying pipes and placing hydrants for water supply for post, grading, draining, and cleaning grounds, making roads, building fences, and all expenses incident thereto.....	Continuing resolutions of June 30, 1888 July 31, 1888 Sept. 1, 1888 Sept. 15, 1888 Sept. 26, 1888 Oct. 2, 1888	25	531	1		71,600 00	28,067 80
<i>San Antonio Arsenal, San Antonio, Tex.—</i>							
For repairing and repainting buildings, fences, &c., repairing roads, walks, &c., and general repairs of post....	Submitted.....				6,000 00		
NOTE.—In this climate all buildings and dressed fencing requires frequent painting to insure their proper preservation. It is not thought that a less sum than that asked for will be sufficient to keep the post in proper repair.							
For the construction of a new fence, 717 feet long, in front of the Arsenal grounds, to consist of an 18-inch stone wall, 2 feet high above ground, hammer dressed, with 6-inch dressed coping, surmounted by an iron fence 6½ feet high, with one wagon roadway gate, 14 feet wide, and one foot gate, 4 feet wide.....	do.....				6,500 00	12,500 00	
NOTE.—The present fence is of wood, is constantly being repaired, the posts, rails, and pickets are worm-eaten and rotten; its present condition is such that it cannot be repaired without the use of new material throughout. It would be true economy in the end to replace this fence with one of stone and iron, and a due regard to appearance would naturally suggest the combination of these materials.							
<i>Testing-Machine—</i>							
For purchase of labor and material in caring for, preserving, and operating the United States testing-machine, including new tools and appliances.....	Oct. 2, 1888	25	531	1		10,000 00	10,000 00
<i>Watertown Arsenal, Watertown, Mass.—</i>							
For purchase of water-pipe, hydrants, &c., and labor to connect and lay the same; for introducing water from the Watertown Water Supply Company, as per plans, estimate, &c., forwarded to Ordnance Office June 4, 1886.....	Submitted.....				2,645 30		
For completing a system of sewerage, sink, &c., in accordance with plans and estimate forwarded to Ordnance Office February 10, 1885. (See House Ex. Doc. No. 40, Fiftieth Congress, first session).....	do.....				11,908 96	14,554 26	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

						10,500 00	*8,460 00
<i>Increasing the Water Supply of Washington, D. C.—</i>							
NOTE.—In reference to the estimate for "Increasing the water supply of Washington, D. C.," the officer in charge of the work states: "At this writing it is believed that the amount already appropriated will suffice for the completion of the work in all its essential parts, and therefore no estimate is now submitted for any additional appropriation. It will ultimately be necessary to provide funds for properly finishing the grounds about the new reservoir and for surface work at the several tunnel-shafts, but the requisite amount cannot be determined accurately at present, and the matter will be made the subject of a special communication at some later date." (Thos. Lincoln Casey, Brig.-General, Chief of Engineers. September 25, 1888.)							
<i>Washington Aqueduct, District of Columbia—</i>							
Engineering, maintenance, and ordinary repairs.....	July 18, 1888	25	320	1	20,000 00		
NOTE.—The act of June 11, 1878 (20 Stat., 104), providing a permanent form of government for the District of Columbia, directs that the estimates for the "Expenses of the Washington aqueduct and its appurtenances" shall be submitted by the Commissioners of the District of Columbia.							
<i>Building for Army Medical Museum and Library—</i>							
For laying asphalt pavement between the center building and wings of the Army Medical Museum and Library of the Surgeon General's Office, corner of Seventh and B streets, S. W.	Oct. 2, 1888 Submitted.....	25	533	1	1,550 00		2,000 00
NOTE.—All heavy freight, including fuel, has to be brought into this area, and the wheels cut up the soft ground so as to leave pools of standing water a great part of the time.							
Total Buildings and Grounds in and around Washington						155,838 50	117,160 00
MILITARY ACADEMY.							
<i>Buildings and Grounds, Military Academy—</i>

Continuing construction of breast-high wall in dangerous places.....do.....				500 00		

* Exclusive of \$2,040 for pay of employés from July 1 to October 1, 1888.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
For Water-Works: Renewal of material in filter-beds; improving ventilation of filter-house and water-house; hose for use in cleaning filter-beds and water-house, and for use in fire-service at same; tools, implements, and materials for use of the two keepers and for repairs of syphon-house, filter-house, and of four and one-half miles of supply-pipes; for sheds for tools and storage for fuel for keeper at Round Pond, and for tool-house at filter; for gauges at Round Pond and Delafield Pond, and stairs for access to same.....	May 1, 1888	25	112	1	\$520 00		
For repairing walls, woodwork, roof, and other fixtures of cadet-barracks.....	Submitted.....				600 00		
NOTE.—This sum is necessary for the repairs indicated, in order that the building may be put in a proper sanitary condition and kept in proper repair. It will be seen that the sum is a small one for repairs when it is stated that the amount asked for is about one-fifth of one per cent. of the original cost of the building and is less than \$2 for repairing the quarters of each cadet.							
For repair of cooking utensils, and the replacement of worn-out cooking utensils in the cadet subsistence department.....	do.....				326 96		
NOTE.—The amount asked for above was expended last year for the purposes indicated, and was charged to cadet funds.							
For enlarging the cadet quartermaster's building, to be immediately available upon approval of this act.....	do.....				12, 000 00		
NOTE.—This extension is asked for because the capacity of the present building is only about half sufficient for the requirements of the Department.							
S. e H. R. Bill No. 9409, Fiftieth Congress, first session, which was read twice, referred to the Committee on Military Affairs and ordered to be printed; also H. R. Report No. 2029, same session of Congress, May 2, 1888, committed to the Committee of the Whole House on the State of the Union and ordered to be printed.							
For the erection of a fire-proof building, on such site of the public grounds at West Point, New York, as may be designated by the Secretary of War, to accommodate all the departments of instruction of the Military Academy; to be constructed according to the plans recommended by the Academic Board and approved by the Secretary of War.....	do.....				490, 000 00		
Provided, That the building, when completed upon plans and specifications to be previously made and approved by the Secretary of War, on the recommendation of the Academic Board, shall not exceed in cost the sum herein stated.							
For the erection of a fire-proof building on such site of the public grounds at West Point, New York, as may be designated by the Secretary of War, to be used as a gymnasium and fencing academy for the cadets of the United States Military Academy; to be constructed according to the plans recommended by the Academic Board and approved by the Secretary of War.....	do.....				100, 000 00		
Provided, That the building when completed, upon plans and specifications to be previously made and approved by the Secretary of War, on the recommendation of the Academic Board, shall not exceed in cost the sum herein stated: <i>Provided further</i> , That the sums herein appropriated for erection of one building to be used by all departments of instruction, and one gymnasium and fencing academy, shall be immediately available after approval of this act.							
For placing in cadet-barracks fifteen alcove partitions.....	do.....				315 00		
NOTE.—This sum is necessary, in order that cadets occupying these rooms, may have that privacy which has been deemed necessary and proper.							
For one set of quarters for watchmen at South Wharf; to be immediately available upon approval of this act....	do.....				1, 500 00		
NOTE.—At present, owing to the absence of accommodations for a watchman, the south wharf requires the services of two men for the proper care and preservation of Government stores. It is evident that the sum saved by discontinuing the services of one man will, in a few years, pay for the building asked for.							
A larger sum than ordinarily is required for enlisted men's quarters, is asked for, in view of the fact that the building will be in a very prominent position, and should for that reason be a creditable and neat structure.							

Buildings and Grounds, Military Academy—Continued.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
For one retiring-house for summer visitors; to be immediately available upon approval of this act.....	Submitted.....				\$3,500 00		
NOTE.—In this connection attention is invited to the following remarks made by the Board of Visitors for the year 1886, and which were concurred in by the last Board of Visitors: "In the interest of public decency, and to prevent defilement of the grounds, latrines and copious flow of water should be erected for public use. The Military Academy, a model in many respects, can well afford to set the example to American communities of those conveniences, etc."							
For twelve sets of quarters for enlisted men and their families, to be built in sets of two, of brick, each set to contain four rooms, and to be immediately available upon approval of this act.....do.....				14,400 00		
NOTE.—Experience has proved that if the many enlisted men now living in the adjacent village were provided with quarters on the post, they would be more contented, continue to enlist and render better service. A larger sum is requested than ordinarily would be required owing to the labor of removing old buildings being involved. It may be further stated that this sum is the one shown by experience to be necessary.							
For three sets of officers' quarters; to be immediately available upon approval of this act.....do.....				30,000 00		
NOTE.—The quarters for officers at this post have been inadequate for many years, but since the arrival of the new detail for duty at the Academy the greatest inconvenience has been experienced, and it is thought that a simple statement of the following facts is all that is necessary to prove the necessity for the quarters called for: There are now on the post six families occupying three sets of officers' quarters, which were originally built for one family in each. In each of these quarters one family lives up stairs, the other, down; they use in common the halls and front door. Investigation shows that during the last twenty-five years only five sets of quarters have been built, and during that time the number of officers has been increased; also, that the proportion of married officers has recently been increased by the new regulation forbidding the detail of officers to duty at the Academy until they have been graduated at least four years. Under these circumstances it is thought that the quarters asked for are indispensable and should therefore be erected.							
For one cavalry barrack, to be located near present cavalry stable, and to be immediately available upon approval of this act.....do.....				21,000 00		
NOTE.—In this connection attention is respectfully invited to the following extract from the Board of Visitors for the year 1887: "For several years past every Board of Visitors has directed attention to the urgent need for the erection of barracks for the accommodation of the cavalry detachment near the site occupied by the cavalry stables, and recommend an appropriation therefor. This Board respectfully renew these recommendations. The quarters now occupied by the cavalry detachment are located nearly one mile from the stables. No argument is needed to establish the inconvenience, absurdity, and positive loss of time and money in continuing the present arrangement. Several times during every day in the year the cavalymen are obliged to march, regardless of the weather, between their quarters and the stables, the first journey being performed at an early hour, before breakfast. No discreet farmer or ranchman would tolerate such a system. Regardless of any feeling for the enlisted men, business prudence would suggest that the safety and protection of the horses and other property require that the barracks of the cavalymen should be located near the stables and riding-hall. The Board recommend that the erection of cavalry barracks, sufficient to accommodate at least one hundred men, be authorized at the approaching session of Congress. * * *"							
For one quartermaster's storehouse; to be immediately available upon approval of this act.....do.....				18,000 00		
NOTE.—This building is an absolute necessity, as the present facilities for the storage of the very valuable property annually used in repairs, are limited and totally unsuitable. In this connection attention is invited to the following extracts from reports of Board of Visitors on this matter: In 1883 the board said: "There are several old and dilapidated wooden buildings, located near the artillery and cavalry barracks, used for workshops and storehouses. They are in the last stages of decay and crowded closely together, and are wholly unsuited to the usages to which they are put. Should a fire break out among them (an event very likely to happen) it would cause the loss of much valuable property stored in them, and greatly endanger the safety of neighboring buildings. We recommend their removal and the erection of a suitable building or buildings of substantial materials in their place." In 1884 the board said: "There is a considerable district lying under the hill towards the north containing a large number of shabby and very old buildings. Some of these are used for shops and other public purposes. * * * They are certainly entirely inappropriate to a well kept Government institution like this. We recommend that these buildings be replaced by suitable substantial brick or stone * * * structures for all of the tumble down shops and sheds above referred to. The existing condition has a most unsatisfactory and poverty stricken look, and is without justification even on the score of economy."							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
For one storehouse at north wharf for storage of supplies ; to be immediately available upon approval of this act..	Submitted.....	\$500 00		
NOTE.—Stores for the use of this post are often landed at this wharf after nightfall, which, in the absence of proper shelter, are unavoidably exposed to the weather with no other covering than canvas. It is thought that the interests of the service would be subserved by the erection of this building, as frequently a rain might cause a loss greater than the sum asked for would cover.							
For one set of quarters for hospital steward, at soldiers' hospital ; to be immediately available upon approval of this act.....do.....	1,500 00		
NOTE.—The quarters are required for use of steward on duty at enlisted men's hospital. At present he lives in adjacent village of Highland Falls and is therefore absent at night.							
For maintaining and improving the grounds of the Post Cemetery, including the purchase of trees, plants, tools, and materials, to be immediately available upon approval of this act.....do.....	1,200 00		
NOTE.—This estimate is submitted owing to the recent greater necessity for keeping the cemetery in an improved condition. During recent years there have been an unusual number of distinguished officers interred, which causes a large influx of visitors to the cemetery during the spring, summer and fall seasons. As no appropriation is available for keeping the grounds in proper condition it is found almost impossible to keep them presentable. By reference to the report of the Quartermaster-General of the Army for the year 1887, page 272 to 275 inclusive, it will be seen that the average amount spent on National cemeteries (including all classes) is about \$1,200 per cemetery, this notwithstanding they have been regularly appropriated for during many years.							
For one hundred new settees ; to be immediately available upon approval of this act.....do.....	1,700 00		
NOTE.—In this connection attention is invited to the following extract of the report of the Board of Visitors for the year 1887: "In addition to the parents and relatives of the cadets, many of whom pass several weeks at West Point during the summer months, large numbers of people are daily brought from the city of New York on excursion trains and boats. * * * A large proportion of the daily visitors are women and young persons under fifteen years of age. "There is not only an utter lack of proper accommodations for these visitors, but insufficient facilities to enable them to witness the parades and evolutions of the corps of cadets. A few iron settees are arranged along the walk bordering the north side of the parade-ground. When the corps is on parade these iron settees are supplemented by camp-stools that are brought a considerable distance in a two-horse wagon, attended by five or six men, whose services are required to place the stools and to collect and store them after parade. The number of persons who can thus be seated is perhaps one hundred and fifty. Evening parade is always witnessed, and particularly during the period of the annual examinations, by a large number of people. Seating accommodations could not be provided for all without encroaching on the parade-ground, but the present accommodations can be readily increased by the addition of iron settees, placed under the grand old elm trees that protect and adorn the walk along the entire north side of the parade-ground. * * * Along the walk leading from the quarters of the commandant of cadets, passing Trophy Hill, and the siege and water batteries to the hotel. * * * "The Board earnestly recommend, in the interest and for the comfort of the general public, an immediate appropriation to supply iron settees and iron stools, such as are generally found in the public parks of large cities, at least fifty additional settees and as many stools should be placed along the walks."							
For one hundred and twenty-two new tent floors ; one hundred and twenty-two lockers, and eight sentry boxes ; to be immediately available upon approval of this act.....do.....	1,800 00		
NOTE.—The above are required to replace old, worn-out, and decayed articles of a like kind, which are annually used in the cadet encampment.							
For resetting four horizontal tubular boilers, including all material and labor, used for heating with steam the Academic building, cadet-barracks, commandant's office, mess-hall, hospital, and cadet-sinks ; to be immediately available upon approval of this act.....do.....	2,200 00		
NOTE.—The resetting of these boilers during next season will be absolutely necessary, as the masonry surrounding and supporting them is gradually crumbling, and otherwise coming to such a state as will necessitate their resetting in order to place them in a serviceable condition.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Military Posts—</i>							
For construction of buildings, barracks, and quarters at the following named military posts:							
Fort Wadsworth, N. Y. H.: For construction of additional barracks and quarters for officers and troops	Oct. 2, 1888	25	534	1	\$50,000 00		
Fort Adams, R. I.: Construction of additional barracks.....	Submitted.....						
Fort Warren, Mass.: Construction of quarters outside of fort.....	do.....				20,000 00		
Fort Hamilton, N. Y. H.: Construction of additional barracks.....	do.....				20,000 00		
Madison Barracks, N. Y.: Construction of buildings at, and the enlargement of the post.....	do.....				20,000 00		
Madison Barracks, N. Y.: For the purchase of about 101 acres of land adjoining or near the post, for rifle range and drill and camping purposes.....	do.....				6,000 00		
Fort Leavenworth, Kans.: For two double sets officers' quarters, one target and gymnasium building, and one stable. (See House Ex. Doc. 178, 49th Congress, first session.).....	do.....				28,856 00		
For four barracks.....	do.....				52,709 00		
For one infantry drill-room.....	do.....				2,998 00		
For one cavalry drill-room.....	do.....				5,140 00		
For one lecture-room.....	do.....				8,338 00		
One fire department building.....	do.....				1,216 00		
For metal roofing, for repairs of old shingle roof.....	do.....				2,002 00		
Fort Monroe, Va.: For constructing a fire-proof building to accommodate the "Artillery School Library" and the offices of the commanding officer, adjutant, quartermaster, commissary of subsistence, and post ordnance officer.....	do.....				20,000 00		
NOTE.—The necessity for this building is fully set forth in the plans submitted to Congress December 6, 1880 (Senate Ex. Doc. 2, third session Forty-sixth Congress), for the special authority required by section 1136, Revised Statutes, accompanied by detailed estimates amounting to \$30,000. The original estimate has been diminished by \$10,000, labor and material being less costly now than then. A suitable building cannot be erected for less than \$20,000.							
For barracks and quarters buildings.....	do.....				25,000 00		
Atlanta, Ga.: For continuing construction of the buildings for the new ten company post, as provided by Congress. (See acts of March 3, 1885, 23 Statutes, 504, and August 4, 1886, 24 Statutes, 246.).....	do.....				75,000 00		
San Antonio, Tex.: For continuing construction of barracks and quarters buildings, for the enlargement of the post.....	do.....				50,000 00

RIVERS AND HARBORS.							
<i>Constructing Jetties and other Works at South Pass, Mississippi River—</i>							
To enable the Secretary of War to pay to the legal representatives of James B. Eads half the sum of \$1,000,000 retained by the United States under the act of March 3, 1875 (first section on page 465 of 18 Statutes), to be paid on the expiration of ten years maintenance of the channel.....	Mar. 3, 1875	18	466			\$500, 000 00	
NOTE.—An explanation of this estimate will be found in Appendix "V."							
<i>Gauging Waters of Columbia River, Oregon—</i>							
Measuring tidal and river volumes.....	Aug. 11, 1888	25	423	1		2, 000 00	\$2, 500 00
<i>Examinations, Surveys, and Contingencies of Rivers and Harbors—</i>							
Examinations and surveys (\$75,000), and for contingencies and incidental repairs of harbors for which there may be no special appropriation (\$100,000).....	Aug. 11, 1888	25	433	1		175, 000 00	150, 000 00
<i>Improving Rivers and Harbors—</i>							
Construction, completion, repair, preservation, and survey of rivers and harbors, to be expended upon such works as may be directed by Congress.....	Mar. 5, 1888 Aug. 11, 1888	25 25	618 400, 433	1 1-14		5, 000, 000 00	22, 250, 116 90
Total Rivers and Harbors.....						5, 677, 000 00	22, 402, 616 90
Total Public Works under War Department.....						13, 785, 234 72	26, 536, 322 90
Total Public Works.....						21, 204, 909 74	29, 309, 749 37

NOTE.—The following statement is not furnished as a part of the "annual estimates for the public service" required by the act of March 3, 1875, (18 Stat., p. 370), to be furnished by the Secretary of War to the Secretary of the Treasury, but is inserted as a convenient and customary summary of items taken from the annual report of the Chief of Engineers for the fiscal year 1888, showing, under the provisions of the act of Congress approved March 2, 1867, (14 Stat., p. 421), "the amount that can be profitably expended in the next fiscal year" on each of the uncompleted works mentioned.

For what object.	Date of last appropriation.	Reference to statutes.			Amount that can be profitably expended in the next fiscal year, as reported by the Chief of Engineers.

PUBLIC PRINTING AND BINDING.							
The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several Executive Departments, under the provisions of section 2, act of May 8, 1872, (R. S., page 720, section 3661:)							
LIBRARY OF CONGRESS.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer, as follows: Printing and binding copyright records and blanks, binding of books and periodicals for the Library of Congress, and printing and binding Catalogue.....					\$15,000		
CIVIL-SERVICE COMMISSION.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer.....					12,000		
STATE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer.....					20,000		
TREASURY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department, heretofore estimated for by the Public Printer.....					285,000		
SMITHSONIAN INSTITUTION.							
<i>Printing and Binding—</i>							
Printing labels and blanks, and for the Bulletins and annual volumes of the Proceedings of the National Museum.....					15,000		
WAR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Office of Secretary of War.....					\$9,400		
Office of Adjutant-General.....					25,000		
Office of Inspector-General.....					500		
Office of Judge-Advocate General...					500		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Printing and Binding—Continued.</i>							
Office of Quartermaster-General.....	\$18,000						
Office of Commissary-General.....	4,500						
Office of Paymaster-General.....	2,000						
Office of Surgeon-General, (including \$12,000 for the index-catalogue of this office and \$8,000 for binding 7,000 volumes of reference and professional books for the library of the Surgeon-General's Office).....	38,000						
Office of Chief of Engineers, (including not exceeding \$5,000 for publication of Professional Papers, when approved by the Secretary of War).....	20,000						
Office of Chief of Ordnance, \$35,000; reduced by Acting Secretary of War to.....	25,000						
Office of Chief Signal Officer—For printing, \$6,000; for binding, \$4,000; lithographing and mapping, \$1,000; and engraving, \$1,000; of the necessary annual reports, books, pamphlets, forms, circulars, posters, Professional Papers, Signal-Service Notes, card catalogues, and for any other necessary printing which, in the opinion of the Secretary of War, may be required to carry into effect the appropriations made for the support of the Signal Service, and of which amount not more than \$1,000 may be used in publishing, on the approval of the Secretary of War, Professional Papers and Signal-Service Notes for distribution to voluntary and co-operating observers.....	12,000						
NOTE.—This estimate is submitted in compliance with the provisions of the act of August 4, 1886 (24 Stats., p. 222), which directs "that all printing and engraving for the * * * Signal Service shall hereafter be estimated for separately and in detail."							
Office of Rebellion Records.....	300						
	\$155,200						
NAVY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the Navy Department, including \$12,000 for the Hydrographic Office, to be executed under the direction of the Public Printer.....	60,000						
INTERIOR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the Interior Department and its several bureaus and offices, including the Civil-Service Commission, to be executed under the direction of the Public Printer.....	345,750						
POST-OFFICE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the Post-Office Department, exclusive of money-order office, to be executed under the direction of the Public Printer.....	284,000						
DEPARTMENT OF AGRICULTURE.							
<i>Printing and Binding—</i>							
Printing and binding for the Department of Agriculture, to be executed under the direction of the Public Printer.....	35,000						

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.

Salary of one superintendent for the life-saving and life-boat stations on the coasts of Washington Territory, Oregon, and California.....do.....				1,800 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Life-Saving Service—Continued.</i>							
Salaries of two hundred and thirty-seven keepers of life-saving and life-boat stations and houses of refuge.....	June 20, 1874 June 18, 1878 May 4, 1882 Oct. 2, 1888	18 20 22 25	127 163 55 509, '10	2-6 1-12 1-11 1	\$159,660 00		
Pay of crews of surfmen employed at the life-saving and life-boat stations, during the period of actual employment; compensation of volunteers at life-saving and life-boat stations, for actual and deserving service rendered upon any occasion of disaster, or in any effort to save persons from drowning, at such rate, not to exceed ten dollars for each volunteer, as the Secretary of the Treasury may determine; pay of volunteer crews for drill and exercise; fuel for stations and houses of refuge; repairs and outfits for same; rebuilding and improvement of same; supplies and provisions for houses of refuge, and for shipwrecked persons succored at stations; traveling expenses of officers under orders from the Treasury Department; for carrying out the provisions of sections seven and eight of the act approved May fourth, eighteen hundred and eighty-two; for draught animals and maintenance of same; and contingent expenses, including freight, storage, repairs to apparatus; medals, labor, stationery, advertising, and miscellaneous expenses that cannot be included under any other head of life-saving stations on the coasts of the United States.....	Same acts.....						
<i>Establishing Life-Saving Stations—</i>							
Establishing new life-saving stations and life-boat stations on the sea and lake coasts of the United States..	June 18, 1878 May 4, 1882 June 19, 1886 Appropriated..	20 22 24 25	163 55 84 510	1 1-11 1 1		50,000 00	50,000 00
Total Life-Saving Service.....							971,160 00
REVENUE-CUTTER SERVICE.							
<i>Expenses of Revenue-Cutter Service—</i>							
For pay of captains, lieutenants, engineers, cadets, and pilots employed, and for rations for the same; for pay of petty officers, seamen, cooks, stewards, boys, coal-passers, and firemen, and for rations for the same; for fuel for vessels, and repairs and outfits for the same; ship-chandlery and engineers' stores for the same; traveling expenses of officers traveling on duty under orders from the Treasury Department; instruction of cadets; commutation of quarters; for protection of the interests of the Government on the seal islands and the sea-otter hunting-grounds, and the enforcement of the provisions of law in Alaska; contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor, and miscellaneous expenses which cannot be included under special heads.. Oct. 2, 1888	R. S. R. S. 25	534 534 510	2749 2753-6 1		\$950,000 00	\$925,000 00
ENGRAVING AND PRINTING.							
<i>Compensation of Employes, Bureau of Engraving and Printing—</i>							
For salaries of all necessary clerks and employes, other than plate-printers and plate-printers' assistants, to be expended under the direction of the Secretary of the Treasury..... Oct. 2, 1888	R. S. 25	706 511	3575-7 1		370,000 00	370,000 00
<i>Plate-Printing, Bureau of Engraving and Printing—</i>							
For wages of plate-printers, at piece rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work, including the wages of printers' assistants, at \$1.25 a day each, when employed, and for wages of printers' assistants at steam presses, at \$1.50 a day each when employed, and for royalty for use of steam plate-printing machines, to be expended under the direction of the Secretary of the Treasury..... Oct. 2, 1888	R. S. 25	706 511	3575-7 1		398,000 00	398,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Materials and Miscellaneous Expenses, Bureau of Engraving and Printing—</i> For engravers', printers', and other materials, except distinctive paper, and for miscellaneous expenses, to be expended under the direction of the Secretary of the Treasury	Oct. 2, 1888	R. S. 25	706 511	3575-7 1	}	\$189, 000 00	\$189, 000 00
NOTE.—In relation to the estimates for engraving and printing, see Appendix "W."							
Total Engraving and Printing.....						957, 000 00	957, 000 00
LIGHT-HOUSE ESTABLISHMENT.							
<i>Supplies for Light-Houses—</i> Supplying light-houses, beacon-lights, and fog-signals with illuminating, cleansing, preservative, and such other materials as may be required for annual consumption; for books, boats, and furniture for stations, and other incidental expenses.....	Appropriated..	25	511	1	\$340, 000 00	\$340, 000 00
<i>Repairs of Light-Houses—</i> Repairing, rebuilding, and improving light-houses and buildings; for improvements to grounds connected therewith, including the erection of oil-houses and other inexpensive structures that may be required for the storage and care of public property at or near light-houses; for establishing and repairing pierhead and other beacon-lights; for illuminating apparatus and machinery to replace that already in use, and for incidental expenses relating to these various objects.....	Appropriated..	25	511	1	400, 000 00	300, 000 00
NOTE.—Upon this appropriation the Board depends for the preservation and efficiency of fixed aids to navigation. It has remained the same for several years notwithstanding a yearly increase in number of aids. In consequence structures are deteriorating for want of timely repairs. Unless the appropriation is increased it will be impossible to keep the light-houses in a state of efficiency. An additional sum is also required for small houses for separate storage of mineral oil, now kept in large quantities in the light houses themselves, endangering their loss by fire.							
<i>Salaries of Keepers of Light-Houses—</i> Salaries, fuel, rations, rent of quarters where necessary and similar incidental expenses of light-house and fog-signal keepers.....	Appropriated..	R. S. 25	908 512	4673 1	}	625, 000 00	585, 000 00
NOTE.—The natural expansion of the light-house service makes it necessary to increase year by year the number of keepers. The sum appropriated for the year ending June 30, 1889, was too small, and the number of keepers necessary for effective service cannot therefore be employed. The entire appropriation for the year 1887-'88 was exhausted, and it is possible that there may be a deficiency for 1888-'89.							
<i>Expenses of Light-Vessels—</i> Seamen's wages, rations, repairs, salaries, supplies, and incidental expenses of light-ships.....	Appropriated..	25	512	1	225, 000 00	215, 000 00
NOTE.—An increase in the number of light-ships makes it necessary to slightly increase this appropriation.							
<i>Expenses of Buoyage—</i> Expenses of establishing, replacing, and maintaining buoys, spindles, and day-beacons, and for incidental expenses relating thereto.....	Appropriated..	25	512	1	350, 000 00	325, 000 00
NOTE.—The maintenance of a considerable number of lighted, whistling, and bell buoys has greatly increased the expenses naturally coming under this head of appropriation, and it must be increased if the present efficiency of these aids is to be maintained.							
<i>Expenses of Fog-Signals—</i> Establishing, replacing, duplicating, and improving fog-signals and buildings connected therewith, and for repairs and incidental expenses of same.....	Appropriated..	25	512	1	70, 000 00	60, 000 00
<i>Inspecting Lights—</i> For mileage or traveling expenses of members of the Light-House Board, including awards paid for information as to collisions, and for the apprehension of those who damage light-house property.....	Appropriated..	25	512	1	5, 000 00	3, 000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Lighting of Rivers—</i> For establishing, supplying, and maintaining post-lights on the lakes and inland waters of the United States, not otherwise provided for; the Light-House Board being hereby authorized to lease the necessary ground for all such lights and beacons as are for temporary use, or are used to point out changeable channels, and which in consequence cannot be made permanent.....	Appropriated..	25	512	1	\$275,000 00	\$250,000 00
<i>Survey of Light-House Sites—</i> For preliminary examinations, surveys, and plans for determining the proper sites and cost of light-houses and structures for which estimates are to be made to Congress	Appropriated..	25	512	1	2,500 00	1,000 00
Total Light-House Establishment.....						2,292,500 00	2,079,000 00
UNITED STATES COAST AND GEODETIC SURVEY.							
For every expenditure requisite for and incident to the survey of the Atlantic, Gulf, and Pacific coasts of the United States and the coast of the Territory of Alaska, including the survey of rivers to the head of tide-water or ship navigation; deep-sea soundings, temperature, and current observations along the coasts and through out the Gulf stream and Japan stream, flowing off the said coasts; tidal observations; the necessary resurveys; the preparation of the Coast Pilot; continuing researches and other work relating to terrestrial magnetism and the magnetic maps of the United States and adjacent waters and the tables of magnetic declination, dip and intensity usually accompanying them; and including compensation, not otherwise appropriated for, of persons employed on the field-work, in conformity with the regulations for the government of the Coast and Geodetic Survey adopted by the Secretary of the Treasury; for special examinations that may be required by the Light-House Board or other proper authority, and including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury, not exceeding two dollars and fifty cents per day each; outfit, equipment, and care of vessels used in the Survey, and also the repairs and maintenance of the complement of vessels, to be expended in accordance with the regulations relating to the Coast and Geodetic Survey from time to time prescribed by the Secretary of the Treasury, and under the following heads: <i>Provided</i> , that no advance of money to chiefs of field parties under this appropriation shall be made unless to a commissioned officer, or to a civilian officer who shall give bond in such sum as the Secretary of the Treasury may direct.							
<i>Party Expenses, Coast and Geodetic Survey—</i> To complete the triangulation and topography of the coast of Maine in Cobscook bay and St. Croix river, and to the international boundary monument (all new work)..... Mar. 3, 1871 Oct. 2, 1888	R. S. 16 25	910 508 512- 515	4681, 4691 1 1	} \$6,000 00		
For resurveys: For triangulation, topography, and hydrography in the vicinity of the east end of Long Island, Block Island, Nantucket, Nantucket shoals and approaches, and including Vineyard sound and Connecticut river to Hartford, Conn., and Hudson river to Troy, N. Y., and for current observations off Cape Cod.....	Same acts.....					7,000 00	
For current observations along the Sandy Hook and Coney Island shores, outside.....do.....					3,000 00	
For continuation of the comparison of the surveys of the Delaware River and Bay below League Island, and for observing the movement, lodgment of, and obstructions by ice, and alterations in the channels and bars caused therebydo.....					2,000 00	
To continue to date corrections of former surveys of the Delaware and Schuylkill Rivers for use on a new large-scale chart of the same in the vicinity of Philadelphia and up the Delaware River to Trenton.....do.....					1,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Party Expenses, Coast and Geodetic Survey—Continued.</i>							
To continue physical research and observation of the erosion by the sea on the coast of Cape Cod, Nantucket, and Martha's Vineyard, including reductions.....	Mar. 3, 1871 Oct. 2, 1888	R. S. 16 25	910 508 512- 515	4681, 4691 1 1	\$2,700 00		
For the hydrography of the inside waters and bars south of Absecon light; for necessary triangulation and for continuing the topography along the Atlantic coast of New Jersey. (Nearly all of the hydrography is new work, and the topography is virtually so because of the great changes)	Same acts					3,000 00	
For a hydrographic examination of Charleston, S. C., entrance and bar.....do.....				2,000 00		
To continue the primary triangulation from Atlanta towards Mobile.....do.....				3,000 00		
For a geodetic junction of Fernandina with Cedar Keys, including a line of precise levels.....do.....				5,000 00		
For continuing the survey of the western coast of Florida, from Cape Sable north to Cape Romano, and for hydrography off the same coast, being all new workdo.....				12,000 00		
For continuing the survey of the tributaries of Pensacola Bay, or, if completed, to run a line of standard levels from the bench mark in Mobile to the bench marks along the Mobile River up to the vicinity of Mount Vernon Landingdo.....				2,000 00		
For the triangulation, topography, and hydrography of Perdido Bay and its connection with the coast triangulation, and for resurvey of Mobile Bay entrance, and, if completed, to take up the survey of Lake Pontchartraindo.....				3,000 00		
For continuing the survey of the coast of Louisiana west of the Mississippi delta, and between Barataria Bay and Sabine Passdo.....				7,000 00		
To make off-shore soundings along the Atlantic coast, and current and temperature observations in the Gulf Stream.....do.....				8,000 00		
For hydrography, coast of California, including San Francisco Bay and Harbor, and necessary triangulation and topography.....do.....				10,000 00		
For continuing the topographic survey of the coast of California, including necessary triangulation and astronomical work in connection therewith.....do.....				10,000 00		
For continuing the primary triangulation of Southern California, and for connecting the same at Mount Conness with the transcontinental arc, and for a primary base-line in the vicinity of Los Angeles.....do.....				10,000 00		
For continuing the survey of the coast of Oregon, including off-shore hydrography, and to continue the survey of the Columbia River from the mouth of the Willamette toward the Cascades; triangulation, topography, and hydrography. (This amount is a necessary increase over last year's estimate to meet the demands of the hydrography)do.....				12,000 00		
For continuing the survey of the coast of Washington Territory. This amount is necessarily increased to meet the requirements of the hydrographydo.....				12,000 00		
For continuing explorations in the waters of Alaska, and making hydrographic surveys in the same, and for the establishment of astronomical, longitude, and magnetic stations between Sitka and the southern end of the Territory. This estimate decreased because experience proves that we can get along with \$10,000.....do.....				10,000 00		
For continuing the researches in physical hydrography relating to harbor and bars, including computations and plotting.....do.....				2,000 00		
For examinations into reported dangers on the eastern, Gulf, and Pacific coasts.....do.....				500 00		
To continue magnetic observations on the Atlantic and Gulf slopes.....do.....				1,200 00		
For continuing magnetic observations on the Pacific coast, and at San Antonio magnetic observatory.....do.....				1,200 00		
For running an exact line of levels from Boston or Salem, Mass., to Blue Hill, Mount Monadnock, Mount Washington, Mount Independence, and Lake Champlain.....do.....				2,000 00		
For continuing the exact line of levels from the point reached this year, south of Cairo, southward to Okaloona, Miss., and if junction is made, to continue the trans-continental line beginning either in the vicinity of Kansas City or San Francisco.....do.....				3,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1889.

Signal Service, Stationery— For stationery for the office of the Chief Signal Officer.....	Appropriated..	25	281	1	\$5,500 00	\$3,490 00																																
NOTE.—It is requested that the appropriation under this estimate be made specific for this bureau. The amount which was required and expended from the appropriation, "Stationery, War Department, 1888," was \$4,012.94, and a proportionate amount from the appropriation, "Stationery, War Department, 1890," from which appropriation such expense is now paid, is about \$3,490. The last mentioned sum has been deducted from the estimate, "Stationery, War Department, 1890," page 47.																																							
Total of above estimates for the Signal Service.....	668,720 74	696,595 57																																
NOTE.—The other estimates and appropriations for the Signal Service, for the fiscal years 1890 and 1889 respectively are as follows:

NATIONAL CEMETERIES.																																							
National Cemeteries— For maintaining and improving national cemeteries, including fuel for superintendents of national cemeteries, pay of laborers and other employes, and purchase of tools and materials..... Oct. 2, 1888	R. S. 25	943 537	4870 4879 1	}	\$100,000 00	\$100,000 00																																
Pay of Superintendents of National Cemeteries— Pay of seventy-three superintendents of national cemeteries..... Oct. 2, 1888	R. S. 25	943 538	4873 1	}	60,440 00	60,720 00																																
Headstones for Graves of Soldiers— Continuing the work of furnishing headstones for unmarked graves of Union soldiers, sailors, and marines in national, post, city, town, and village cemeteries, naval cemeteries at navy yards and stations of the United States, and other burial places..... Feb. 22, 1867 June 8, 1872 June 10, 1872 Mar. 3, 1873 Feb. 3, 1879 Oct. 2, 1888	14 17 17 17 20 25	399 345 367 545 281 538	1 1 1 1 1 1	}	60,000 00	85,000 00																																
Repairing Roads to National Cemeteries— Repairs to roadways to national cemeteries which have been constructed by special authority of Congress..... Oct. 2, 1888	25	538	1	15,000 00	16,000 00																																
NOTE.—There are now eleven of these roadways, viz.: Vicksburg and Natches, Miss.; Fort Scott, Kans.; Chattanooga and Knoxville, Tenn.; Mound City, Ill.; New Albany, Ind.; Springfield, Mo.; Chalmette, La.; and Richmond and Danville, Va., constructed under appropriations made by Congress at different periods since 1878, aggregating \$202,000. In addition to these, appropriations have been made during the fiscal year ending June 30, 1888, for the construction of four others, viz.: Corinth, Miss.; Alexandria (Pineville), La.; San Francisco, Cal., and New Bern, N. C., at an aggregate cost of \$51,000. No provision, however, has as yet been made for their maintenance and repair, with the exception of the sum of \$3,000, appropriated by act of Congress, approved March 3, 1887, and which has been expended where most urgently required, and \$16,000 appropriated by act of October 2, 1888, apportioned to be expended where most needed.																																							
National Cemetery at Hampton, Va.— For the purchase of eight acres of land adjoining the national cemetery at Hampton, Va., required for enlargement of the same.....	Submitted.....	17,000 00																																	
NOTE.—There is now very little space in the cemetery available for interments, probably not more than sufficient for the current fiscal year, while the Governor of the southern branch of the Home for Disabled Volunteer Soldiers reports that for the next ten years there will be from 150 to 200 interments each year from that institution.																																							
Total National Cemeteries.....	252,440 00	261,720 00

UNDER THE INTERIOR DEPARTMENT.																																																																																																																		
COLLECTING THE REVENUE FROM PUBLIC LANDS.																																																																																																																		
Salaries and Commissions of Registers and Receivers—																																																																																																																		
Compensation of registers and receivers of local land-offices (see detailed statement following; see also Appendix "Jj").....	Oct. 2, 1888	R. S. 25	392 524	2237 to 2240 1	\$524, 000 00	\$524, 000 00																																																																																																											
<p>NOTE.—The estimate submitted for compensation of registers and receivers is the amount appropriated by Congress for the fiscal year 1889.</p> <p>The compensation of the registers and receivers is limited by law to the amount earned not to exceed \$3,000 each per annum. During the fiscal year ending June 30, 1888, the fees and commissions earned by registers and receivers amounted to \$1,070,463.63, while the total amount necessary to pay their salaries, fees, and commissions was \$555,385.92. Of the \$1,070,463.63 above referred to, there was collected from the entrymen the sum of \$829,980.05, which was turned into the Treasury, and after deducting the amount necessary to pay the earnings of registers and receivers, there remained a net revenue to the Government of \$274,594.13, to which is to be added the amount received as homestead and timber culture fees, \$668,143, making an aggregate of \$942,737.13.</p>

<i>Contingent Expenses of Land Offices—</i>																																																																																																
For clerk-hire, rent, and other incidental expenses of the several land offices (see detailed statement in Appendix "K k").....	Oct. 2, 1888	25	524	1	\$155,000 00	\$155,000 00																																																																																										
NOTE.—The foregoing estimate includes the salaries of clerks, office rent, registration fees, and a variety of other incidental expenses, such as binding plat books, furniture, &c.																																																																																																
<i>Expenses of Depositing Public Moneys—</i>																																																																																																
Expenses of depositing public moneys received from public lands.....	Oct. 2, 1888	R. S. 25	713 524	3617 1	10,000 00	10,000 00																																																																																										
<i>Depredations on Public Timber—</i>																																																																																																
To meet the expenses of protecting timber on the public lands.....	Oct. 2, 1888	25	524	1	75,000 00	75,000 00																																																																																										
NOTE.—The amount of money recovered from trespassers during the past year and reported was \$128,522.64. A considerable further sum has not yet been reported.																																																																																																
<i>Protecting the Public Lands—</i>																																																																																																
For the protection of public lands from illegal and fraudulent entry or appropriation.....	Oct. 2, 1888	25	524	1	100,000 00	100,000 00																																																																																										
<i>Expenses of Hearings in Land Entries—</i>																																																																																																
For expenses of hearings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law.....	Oct. 2, 1888	25	524	1	30,000 00	30,000 00																																																																																										
NOTE.—The foregoing estimate is to defray the expenses of hearings ordered by the General Land Office in cases of alleged fraudulent or illegal entries. These entries are suspended upon the reports of investigations made by special agents; hearings are then ordered to be held, and all parties in interest notified thereof. The expenses to be borne by the United States are those of its own witnesses and the taking of testimony to establish the fraudulent or illegal character of the entry.

MISCELLANEOUS OBJECTS.							
<i>Current Expenses, Government Hospital for the Insane—</i> For support, including clothing and treatment in the Hospital for the Insane of the insane of the Army, Navy, Marine Corps, Revenue-Cutter Service, National Home for Disabled Volunteer Soldiers, the indigent insane of the District of Columbia, and the United States convict-insane	R. S.	938	4838, 4858	}	\$217, 500 00	\$201, 315 00
Appropriated..	25	527	1				
NOTE.—The basis of this estimate is an annual per capita cost of \$220 for an average number of 1,375 insane persons, who, under the statutes, are entitled to treatment. Congress has of late provided for a part of this expenditure in the District bill. The ratio of appropriation remaining the same as that for the present fiscal year the amount in the District bill will be \$85,000, leaving the sum of \$217,500 to be appropriated in the sundry civil bill, of which it is asked that not exceeding \$1,500 may be used as hitherto in defraying the expense of the return of patients to their friends.							
<i>Current Expenses, Columbia Institution for the Deaf and Dumb—</i> For the support of the institution, including salaries and incidental expenses, for books and illustrative apparatus, and for general repairs and improvements	Appropriated..	25	527	1	52, 500 00	52, 500 00
<i>Education of Feeble-minded Children, District of Columbia—</i> To enable the Secretary of the Interior to provide for the education of feeble-minded children belonging to the District of Columbia	June 16, 1880 Appropriated..	21 25	275 528	1 1	}	2, 500 00	2, 500 00
<i>Support of Freedmen's Hospital and Asylum—</i> For subsistence	Appropriated..	25	528	1	\$22, 000 00		
For salaries and compensation of the surgeon-in-chief, not to exceed \$3,000; two assistant surgeons, clerk, engineer, matron, nurses, laundresses, cooks, teamsters, watchmen, and laborersdo.....				14, 000 00		
For rent of hospital buildings and groundsdo.....				4, 000 00		
For fuel and light, clothing, bedding, forage, transportation, medicines and medical supplies, repairs and furniture, labor, and other absolutely necessary expensesdo.....				10, 500 00		
For reading matter for patientsdo.....				25 00		
For building one brick building to be used as a stable, storehouse, and dead-housedo.....				1, 350 00		
NOTE.—The buildings now used for stables, storehouse, and dead-house are old frame buildings, out of repair, and unserviceable for the purpose of protecting and storing hospital property.						51, 875 00	51, 875 00
<i>Maintenance of Howard University—</i> For salaries of officers, professors and teachers, and other regular employes of the University	Appropriated..	25	528	1	18, 500 00		
For tools, materials, wages of instructors, and other necessary expenses of the industrial departmentdo.....				1, 500 00		
						20, 000 00	20, 000 00
Total Miscellaneous Objects						344, 375 00	328, 190 00
Total Miscellaneous under Interior Department						1, 849, 075 00	1, 931 890 00
UNDER THE DEPARTMENT OF JUSTICE.							
MISCELLANEOUS.							
<i>Defending Suits in Claims against the United States—</i> For defraying the necessary expenses incurred in the examination of witnesses, and procuring evidence in the matter of claims against the United States and the District of Columbia	Oct. 2, 1888	25	544	1	\$20, 000 00	\$10, 000 00
NOTE.—See Appendix "L1."							
<i>Defense in French Spoliation Claims—</i> For defense in French spoliation claims	Oct. 2, 1888	25	544	1	5, 600 00	5, 000 00
<i>Punishing Violations of Intercourse Acts and Frauds—</i> For detecting and punishing violations of the intercourse acts of Congress and frauds committed in the Indian service, to be expended by the Attorney-General in allowing such fees and compensation to witnesses, jurors, marshals and deputies, and agents, and in collecting evidence and defraying such other expenses as may be necessary for the purpose	Oct. 2, 1888	25	544	1	5, 000 00	5, 000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1890—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30 1889.
		Vol. or R. S.	Page.	Sec.			
<i>Support of Convicts—</i> For support, maintenance, and transportation of convicts transferred from the District of Columbia; for the collection of criminal statistics, and for such expenses as are necessary in procuring information concerning penal institutions, to be expended under the direction of the Attorney-General	Oct. 2, 1888	25	544	1	\$20,000 00	\$15,000 00
NOTE.—An increase is needed for the reason that the contract heretofore existing with penitentiaries, whereby the transportation of prisoners from the District of Columbia was paid by the penitentiary, has been changed, owing to the act of February 23, 1887, and the said transportation has now to be paid by the Government. It is also necessary that this appropriation be made available for the collection of criminal statistics, for the information thus obtained is very valuable to the Department and oftentimes necessary for the proper understanding of cases.							
<i>Prosecution of Crimes—</i> For the detection and prosecution of crimes against the United States preliminary to indictment; for the investigation of official acts, records, and accounts of officers of the courts, including the investigation of the accounts of the marshals, attorneys, clerks of the United States courts and United States commissioners, under the direction of the Attorney-General; and for this purpose all the records and dockets of these officers, without exception, shall be examined by his agents at any time	Oct. 2, 1888	25	544	1	30,000 00	30,000 00
<i>Expenses of Territorial Courts in Utah—</i> For defraying the contingent expenses of the courts, including fees of the United States district attorney and his assistants, the fees and per diems of the United States commissioners and clerks of the court, and the fees, per diems, and traveling expenses of the United States marshal for the Territory of Utah, with the expenses of summoning jurors, subpoenaing witnesses, of arresting, guarding, and transporting prisoners, of hiring and feeding guards, and of supplying and caring for the penitentiary, to be paid under the direction and approval of the Attorney-General, upon accounts duly verified and certified	Oct. 2, 1888	25	544	1	45,000 00	35,000 00
NOTE.—See letter from marshal of Utah, March 26, 1888, in Appendix "M m."							
<i>Prosecution and Collection of Claims—</i> For the prosecution and collection of claims due the United States, to be expended under the direction of the Attorney-General	Oct. 2, 1888	25	544	1	500 00	500 00
<i>Traveling Expenses, Territory of Alaska—</i> For the actual and necessary expenses of the judge, marshal, clerk, and attorney, when traveling in the discharge of their official duties	Oct. 2, 1888	25	544	1	1,000 00	1,000 00
<i>Rent and Incidental Expenses, Offices of Marshal, Attorney, and Commissioner, Territory of Alaska—</i> For rent of offices for the marshal, district attorney, and commissioners; furniture, fuel, books, stationery, and other incidental expenses	Oct. 2, 1888	25	544	1	1,000 00	500 00
<i>Reform School, District of Columbia—</i> For Reform School— Salaries:							
One superintendent	July 18, 1888	25	325	1	\$1,500 00		
Assistant superintendent	do.				900 00		
Teachers and assistant teachers	do.				3,500 00		
Matron of school	do.				600 00		
Three matrons of families, at \$180 each	do.				540 00		
Superintendent of chair-shop	do.				660 00		
Farmer	do.				480 00

APPENDIX.

APPENDIX A.

In relation to the estimates for clerical force under chief clerk of the Treasury Department, page 18; contingent expenses, Treasury Department, page 30, and repairs to Treasury building, page 153.

TREASURY DEPARTMENT,
Office of the Secretary, Washington, D. C., October 24, 1888.

SIR: In explanation of the increases in the appropriations for contingent expenses, Treasury Department; repairs to Treasury and Winder buildings, and for additional employes and increase of salaries for the service of the fiscal year beginning July 1, 1889, I have the honor to submit the following reasons which, in my judgement, appear to warrant the additional amounts and service where an increase is asked for.

1. The estimate for fuel, &c., is increased \$4,000 for the reason that since the estimates were submitted for the current fiscal year, the Winder building has been placed under the custody of this Department, and the additional amount estimated for, is to enable this Department to supply fuel, &c., to that building, and also to meet the increased consumption of fuel which will be made necessary by the introduction of a proposed electric-light plant in this building, to light the vaults, corridors and such portions of the premises as are now insufficiently lighted.

2. The increase of \$2,000 in the estimates for gas, &c., is due to the fact that the limited appropriation heretofore granted has made it necessary to curtail the supply of gas in the interior of the building in order to avoid creating a deficiency; and for the further reason that the expense of lighting the Winder building will also be charged to this appropriation, in addition to those buildings the expense of lighting which has heretofore been paid therefrom.

3. The estimates for the purchase of furniture, &c., have been increased \$2,000 in order that the necessary number of type-writing machines may be purchased to facilitate the business of the Department. Heretofore type-writers have been purchased out of the appropriation: Contingent expenses, Treasury Department, miscellaneous items, but the demands on that appropriation have been so great as to make it necessary to refuse a number of requisitions within the present fiscal year for type-writers, in order to keep the expenditures within the limit appropriated.

4. The estimate for miscellaneous items is increased \$4,000 which is made in order to enable the Department to purchase certain articles chargeable thereto, which are considered essential for the proper transaction of the public business but which have heretofore been disallowed for the want of sufficient funds.

5. An increase of \$200 is estimated for the salary of the Department storekeeper. This employe is charged with the custody of all supplies provided for use in the Treasury building, and the various offices and bureaus of the Department in the City of Washington, located outside of the Treasury building, with the exception of the Bureau of Engraving and Printing, and with the issue of all supplies to the various offices and bureaus of this Department on approved requisitions. In addition to being the custodian of the supplies above mentioned, this official has in his charge the stock of carpets, border and lining for all public buildings in the United States which are under the control of the Treasury Department. The office is a responsible one and requires that the storekeeper should be a person possessed of a technical knowledge of the quality and value of articles to be purchased and delivered, and it is believed that this office is justified in recommending the increase stated.

6. The following increase in the clerical force of this office is estimated for, viz.: One clerk of class four; one clerk of class three; one clerk of class one; one draughtsman, at \$1,600 per annum; one draughtsman, at \$1,400 per annum; one tracer, at \$1,000 per annum.

This additional force of clerks is made necessary by reason of the increase in the work of the superintendent's office in the way of correspondence, book-keeping, examination of vouchers, preparation of specifications, &c., caused by the completion or probable completion of twenty-seven new buildings within the present fiscal year, and an increase in the business in the old buildings, reference being particularly made to the Post Office service, making at least thirty-five per cent. increase in the work of this office, without any increase in the clerical force thereof.

The services of the draughtsmen and tracer estimated for are absolutely necessary in connection with the preparation of plans, drawings, &c., for standard and special furniture, gas and electric-light fixtures for the new buildings above mentioned, and for twenty-five or thirty additional ones to be completed within the fiscal year 1889-'90, the contracts for furnishing which should be entered into at least six months in advance of the date of their completion.

A similar force was heretofore paid from an appropriation which has since ceased to be available for that purpose, and it is respectfully requested that the Department urge upon Congress the necessity for making an appropriation for this increase for the following reasons:

- I. The force now under the direction of the inspector of furniture, &c., consists of details from other divisions of the Secretary's office, and other bureaus of the Department, which for many reasons is very unsatisfactory, even could it be depended upon that they or others could at all times be spared from the offices to which they belong, which, under the present and prospective pressure of business, appears very unlikely. The inexperience of the persons so detailed, the uncertain tenure of the position assigned to them, and other reasons, make such a system of detailing most unsatisfactory.

- II. Much labor of a peculiarly responsible character is entailed upon this division, which, together with the necessary absence of the inspector on official duties, a great part of the time, seems to demand a permanent force that can be trained to perform the work laid out, and carry out instructions during the inspector's absence as well as when present.

Your attention is respectfully called to the unprecedented increase in the number of new public buildings being completed, and to be completed during the next fiscal year, as compared with any previous year, also to the fact that many of the old buildings furnished several years ago now require refurnishing, repairs to furniture, &c., entailing almost as much work as the new buildings.

The force estimated for, is, in my judgment, as low both in point of numbers and compensation as the character and quantity of the work will justify.

7. Two additional assistant messengers are estimated for, one to be assigned for duty in the office of the assistant superintendent, and the other with the storekeeper. The last mentioned will receive and deliver throughout the building such articles as are authorized to be delivered to the various offices. This person will also attend to the weighing of the ice, the receipt and issue of towels, and such other duties as may be required of him.

8. One additional elevator conductor is estimated for. The services of this man are made necessary by the introduction of a new freight-elevator in this building. The old freight-elevator was so constructed that it could be operated by the person in charge of the engine furnishing power for the branch printing office, but the construction of the new elevator is such as to require the services of a conductor.

9. An increase of two engineers and four firemen has been estimated for. There are in this building, under the supervision of the chief engineer and requiring the attention of the engineer's branch of the service, the following engines, steam-pumps, boilers, machinery, &c., which are located in various portions of the building, considerable distances apart, viz.: In the southeast corner one steam-pump for operating the passenger-elevator; one plant of three heating-boilers in the south wing; one plant of two steam-boilers in the south court which furnish steam to the main engine, pumps, &c.; one engine for operating the machinery in the cabinet and carpenter shops; two steam-pumps in the south wing for supplying water to the heating-boilers, tanks, &c.; a plant of three steam-boilers in the north court for furnishing steam for the macerator; three heating-boilers on the west side of the building; two engines on the north wing for operating the machinery in the Treasurer's office used in sealing, separating, and cancelling United States securities; one freight-elevator; one steam-pump in the northeast corner of the building for operating passenger elevator; one engine on the fourth floor near the centre of the building for operating the machinery in the branch printing office, certain cancelling-machines, &c., and to keep in order and care for (exclusive of operating the same) one engine in the assay laboratory of the mint; one elevator in the Treasurer's office, &c. This force is also called upon to do all steam fitting in this building, and is charged with the proper heating of the Treasury building, photograph gallery, propagating houses, &c., besides caring for the heating apparatus of the Bureau of Statistics.

The number of firemen and engineers now authorized is too small to properly care for all this machinery, &c., and it has been found absolutely necessary to detail men from the laborers' force (from which they could not be well spared) to assist the firemen in the discharge of their duties. The watches are divided into reliefs of three hours each, and the nature of the work required of these men is of such a character as to demand that they be sober, strong, active and attentive, to avoid possible danger. In the estimates the salaries of the chief engineer, assistant chief engineer, engineers, and firemen have been increased for the reason that this force has been recently placed within the classified service and it will be difficult to secure persons of experience, who have passed the required examination and are possessed of the necessary qualifications, for less salaries than those mentioned. Furthermore, no good reason seems to exist why one portion of the firemen should receive a less compensation than the others, in view of the fact that their duties are of the same nature.

The estimate for the coal-passer has been increased from \$500 to \$660 per annum, as it is believed the latter salary would be more commensurate with the services rendered.

It is thought that the introduction of a proposed electric-light plant in this building will require the installation of an additional steam-boiler, but the Department will endeavor to operate the same, in addition to the boilers, machinery, engines, &c., now in this building with the force estimated for.

10. An increase appears in the estimates for the following items, viz.: One plumber, at \$1,200 per annum; one plumber's helper, at \$840 per annum; two carpenters, at \$900 each per annum; two painters, at \$900 each per annum.

This force is necessary for the proper care of the Treasury and Winder buildings, and, in the opinion of this office should be authorized, as emergencies are frequently occurring which require the immediate services of employes of this character.

11. An estimate is made for a female laborer to be placed in charge of the charwomen, at a salary of \$840 per annum. On account of the responsibility of this position—this lady being practically in charge of the various rooms and corridors of this building while her force is at work—it is believed the place should be established at the compensation stated.

12. An increase in the force of laborers is estimated for as follows: Two additional skilled laborers, at \$840 each per annum, for the purpose of assisting the locksmith and electrician in repairing locks, clocks, type-writers, electric bell and enunciators, and keeping same in order; winding and regulating clocks; putting up and taking down, storing and caring for awnings, curtains and fixtures, making keys, &c.; and five additional laborers, male, at \$500 each per annum. The number of laborers at present authorized is inadequate for the prompt and proper performance of the work that this force is called upon to render. As this force is at present composed, the Department has at its disposal at no time more than eight or ten men for general work, such as washing walls and windows, moving furniture, taking up carpets, handling freight, sweeping sidewalks, cleaning off snow, &c. The remainder of the force is employed at the stables, in the gardens and grounds, and by details to the engineer, and to various divisions where their services are imperatively needed. The increase asked for will equip this office with a force sufficient to meet the demands which are daily made upon it for services of the character mentioned, and will enable it to keep the premises in better condition, and will relieve it of the criticisms regarding the delays incident to the performance of its necessary labor.

13. An increase in the compensation of the watch-force is submitted in the estimates as follows: Captain of the watch, from \$1,400 to \$1,600 per annum; lieutenants of the watch, from \$900 to \$1,100 per annum; watchmen, from \$60 per month to \$70 per month, which, in view of the fact that the officers and men employed on this force are required to do duty every day in the year (Sundays included), less their regular leave, and in view of the further fact that they receive less compensation therefor than is paid for the same class of services in some of the other Departments in this city, where the responsibility is not so great, it is believed that their salaries should be increased as stated.

14. The estimate for carpets, &c., has been increased from \$6,500 to \$8,000, based upon the requirements of the service for last year, at the end of which time there remained unexpended but 93 cents of said appropriation, and to avoid creating a deficiency therein the utmost economy had to be observed, and carpets used which should have been condemned and sold.

15. An increase of \$1,000 appears in the estimate for rent. This is due to the fact that the owner of the premises occupied by the Bureau of Statistics on Fifteenth Street and stables on E Street, has notified this Department recently, in writing, that at the expiration of the present lease he will charge a rental of \$4,000 for these premises. I see no alternative but to grant the increase demanded, as, under the circumstances, and in view of the expense the owner has been put to in the way of repairs, &c., it is deemed just and fair.

16. The following force has been estimated for, in order to enable this office to properly care for the Winder building, viz.: One engineer, at \$1,000 per annum; one fireman, at \$720 per annum; one elevator conductor, at \$720 per annum; four watchmen, at \$840 each per annum; three laborers, at \$660 per annum; one laborer, at \$480; six charwomen, at \$240 each per annum; and four additional charwomen at same compensation.

This force, with the exception of the four charwomen last mentioned, was formerly estimated for by the War Department when the Winder building was under its charge. Since the last estimates were submitted the custody of this building has been vested in the Treasury Department, and these estimates are, with the exception noted, simply a continuance of those heretofore made by the War Department for the same force. In point of numbers and compensation the estimate is believed to be just and proper, and as low as the nature of the services will justify.

17. An increase is made in the estimates for the inspector of electric-light plants, gas, &c., for this Department from \$1,900 to \$2,500 per annum. This position imperatively demands, for a protection to the Government, that the inspector should be a person possessed of a practical and technical knowledge of the construction of steam-boilers, engines, dynamos, and all matters connected therewith, together with a similar knowledge of the subject of electricity as applied to lighting, in order that he may not only be competent to judge correctly whether work has been properly done, but that he may be able to prepare plans, specifications &c., for the installation of large electric-light plants, the responsibility for the successful operation of which devolves upon him. Persons filling similar positions in private corporations command better salaries than that at present authorized to be paid Department's inspector, and it is respectfully urged that Congress be asked to make the increase as stated.

18. The estimates for annual repairs to the Treasury and Winder buildings have been increased from \$8,000 to \$15,000. During previous fiscal years appropriations have been made for repairs to this building alone ranging from \$40,000 down to \$8,000. The amount appropriated for the present fiscal year is not considered sufficient to warrant the Department in making the necessary repairs to either of these buildings. The walls of many of the rooms of both buildings are dark, dingy, and smoky, and have not been painted for years. At the Winder building it will be necessary to repair and repaint the roof, window frames, balcony, &c., besides the general repairs. The Treasury building has not been in good condition for a number of years, owing to the small amount authorized to be expended under this head.

It is believed, with the increase asked for and the appropriations made for the present fiscal year for specific repairs, that this office will be able to place these buildings in proper condition, and so maintain them.

19. In the estimates for the compensation of the force employed in the cabinet shop, the words "while actually employed," have been omitted. This clause, so long as it remains in the appropriation bill, has the effect of depriving this force of a leave of absence. As no good reason seems to exist why such discrimination should be made against these men, it is respectfully recommended that the attention of Congress be called to the matter.

Respectfully yours,

E. B. YOUMANS,
Chief Clerk.

Hon. C. S. FAIRCHILD,
Secretary of the Treasury.

APPENDIX B.

In relation to the estimate for "Salaries, office of Supervising Architect." (See page 21.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, October 25, 1888.

SIR: I have the honor to inclose herewith the estimates of salaries for this office for the fiscal year ending June 30, 1890, in amount \$14,320, and for skilled service, draughtsmen, &c., \$175,000.

The legislative bill approved July 11, 1888, placed the salaries, for the current fiscal year, of the Supervising Architect, assistant and chief clerk, and principal clerk and stenographer, at \$4,500, \$2,500, and \$2,000, respectively, and attention is called to the fact that the estimates now submitted contemplate an increase in the compensation of the officers named; but as the vacancy caused by the death of a clerk of the third-class is not proposed to be filled, the aggregate amount submitted for the coming fiscal year is only \$900 in excess of the amount appropriated for the current year.

Legislation has placed under the control of this office the erection of many new buildings, and each succeeding year increases the number of buildings completed, thus entailing upon the principals of this office a great volume of technical work, which, aside from any plea which might be urged as to the value of such professional services, would justify the increased compensation submitted, and would seem to be demanded by the public interests.

A list of *employés* in this office, and the amounts paid each during the fiscal year 1888, from appropriations for public buildings, is also submitted herewith, as required by act of Congress approved July 11, 1888.

Respectfully yours,

THOS. D. FISTER,
Acting Supervising Architect.

To the Honorable, THE SECRETARY OF THE TREASURY.

List of employes in office of Supervising Architect, Treasury Department, and amounts paid each, during the fiscal year ended June 30, 1888, from appropriations for public buildings, furnished under requirements of the act of Congress approved July 11, 1888, 25 Stat., p. 266. (See estimate for 1890, on page 21.)

APPENDIX C.

In relation to the estimate for "Salaries, office of Second Auditor." (See page 22.)

TREASURY DEPARTMENT, SECOND AUDITOR'S OFFICE,
Washington, D. C., October 1, 1888.

SIR: I have the honor to submit the following remarks explanatory of certain items in the accompanying estimate of amounts required for "Salaries, office of Second Auditor," and "Contingent expenses, building corner F and Seventeenth Streets," for the fiscal year ending June 30, 1890:

1. For nine years, from 1879 to 1888, inclusive, this office had eight clerks of the \$1,000 class, but in the estimate for 1889 I dropped five of these clerks for the reason that there was not room enough to profitably employ them, and that when said estimate was submitted, October 1, 1887, the question as to what, if any, additional accommodation could be placed at the disposal of this office, had not been decided. Since then the matter has been settled, and I can make good use of the full complement of eight clerks at \$1,000. I therefore respectfully ask that the five temporarily dropped, as above stated, be restored.

2. Two additional assistant messengers, three additional laborers, and four more charwomen are rendered necessary by the fact that this office now occupies the whole of the building corner of F and Seventeenth Streets, consisting of 125 rooms and basement. Prior to March, 1888, the office occupied 75 rooms on the third, fourth, and fifth floors of said building. The addition of two floors (50 rooms) and basement (consisting of 15 rooms besides engine rooms, coal bunkers, &c.), and the consequent redistribution of the clerical force, makes the service of the additional employes asked for indispensable.

3. The amount required for fuel, lights, repairs of heating and ventilating apparatus, and miscellaneous items, is \$5,000. No specific appropriation for these objects has been made for the current fiscal year, so far as this office is concerned.

4. In 1881, a new fire-proof roof, consisting of wrought-iron I beams, corrugated iron arches and concrete covering, the whole covered with tin, was placed on this building. The tin covering requires repairing and repainting, and should be attended to as early as possible, otherwise an entirely new tin roof will be necessary. All the exterior wood-work of the building (window frames, balcony, &c.), needs repainting, the last coat having been put on fifteen years ago; considerable painting is also needed inside the building. There is no appropriation available for repairs during the fiscal year 1889.

Respectfully yours,

WM. A. DAY,
Auditor.

The Hon. SECRETARY OF THE TREASURY.

APPENDIX D.

In relation to the estimate for "Salaries, office of Register of the Treasury." (See page 25.)

TREASURY DEPARTMENT, REGISTER'S OFFICE,
Washington, D. C., September 29, 1888.

SIR: Pursuant to the requirements of your circular letter, dated the 1st instant, I transmit herewith a tabular statement detailing the expenditures required in this Bureau and authorized by existing law, for the fiscal year ending June 30, 1890.

It is desirable that Congress should authorize the following: That the head of the Bureau be authorized, at his discretion, to promote five clerks from \$900 to \$1,000. This becomes necessary under the Civil Service rules to enable the Bureau to secure a supply of book-keeping talent. It is very difficult to obtain well qualified book-keepers. The book-keeping in this Bureau is somewhat different from general book-keeping, and aspirants for employment, such as is here afforded, are

willing to enter at \$900 with the hope of promotion, and the object of making this authorization is to give some promotion to those who give promise. This would increase the total expenditure \$500.

It has been attempted to avail of the use of rooms in Winder's building for the storage of old files, to relieve the pressure on our files rooms, and to arrange for safe-keeping and accurate, definite reference those files which will be left. This addition to the current business demands additional help. The Bureau has been borrowing assistance from other Bureaus and from the chief clerk, and there are now boxes of files lying in the basement, which have been there six or eight weeks, for the lack of laborers. It is therefore urgently recommended that provision be made for two additional laborers.

This Bureau is the account-keeper and the chief custodian of final files concerning public expenditures. Twelve rooms only are assigned to this Bureau for that purpose. They are wholly inadequate. The present stowage of files exposes them to the ravages of dust, vermin, the casualties of fire, and the effects of moisture. Appropriation ought to be made for metal casings and filing, for the prompt or gradual security of these files. At least \$6,000 should be appropriated for that purpose during the coming year.

Attention is again respectfully called to the fact that while the Register is one of the chief officers of the Treasury, and his responsibilities as the final account-keeper of the Government great, it seems unreasonable and unjust to the service that appropriation for his salary should be \$500 less than the law prescribes; nor, comparing the responsibilities and duties of the Assistant Register with those of employes in the Secretary's office, does it seem fair and right that he should be paid only \$2,250, when several of them receive as high as \$2,500 or \$3,000 per annum.

Very respectfully, your obedient servant,

W. S. ROSECRANS,
Register.

Hon. SECRETARY OF THE TREASURY.

APPENDIX E.

In relation to the estimates for "Salaries, &c., Bureau of Statistics, Treasury Department." (See page 28.)

TREASURY DEPARTMENT, BUREAU OF STATISTICS,
Washington, D. C., October 11, 1888.

SIR: In obedience to your circular letter of September 1, 1888, I have the honor to transmit estimates of appropriations for this bureau for the fiscal year ending June 30, 1890, with the following explanatory notes:

1. As I did in my last annual estimates, I submit an increase of six hundred dollars (\$600) to the annual salary of the officer in charge of the Bureau, and also an increase of two hundred and fifty dollars (\$250) to the annual salary of the Chief Clerk, for the reason, among others, that the present salary of these two officers is below the sum appropriated by Congress for others of similar grade in the Treasury Department.

This fact will be made apparent by an examination of the table herewith submitted of the salaries, &c., of similar officers of that Department.

The First and Second Comptrollers of the Treasury are paid five thousand dollars (\$5,000) each; the Chief of the Bureau of Engraving and Printing, four thousand five hundred dollars (\$4,500); the Commissioner of Customs and the Register of the Treasury, each, four thousand dollars (\$4,000); the First, Second, Third, Fourth, Fifth, and Sixth Auditors, each, three thousand six hundred dollars (\$3,600); and the Commissioner of Navigation the same sum.

No good reason occurs to me, either in respect to the value of his services to the country, or the labor and qualifications essential to the discharge of his duties, why the Chief of the Bureau of Statistics should be paid a less sum than either of those mentioned. Hence I recommend an increase of at least six hundred dollars (\$600) to his annual salary.

Nor, in my opinion, can any good reason be assigned why the Chief Clerk of this Bureau should be paid a less sum than is paid to the Deputy Commissioner of Customs, or to the deputy of either of the six auditors, or Assistant Register, or Assistant Chief of the Bureau of Engraving and Printing. On the contrary, I am convinced by my experience in the office, and by knowledge of the responsibilities and arduous work of the Chief Clerk that his annual salary should be at least two thousand two hundred and fifty dollars (\$2,250).

2. I also submit an estimate that two thousand dollars (\$2,000) each, instead of eighteen hundred dollars (\$1,800), ought to be allowed three chiefs of divisions of class 5, believing that the chiefs of the divisions of the Bureau of Statistics should in justice be paid as large a sum as the chiefs of divisions in the Comptroller's office, or the deputies of either of the six auditors of the Treasury, the chiefs in the Register's office, or in the Bureau of Engraving and Printing.

I beg respectfully to submit that the discriminations enumerated against the Bureau of Statistics can not be justified, and therefore, ought to be discontinued by Congress.

3. I also submit an increase of two additional clerks of class 4, and two additional clerks of class 3, for the reason that the work of this bureau, which is being rapidly enlarged by demands upon it for statistical information, and which since my incumbency of the office has increased at least 25 per cent., is in many respects so scientific, technical, and professional that many of its more important clerical duties cannot be successfully and rapidly discharged unless it is equipped by a larger number of higher-class clerks than now authorized by law.

4. There is no reason which occurs to me why the assistant messenger should be paid only \$720 per annum, while the messenger himself receives a salary \$840. There is no such distinction in the responsibilities and labors of these messengers, and therefore I submit an increase of \$80 per annum to the salary of the assistant messenger.

5. I also submit an increase of \$40 to the salary of the laborer, who, in addition to discharging the ordinary duties of laborer, also acts as fireman and engineer, thus saving the government the expense of an engineer and fireman.

6. In view of the growing importance and rapid development of our internal trade and commerce, I also ask an appropriation of \$15,000 for necessary expenditures connected with the collection of facts relative to the internal commerce of the United States. This sum I know is larger than has been set apart during the last few years for the same object, but at the same time it is smaller than that made in former years. But its being larger than recent appropriations is practically of little importance, since not a dollar of it can be expended, even if it were fifty thousand instead of fifteen, without the knowledge and approval of the Secretary of the Treasury.

Respectfully yours,

WM. F. SWITZLER,
Chief of Bureau.

Hon. C. S. FAIRCHILD,
Secretary of the Treasury, Washington, D. C.

APPENDIX F.

Statement of buildings rented in Washington by the Executive Departments, as required by the act of March 3, 1883, 22 Stat., p. 552.

Buildings rented by the Treasury Department for the fiscal year 1889. (Estimate for 1890 on page 30.)

Location of building.	For what purpose used.	Annual rental.
No. 407 Fifteenth street.....	Bureau of Statistics.....	\$3,000 00
No. 1308 F street.....	Marine-Hospital Bureau.....	1,800 00
Total		4,800 00

Statement of buildings rented for use of the War Department in the city of Washington during the fiscal year ended June 30, 1888. (Estimate for 1890 on page 48.)

Location of building.	For what purpose used.	Rental.	Remarks.
Corner Fifteenth street and Pennsylvania avenue.....	Office of Quartermaster-General.....	\$6,000 00	At rate of \$9,000 from July 1, 1887, to February 29, 1888.

APPENDIX G.

In relation to the estimates for "Salaries, office of the Assistant Treasurer at Philadelphia." (See page 32.)

OFFICE OF ASSISTANT TREASURER U. S.,
Philadelphia, Pa., September 29, 1888.

SIR: In submitting my estimate of the appropriation necessary for the proper conduct of this office during the fiscal year ending June 30, 1890, I beg to call your attention to the changes suggested in the appropriation as made for the current year.

The Revised Statutes referred to therein make the annual salary of the assistant treasurer U. S. at Philadelphia \$5,000 and that of the cashier and chief clerk \$2,700, and provide for an additional clerk to be called "assistant fractional

teller," at a salary of \$1,400. Since 1877 the annual appropriations for this office have reduced the salaries of the assistant treasurer and the cashier to \$4,500 and \$2,500, respectively, and have omitted the "assistant fractional teller" and his salary entirely.

The increase in the business of this office, the improvement in its conduct, and the present completeness and accuracy of all its details (as officially reported to you by your examiners), demand more labor, time, and attention with each succeeding year, and thoroughly warrant the reorganization proposed by the late Treasurer U. S., Conrad N. Jordan, and urged by my predecessor and myself; but I have not thought it worth while at this time to again bring that scheme and its merits to your consideration.

It has been necessary to assign one of the watchmen to clerical work of quite a high order, and I have asked that the additional clerk might be retained under the new name of "assistant redemption teller," at a salary of \$1,300, in order that the gentleman so assigned may be fitly compensated.

I have submitted also an increase in the salary of the chief interest clerk to \$2,200, as the responsibilities of his position have been considerably enlarged.

Respectfully yours,

S. DAVIS PAGE,
Assistant Treasurer U. S.

Hon. C. S. FAIRCHILD,
Secretary of the Treasury, Washington, D. C.

APPENDIX H.

In relation to the estimates for "Mints and assay offices." (See pages 33–36.)

TREASURY DEPARTMENT, BUREAU OF THE MINT,
Washington, D. C., October 12, 1888.

SIR: I have the honor to submit herewith estimates of appropriations for the Mint service for the fiscal year 1890, and to offer the following explanations:

On entering upon the duties of this office in 1885, the appropriations had already been made for the fiscal year 1886. Compared with the appropriations for that year, the appropriations have been \$31,525.87 less in 1887; \$86,100 less in 1888, and \$79,650 less 1889. The present estimates amount to a sum \$76,110 less than the appropriations for the same year (1886).

1. *Bureau of the Mint.*—An increase is submitted for books, pamphlets, periodicals, specimens of coins and medals, balances, weights, incidentals, &c., in order to restore in part this useful appropriation to the amount from which it was reduced from the estimate in 1887, since when it has been inadequate to the requirements of the Department.

2. *Mint at Philadelphia.*—The only increase at this mint estimated for is to the amount of \$250 in the salary of the book-keeper, which I beg to commend as in my opinion for the good of the Mint service.

3. *Mint at Carson.*—Although its operations have been confined during the last two years to those of an assay office, an estimate is submitted for the operation of this mint for coinage, in consideration of the fact that Congress has refused to appropriate for this institution except for the full requirements of a coinage mint.

4. *Assay Office at St. Louis.*—For a similar reason an estimate is submitted for this institution, my recommendation of the previous year to discontinue the operation of this office, on grounds of futility and insignificance of its functions, not having been regarded by Congress. An increase is submitted of \$480 in order to cover the item of rent, rendered necessary by the temporary occupation by this institution of private quarters during the repair of the Government building.

5. *Assay Office at Helena.*—The estimates for this institution are submitted with a reduction of \$1,000 in contingent expenses and an addition of \$250 to the salary of the assayer-in-charge, a corresponding reduction having been made, as it is supposed inadvertently, in the appropriations of 1887.

6. *Assay Office at Charlotte, N. C.*—An addition of \$360 is submitted in the estimate for this institution to cover the pay of janitor, hitherto irregularly included in appropriations for assistant custodians and janitors.

7. *Assay Office at Boise City.*—To meet the requirements of this growing institution an increase is submitted of \$2,500 for wages and contingent expenses; also \$250 to the salary of the assayer in charge, and of \$200 to the salary of \$1,200 of the clerk and book-keeper, in order to compensate these officers more in measure with the value of their services and the rates prevailing at other institutions.

Respectfully yours,

JAS. P. KIMBALL,
Director of the Mint.

Hon. CHARLES S. FAIRCHILD,
Secretary of the Treasury.

APPENDIX I.

In relation to the estimates for Territory of Wyoming. (See page 40.)

TERRITORY OF WYOMING, OFFICE OF THE SECRETARY,
Cheyenne, Wyo., September 24, 1888.

SIR: I have the honor to herewith transmit my estimate of the amount required for "Legislative expenses, Wyoming Territory," for the fiscal year ending June 30, 1890.

In relation to the estimate of \$3,500 for the governor, and \$2,500 for the secretary, I will state that these are the amounts of salaries designated by law. (See section 1845 of the Revised Statutes.)

The increase of \$1,000 in my estimate on mileage from the estimate heretofore submitted, is for the reason that the members are elected from a greater distance from the capital as the population increases. The mileage for the last three sessions was as follows: 1884, \$1,651.35; 1886, \$1,782.90; 1888, \$2,213.85. On account of new apportionment of the members of the legislature, I am satisfied that it will require from \$2,500 to \$3,000 to pay the mileage of the members of the next legislature.

The estimate of \$3,500 for new furniture, carpets, &c., for the legislature in the new Capitol building, is based on the fact that the furniture now in use has been used through four sessions of the legislature, and has suffered much from storage, as it had to be stored in a cellar. Rather than spend any more money repairing this furniture I believe it would be economy

to buy new furniture and good carpets for the legislative halls, as hereafter the property can remain in the halls between sessions, and not suffer by storage; and when the halls are once fitted up in suitable condition, the expense of fitting up the halls for succeeding legislatures will be nominal.

Very respectfully,

Hon. SECRETARY OF THE TREASURY.

J. D. SHANNON,
Secretary, Wyoming Territory.

APPENDIX J.

Letter of Governor of Alaska in relation to the construction and repair of public buildings in Alaska. (Estimate on page 153.)

DISTRICT OF ALASKA, EXECUTIVE OFFICE,
Sitka, Alaska, October 6, 1888.

SIR: In submitting estimates of appropriations for the fiscal year ending June 30, 1890, I desire to say that I have been somewhat hampered by reason of the fact that I have no knowledge whatever as to the appropriations which may have been made for the present fiscal year. I have thought best, in the absence of such information, to include in my estimates the amounts submitted last year for the "construction and repair of public buildings," with the respectful suggestion that if such appropriations have already been made, the items resubmitted be not included in the Book of Estimates. In the absence of any knowledge as to appropriations made for fiscal year ending June 30, 1889, I have, under last heading of blank, given amounts appropriated for 1888.

As to the necessity for these appropriations, I respectfully refer to my letter of October 3, 1887, which I presume was printed in the Appendix to the last Book of Estimates.

In relation to the repairs on public buildings, I can only repeat that the sums estimated are an urgent necessity, if it be the desire of the Government to preserve the buildings in question from irretrievable decay and ruin. With the estimated amounts they can, I think, be put in a condition to answer all the requirements of the territorial government for many years to come. Unless repaired without further delay the question of their abandonment, and the erection of new buildings at a much greater cost, is one that will very shortly force itself upon the attention of the Departments and of Congress.

Very respectfully,

Hon. C. S. FAIRCHILD,
Secretary of the Treasury, Washington, D. C.

A. P. SWINEFORD,
Governor of Alaska.

ESTIMATE OF THE GOVERNOR OF ALASKA FOR CONSTRUCTION AND REPAIR OF PUBLIC BUILDINGS IN ALASKA.

Construction of court-house, jail, and custom-office at Juneau (in addition to amount now available).....	\$7,000 00
Repairs to custom-house.....	1,200 00
Repairs to court-house and penitentiary at Sitka (building known as "The Barracks").....	1,200 00
Repairs to custom-house, Wrangel.....	500 00
Repairs to "Castle" (formerly Governor's residence), Sitka.....	1,600 00
Repairs to Government wharf and warehouse, Sitka.....	3,000 00
	<u>14,500 00</u>

APPENDIX K.

Statement showing the number of persons employed in the office of the Chief of Engineers and paid from the various appropriations for rivers and harbors, fortifications, and surveys for military defenses, and the amount paid to each during the fiscal year ended June 30, 1888, prepared in accordance with the requirements of the act of March 3, 1887, 24 Stats., page 617. OFFICE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., September 25, 1888.

THOS. LINCOLN CASEY,
Brigadier-General, Chief of Engineers

APPENDIX L.

Explanation of estimates for Public Buildings and Grounds for year ending June 30, 1890. (Estimates on pages 48 and 171-172.)

In submitting these estimates, some of which are larger than heretofore appropriated, and some for new work, the following explanation is presented by the officer in charge:

1. One public gardener, \$2,000. I have asked for an increase in the salary of the public gardener, a position now so satisfactory filled by Mr. George H. Brown. The duties of the office require that the gentleman who fills it shall be thoroughly skilled in the culture of trees, shrubs, and plants, and shall have a practical knowledge of civil engineering as applied to landscape gardening. Mr. Brown combines these attributes, to which he adds taste, industry, and integrity. His duties take him from one end of the city to the other. He is directly responsible for the care of the valuable collection of plants in the propagating garden, and superintends the propagation of plants that are annually raised for the public grounds, which this year numbered about 350,000.

2. One clerk in charge of old public records of Washington city, \$1,500. These records include maps, deeds, record-books, letters, &c., from the organization of the original Board of Commissioners, near the close of the last century, up to 1867, when the duties were turned over to the Chief of Engineers. They are constantly examined by attorneys and others interested in lands in Washington, and the person in charge of them is frequently required to produce them in courts. To index them properly, to be able to turn at once to the details of any question raised, requires familiarity with every paper. This work has for the last few years been intrusted to the only draughtsman allowed this office, and during the past six months more than half of his time has been actually employed on this duty. I earnestly recommend that this appropriation be made, in order that the draughtsman may be permitted to attend to the necessary and legitimate duties of his office.

3. For one telegraph line-man, \$1,000. Under the head of "Telegraph connecting the Capitol with Departments," will be found a full description of the telegraph system under charge of this office. It includes about eight miles of overhead wire and two and six-tenths miles of underground cable. There are seventeen offices connected with these lines, the main battery being at this office. The line-man is constantly engaged in the care of the main and local batteries and such necessary repairs and extensions as a system of wires of this kind requires. He is industrious, efficient, and capable, and has won the confidence of all with whom he has come in contact by faithful attention to his duties.

4. For overseers, foremen, draughtsmen, gardeners, mechanics, and laborers, \$30,000. I have submitted the same estimate as presented last year. The grounds under charge of this office cover an area of 413½ acres, divided into 331 reservations, scattered over various sections of the city. Of these reservations, 57 are highly improved, 47 partially improved, and 227, covering an area of about 71½ acres, remain entirely unimproved. Each year we improve from three to five of those heretofore untouched, thus adding to the beauty of the city, and the welfare of the neighborhood in which the reservations are situated. These new improvements are distributed throughout different sections of the city, and are only made where private enterprise has improved property in the vicinity. Each improved reservation adds that much to the expense of the care of the public grounds, the mowing of grass, care and construction of paths, care of trees and shrubs, &c. It is earnestly recommended that this appropriation may be made in order that the beauty of these numerous parks, so ornamental to the nation's capital, may be maintained.

5. One day-watchman at Lafayette square, \$720; one day-watchman at Franklin square, \$720. These men are earnest, faithful, and efficient; they have charge of the two handsomest parks in the city; they are busy every day of the year, and during the season of active operations are on duty from 8 a. m. to 8 p. m.

6. One day-watchman for Marion square, Folger square, and adjacent reservations, \$660. These two reservations are highly improved, the one containing an area of about one acre, the other about two acres. In addition to these there are several smaller improved reservations in the vicinity. A watchman is very necessary in this locality, the nearest one being at Lincoln square, a distance of half a mile, where his entire time is required.

7. For improvement of grounds north of the Executive Mansion, \$2,500. It is proposed to remove the old broken asphalt walks, now in very bad condition, and to replace them with new materials, and to resurface the old roadway leading from the main road to the greenhouses. The work will consist of constructing about 900 square yards of paths, and resurfacing about 1,000 square yards of roadway.

8. For improvement, care, and maintenance of ground south of Executive Mansion, \$4,000. These funds will be devoted to completing necessary drainage due to raising Potomac flats, to continuing the improvement of the northwest section of the reservation covering an area of about two acres, recently occupied as a storage ground in connection with the construction of the War, State, and Navy building, to resurfacing roads and paths and constructing additional walks, and to care of lawns, planting trees and shrubs, &c.

9. For care and improvement of monument grounds, \$5,000. In view of the work of filling around the monument and of the raising of the Potomac flats, it will be necessary to continue improvements in the drainage system, the roads, paths, lawns, &c., in this reservation; the amount requested will be applied to these purposes.

10. For laying asphalt walks in various reservations, \$5,000. It is proposed to replace with first-class asphalt walks the gravel paths in Washington circle, Mount Vernon square, Executive Mansion grounds (south side), Lincoln square, Stanton square, Folger square, Marion square, Henry and Seaton parks, and to renew those in Farragut square, and Iowa circle. In the late fall, winter, and early spring these walks are muddy, and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay this year is about 3,500 square yards. Each autumn it becomes necessary to put down plank walks, which must again be removed in the spring. If asphalt walks are laid the annual expense incident to plank walks will be avoided.

11. For improvement, care, and maintenance of various reservations, \$20,000. The funds required under this head are for the purchase of materials for, and the care of, the improved parks, and for the improvement of as many as possible of the 227 unimproved reservations. Each year from three to five are added to the list of improved reservations, and if the funds now requested become available eight or ten can be added during the fiscal year ending June 30, 1890. As reservations are thus improved the expense of the care of the whole is slightly increased, for the improvements must be maintained.

12. For the improvement, care, and maintenance of Smithsonian grounds, including the construction of asphalt roads and paths, \$8,000. This reservation, covering an area of over 58 acres, is the largest and one of the handsomest in the city, and has within its limits the Smithsonian building, the National Museum, and the new Army Medical Museum. The roads and paths, with one or two exceptions, are of gravel and become dusty in summer and muddy in winter; a first-class asphalt road pavement is now in course of construction in front of the Smithsonian building, running from Seventh to Twelfth street, a distance of about 1,700 feet and covering an area of about 7,500 square yards; 5,400 square yards has been laid, and it is

hoped that a sufficient appropriation will be made to complete the whole road during the season of 1889. With the appropriation now requested it is proposed to lay about 1,500 square yards of roadway pavement, about 1,000 square yards of asphalt paths leading through the park to the Museum, and to maintain in good condition the gravel roads and paths, gutters, lawns, trees, shrubs, and drainage of this handsome park.

13. For improvement, care, and maintenance of Henry (armory) and Seaton parks, \$2,500. These reservations, extending from Seventh street to the Botanical Gardens, cover an area of 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty has been marred by the depot and tracks of the Baltimore and Potomac railroad. A mound has been constructed around the depot, upon which it is intended to plant trees and shrubs, so that in time the depot will be hidden partially from view. The materials for this mound have thus far been obtained free of expense to the United States, and it is now proposed to grade the mound and seed and plant it. The funds requested are needed for this purpose, and for the care of roads, lawns, gutters, &c., and laying out additional paths.

14. For improvement, care, and maintenance of Judiciary Square, including grounds around the new pension building, \$7,000. This square contains an area of 20 acres, and includes within its limits the court-house and the new pension building. It is crowded daily with persons having business in these buildings. The appropriation now requested will be used, if granted, for completing the improvements around the pension building, including asphalt-roads and paths leading thereto, and in the general care of this large reservation.

15. For lodges for park watchmen in Stanton, Mount Vernon, Iowa, DuPont, Thomas, McPherson, and Folger reservations, at \$500 each, \$3,500. The watchmen in these reservations are exposed to the inclemency of the weather at all seasons of the year. Rain or shine, hot or cold, night or day, year in and out, they must be at their stations, and take shelter, when necessary, either under a tree or in such dwelling or store as will offer its hospitality. The dictates of humanity call for this appropriation.

16. For supplying and keeping supplied the vases in the new pension building with suitable plants and shrubs, \$1,000. The joint resolution of Congress approved March 29, 1886, requires that the 76 large vases on the upper corridor of the new pension building shall be filled and kept filled with suitable plants and shrubs. This estimate is submitted in order that I may be able to comply with the terms of the law.

17. For care, repair, and refurnishing the Executive Mansion, \$16,000. This old building needs continual repairs and repainting to maintain it in a neat and habitable condition. Much of the furniture is old and needs renewing, while new carpets are required in many of the rooms. During the past eleven years the appropriations for this purpose have been as follows: 1878, \$20,000; 1879, \$25,000; 1880, \$25,000; 1881, \$20,000; 1882, \$50,000; 1883, \$40,000; 1884, \$28,000; 1885, \$22,500; 1886, \$16,000, including \$4,000 for new roof; 1887, \$16,000; 1888, \$16,000, and 1889, \$16,000. It will be observed that since July 1, 1885, the appropriations have been much less than previous to that time. It is earnestly recommended that this appropriation be made, as it is absolutely necessary in order to maintain in a neat and habitable condition the mansion provided for the office and residence of the Chief Executive of the nation.

18. For care and necessary repair of greenhouses, \$5,000. The sum appropriated for this purpose during the past five years has been annually only \$4,000, while in previous years it was \$5,500. The greenhouses were constructed previous to 1885, under appropriations made by Congress, and need continual repair; they require the constant supervision of three experienced gardeners, while the assistance of laborers from time to time is necessary. At this time the wood-work of the superstructure of the main conservatory is in very bad condition and requires immediate and extensive repairs.

19. For erecting seven lamp-posts in the ellipse south of the Executive Mansion, from the top of which shall be shown electric lights, \$1,000. For electric lights for 365 nights from 7 lamps, at 70 cents per night each, \$1,785.50. The grounds south of the Executive Mansion, now highly improved, are without lights. It is believed that the electric lights mentioned above will shed a soft mellow light over the entire reservation.

20. For replacing the overhead wires between the Capitol and the Departments with a duplicate underground six-wire cable, \$8,500. This subject has been discussed in the preceding pages of this report. The growth of the trees on the sidewalks renders it absolutely necessary, in order to maintain telegraphic communication over these wires, either to erect at once taller poles at a cost of about \$1,600, or to lay an underground cable at a cost of \$8,500. The former plan is but a temporary expedient, as in time the overhead wire system through cities must be abolished. The underground cable is far preferable, and favorable action upon this estimate is earnestly recommended.

APPENDIX M.

In relation to the estimate for "Salaries of employés, Court-House, Washington, D. C." (See page 74.)

WASHINGTON, September 24, 1888.

SIR: In the legislative, executive, and judicial appropriation act, Forty-ninth Congress, second session, chapter 392, page 631, an appropriation was made for the force necessary for the care and protection of the court-house in the District of Columbia.

I have the honor to ask that the Attorney-General will recommend to Congress the addition of one watchman, at a salary of \$720 per annum, and one laborer at \$480 per annum, to said force, making the total appropriation for said purpose \$12,960 instead of \$11,760, as heretofore.

In asking for an additional watchman and laborer, I desire to state that the number of employés as at present constituted is the same as was authorized more than four years ago, since which time the business in and about the court-house has very materially increased; a whole wing of the building has been occupied by the Civil Service Commission, the business of which has so developed and increased until nearly as many people visit their rooms for examination and information as the number that attend on the various courts.

The business of the courts, of the U. S. attorney's and clerk's offices, and of the register of wills, recorder of deeds, the surveyor and auditor, all of whom have offices in this building, has so expanded that every available space is occupied, and the precaution to be taken for the proper care and protection of the building has been nearly doubled. Juries are out late, and frequently all night, necessitating the using of closets, cuspidors, etc., after the usual hours for transaction of business in other departments, and proportionately increasing the duties of the laboring force of the building.

The present force of three watchmen and four laborers, as can readily be seen, is inadequate for the increased work occasioned as above stated.

Trusting that the reasons I have assigned may be sufficient to induce the Attorney-General to make the recommendation suggested,

I am, very respectfully,

ALBERT A. WILSON,
Marshal.

Hon. A. H. GARLAND,
Attorney-General U. S.

APPENDIX N.

Memorandum explanatory of requests for increased appropriations for Consular Service, pages 84 to 94.

DEPARTMENT OF STATE, Washington, October 6, 1888.

SECTION I.

Page 84. *Kanagawa*—Consul-general: Appropriated, \$4,000; additional submitted, \$1,000.

The reasons for asking this increase are, the great importance of the place, the consul-general being a judicial officer, having the most extended powers known to the law; the cost of transportation, which, for an ordinary family, out and back, will be at least \$2,500; and finally, that it should equal Shanghai and Calcutta.

Page 84. *Panama*—Consul-general: Appropriated, \$4,000; additional submitted, \$1,000.

Increase asked for in view of the vital importance of the location, particularly at the present time, when the entire world is giving so much attention to the subject of isthmian transit, a question about which the United States, more than any other nation, should at all times be fully informed, which can only be accomplished by having the office filled by a man of unusual ability and judgment. Secondly, the dangers to and discomforts of life are exceptionally great upon the Isthmus of Panama. The commercial interests (shipping) of the United States to be protected at Panama are very large.

Page 84. *Halifax*—Consul-general: Appropriated, \$3,500; additional submitted, \$500.

This increase has been repeatedly asked for upon the ground of justice as compared with the salary at Montreal. It is now requested on that ground and because of its very great importance, as has been shown during the past year in the fisheries difficulties.

Page 84. *St. Petersburg*—Consul-general: Appropriated, \$3,000; additional submitted, \$1,000.

This increase is requested in view of the remoteness of the location and the great and unusual cost of living in the capital city of Russia.

Page 84. *Vienna*—Consul-general: Appropriated, \$3,000; additional submitted, \$1,000.

Vienna, the capital of Austria, and the chief trade centre of that nation, is a place of great commercial value to the United States, and is and should always be filled with an officer of a high order of ability, and the pay of the office should equal that of offices of like grade in other capital cities of the world. Living in Vienna is far more expensive than in Washington.

Page 84. *Ecuador*—Consul-general: Appropriated, \$3,000; additional submitted, \$1,000.

The consular officer in Ecuador is the sole representative of the United States in that Republic. Although not rated as a diplomatic officer, he acts as such in all cases where the United States has occasion to communicate with the Ecuadorian Government. The trade is very considerable and rapidly increasing. The discomforts of life in Ecuador are very great, and the cost of transportation to and from the official residence in Ecuador and the home of the consul-general in the United States is quite out of reason, considering the distance to be traveled.

Page 84. *Mexico City*—Consul-general: Appropriated, \$2,500; additional submitted, \$1,500.

Owing to the rapid increase of United States capital in Mexico, and the expense of living in the chief city of the Republic, the salary should be increased to the amount asked for, as has been previously requested.

Page 84. *Nuevo Laredo*—Consul-general: Appropriated, \$1,000; additional submitted, \$3,000.

It is proposed to reduce the office at Matamoras from a consulate-general to a consulate, and raise this office to a consulate-general and to give to it supervisory powers over the United States consular officers on the entire Rio Grande frontier and throughout the northern part of Mexico. Owing to the rapid extension of railroads from the United States into Mexico, the importance of the consulate at Nuevo Laredo has increased several hundred per cent. within the last three years, and is still becoming more and important. The increased salary is due to the office, and will greatly tend to improve the service.

Page 84. *Apia*—Consulate-general: Appropriated, \$2,000; additional submitted, \$1,000.

Apia is the principal island of the Samoan or Friendly and Navigator's Islands. It has a large and profitable trade with San Francisco, which is increasing. The consul is vested with judicial functions. The place is of much political importance to the United States, and should be filled with a man of marked ability, to obtain which the present salary is entirely inadequate.

Page 84. *Amoy*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Page 84. *Canton*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Page 84. *Chin-Kiang*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Page 84. *Foo-Chow*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Page 84. *Hankow*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Page 84. *Tien-Tsin*—Consul: Appropriated, \$3,500; additional submitted, \$500.

These items refer to the chief consulates in China, which are located in those cities where the United States has its largest commercial interests in the east. Each of the officers in charge of the above-named consulates are vested with judicial functions of the highest character, the proper discharge of which requires men of special ability and fitness. The cost of transportation to and from the several places to the homes of the consuls in the United States is very great and attended with danger and privation; the consul is so far removed from his home that he soon loses his political and business relations, and when he returns to the United States he is compelled to begin life anew, in view of all which his compensation should be increased as recommended.

Page 84. *Antwerp*—Consul: Appropriated, \$3,000; additional submitted, \$1,000.

The port of Antwerp in its trade relations with the United States is second only to Liverpool in the whole of Europe, if not the world. It is one of the termini of several direct lines of steamships to New York and other United States ports, and is the center of an immense trade with our country. It is visited by citizens of the United States, bent on business or pleasure, in very great numbers. The duties of the consul are trying, delicate, and very important, and the salary should be in some degree in keeping with the magnitude of his duties.

Page 86. *Brussels*—Appropriated, \$2,500; additional submitted, \$1,000.

This submission is presented because the compensation is now not liberal, and will be very materially reduced if Charleroi be made an independent office, which these estimates contemplate.

Page 84. *Bradford*—Consul: Appropriated, \$3,000; additional submitted, \$1,000.

The reasons for asking for an increase under items 14 and 15 are identical, and are that these two places are the largest trade centres of the United Kingdom, exclusive of London and Liverpool. The labors and responsibilities of these officers are very great.

Page 84. *Manchester*—Consul: Appropriated, \$3,000; additional submitted, \$1,000.

Page 84. *Buenos Ayres*—Consul: Appropriated, \$2,500; additional submitted, \$1,000.

This is one of the most important trade centres in all of South America. Its trade with the United States is large and shows a steady and rapid increase. The present salary does not support the consul, owing to the very large demands made upon him by American traders and visitors.

Page 85. *Ning-po*—Consul: Appropriated, \$3,000; additional submitted, \$500.

This place, although not quite as important as some of the other China ports, is, like all others in the Empire, very expensive to reach and to return from, and should have all of the salary asked for.

Page 85. *Havre*—Consul: Appropriated, \$3,000; additional submitted, \$500.

This is the great commercial port of France, and is visited by double the number of American vessels that enter any other port in the Republic. The duties of the consul are onerous and difficult, particularly in the care and disposition of the large number of seamen which annually come upon him.

Page 85. *Tangier*—Consul-general: Appropriated, \$2,000; additional submitted, \$1,000.

This is the chief and only full consular office of the United States in the Barbary States. We have of late begun to have large trading interests in Morocco, and have thus far only been represented by a consul, while most of the larger powers sustain full legations at Tangier. In a country where rank and title count for everything, as it does in Morocco, it is of the greatest importance that the United States should have at least a consul-general, and that he should have fair compensation, if we are to continue to be represented in Tangier at all.

Page 85. *Pernambuco*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

This is a large and important seaport of Brazil, and has a very extensive direct trade with the United States. It is visited by a large number of American vessels annually. Like nearly all South American ports, it is expensive and unhealthy.

Page 85. *Barranquilla*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

This is less than the fees collected last year, and much less than will be collected in times of peace. The commercial interests of the United States require the presence of a salaried consul at this port at all times. The position is of very great political importance to the United States when war prevails in Colombia.

Page 88. *Manila*—Consul: Appropriated, \$2,000; additional submitted, \$1,500.

This office is regarded by the Department as being of as much importance as any consulate in China, while the cost of living and the discomforts of the place are second to no place in the world where we have consular representation. The increase asked for is most earnestly recommended.

Page 85. *Chemulpho*—Consulate: Submitted, \$3,000.

This is a new office, and is to be the principal consular office of the United States in Corea. As to the necessity for and needs of such an office, attention is called to the following, quoted from a recent dispatch from the minister resident and consul-general of the United States at Seoul:

"I beg to submit to the attention of the Department of State the fact that as yet no provision has apparently been made by the Government of the United States for the legal investiture of the minister and consuls of this country with the powers of jurisdiction provided for by statutory law in the cases of similar countries, as China, Japan, &c.

"Already a number of cases requiring the exercise of such powers have been presented at this legation and consulate-general, and in each case, in the absence of the full and clear paraphernalia of the jurisdiction required, the treatment was attended with much doubt and embarrassment. There are already indications that the understanding is going abroad that

while Corea is open to their visits through treaties, criminals and other dangerous persons may find there greater freedom of action and security against the law. Full provision for dealing with such characters should be made, and as well for the exigencies of jurisdiction arising in the growing ordinary civil life of the foreign residents.

"I would earnestly recommend that this subject receive the prompt and energetic action of the Department to the effect that the provisions of articles 4083-4130, Revised Statutes, and all other applicable laws of the United States, may be extended to include Corea.

"In this connection, I would again refer to the urgent need of a consular office at Chemulpho. Seoul is an inland city, some 28 miles from Chemulpho, from which transportation and communication are difficult. The service of a jail at this legation could only be obtained at much expense, as well as with other disadvantages. Our first consular jail should unquestionably be at Chemulpho. There, also, as it is the first and most rapidly growing commercial port (city of Corea), are the services of a consul in matters of jurisdiction and commerce most imperatively required."

Page 85. *Lyons*—Consulate; Appropriated, \$2,500; additional submitted, \$500.

This is one of the most important of the European consulates. Value of annual exports to the United States, about \$50,000,000; amount of annual official fees, \$13,803.50. The fees collected and the value of the goods exported are about five times greater than any other consulate in France save Bordeaux, and are about double those of Bordeaux. The increase asked for is not equal to the importance of the place.

Page 85. *Bremen*—Consul: Appropriated, \$2,500; additional submitted, \$500.

This is one of the great seaports of Germany, and is the foreign terminus of numerous steamship lines plying between United States and German ports. The export and import trade with the United States is very large. Under the act of July 11, 1888, the agency at Geestemunde is estimated for as a consulate, and should this be enacted into law there would be a reduction in the compensation of the consul at Bremen of \$800 per annum, and for this reason the increase is asked. (See also explanation as to item).

Page 85. *Chemnitz*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

The agency at Glachau has, under the act of July 11, 1888, been estimated for as an independent office, which, if established, will reduce the compensation of the consul at Chemnitz \$1,000 per annum. The fees collected at Chemnitz for official services amount to nearly \$19,000 per annum, which sum is only exceeded by two consulates in the entire service—Liverpool, with a salary of \$6,000, and Bradford, with a salary of \$3,000, to which an additional \$500 has been estimated for.

Page 85. *Nuremberg*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

This place has a large direct trade with the United States. The official fees collected are nearly \$5,000 per annum. The raising of the agency at Fürth to a consulate, under act of July 1, 1886, cuts off \$1,000 per annum from the compensation of the consul at Nuremberg; hence the request for \$1,000 additional.

Page 85. *Birmingham*—Consul: Appropriated, \$2,500; additional submitted, \$500.

This is one of the largest manufacturing towns in the world, and has a very large direct trade with the United States. The duties of the consul are very important. At present the consul at Birmingham has an agency at Kidderminster, from which he derives \$800 per annum, but under the law of July 11, 1888, that office has been included in the estimates, and will become independent, and thus reduce the compensation of the consul \$800. To, in part, make good that reduction, this additional sum is asked.

Page 85. *Cape Town*—Consulate: Appropriated, \$1,500; additional submitted, \$1,500.

This is the great seaport of South Africa, and is of much importance, in a commercial way, to the United States. The trade with this country is mostly direct, and is rapidly increasing. The port is visited by all United States naval vessels on that station for the purpose of obtaining supplies and refitting. It is also visited by more of our merchant marine than are to be found in all of the other ports of that part of the world combined. The cost of going to and returning from Cape Town is excessive, and the discomforts of life are great in that locality.

Page 85. *Leeds*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

This place is the centre of a very extensive industrial district, and has a very large trade with the United States. The official fees collected amount to about \$4,000 per annum. Under the act of July 11, 1888, the agency at Huddersfield is to be raised to a consulate, thereby reducing the compensation of the consul at Leeds \$1,000 per annum. The increase in salary asked for is to, in part, make good that loss, and will not take any money out of the Treasury, for the reason that, under the existing law, the agent at Huddersfield is allowed to retain \$1,000 as compensation while the consul at Leeds retains a like sum from the Huddersfield fees as payment for his supervision of the agency. In these estimates Huddersfield is provided with a salary of \$2,000.

Page 85. *Nottingham*—Consul: Appropriated, \$2,500; additional submitted, \$500.

The case of Nottingham is identical in every respect with that of Birmingham, and is made so by the proposed raising of the agency at Leicester to an independent office.

Page 85. *Sheffield*—Consulate: Appropriated, \$2,500; additional submitted, \$500.

The value of the annual direct exportations from Sheffield to the United States is about \$2,200,000. The official fees collected amount to about \$6,000 per annum. The character of the trade of this place is such as to require the services of a thoroughly competent man, in order that the interests of the United States may not suffer. The salary asked for will only place Sheffield upon the same level as that of other consulates of like or less importance, in that part of the United Kingdom.

Page 86. *Paso del Norte*—Consulate: Appropriated, \$1,500; additional submitted, \$1,500.

The rapidly increasing importance of this place can hardly be overstated. It is the most important border city on the Rio Grande frontier, and is rapidly growing more so. The extension of railroads from the United States into Mexico at this point insures its steady increase in population and the enlargement of its trade. The present salary is entirely inadequate,

under the act of July 11, 1888, the consular agency at Nogales (which now pays to the consul at Paso del Norte, \$1,000 per annum), is estimated for as an independant office, and should be so created, but such action will reduce the compensation of the consul \$1,000, as above stated.

Page 86. *Asuncion*—Consulate: Appropriated, \$1,500; additional submitted, \$1,500.

This is a new office, and has been established with the hope and belief that it will prove to be the first and most important step towards securing for the United States nearly or quite all of the trade of Paraguay, of which country Asuncion is the chief city and the capital. The small salary provided has rendered it impossible to secure the services of a suitable person for the position thus far, hence the increase is asked for.

Page 86. *Smyrna*—Consul: Appropriated, \$2,500; additional submitted, \$500.

This is the most important United States consulate in the Turkish Dominions. The consul is vested with judicial powers, the same as in China and other non-Christian countries, where the salaries range much higher. The place is unhealthy and very expensive, and the salary asked for is very moderate.

Page 86. *Montevideo*—Consulate: Appropriated, \$2,000; additional submitted, \$1,000.

This is an important seaport on the South Atlantic coast of South America; has a population of about 100,000, and has a large trade with the United States; is difficult to reach, is quite unhealthy, being much troubled with yellow fever, and is a very expensive place of residence.

Page 86. *Maracaibo*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

The principal seaport of Venezuela. Its trade is very extensive and varied. The official fees collected amount to about \$3,000 per annum. If fees were collected for services to American vessels, as formerly, the total would be much more than double the amount now reported. The duties of the consul are more important than those of any other consular officer in the Republic, while cost of living is nearly double that of any other city in Venezuela. The climate is pestilent in the extreme. The increase asked for is an absolute necessity.

Page 86. *Santos*—Consul: Appropriated, \$1,500; additional submitted, \$1,000.

The sum asked for here is about \$400 more than the fees formerly collected, when fees were charged for services rendered to American vessels. The services are still rendered, but the fees were abolished by the act of June, 1884; and in view of the cost of living, and the deadly nature of the climate, the above sum is submitted.

Page 86. *Aix la Chapelle*—Consul: Appropriated, \$1,500; additional submitted, \$1,000.

This is a very important place in its trade relations with the United States. It is the most expensive place to live in in all Germany. German soldiers quartered there are allowed double commutation for quarters and board. The official fees collected amount to more than \$3,000 per annum. The agency at Burtscheid has been abolished, at the request of the consul, in order that the consul might be able to control and prevent certain evil practices of shippers within his district. The work heretofore done at Burtscheid will in future be done at Aix la Chapelle. The increase asked for will not entail any additional expense to the Treasury, for the reason that the fees collected at Burtscheid were retained by the agent and the consul. The increase asked for is about the same as the fees collected at the agency.

Page 86. *Orefeld*—Consul: Appropriated, \$2,000; additional submitted, \$500.

This is a place of great commercial value to the United States. The exports are very large. The official fees collected average about \$8,500 per annum. The importance of the office demands the increase asked for.

Page 86. *Dusseldorf*—Consul: Appropriated, \$2,000; submitted, \$500.

The salary asked for this place is several hundred dollars less than the amount collected annually for official services.

Page 86. *Leipsic*—Consul: Appropriated, \$2,000; additional submitted, \$500.

The population of Leipsic is more than 250,000. The city is a great commercial center, and has a very large direct trade with the United States. The official fees collected amount to upwards of \$6,500 per annum. Very many American students are in attendance at the University of Leipsic each year, and are naturally a source of much care and labor to the consul.

Page 86. *Cardiff*—Consulate: Appropriated, \$2,000; additional submitted, \$500.

The direct trade between this port and the United States is not very great, but it is very important to United States shipping. The usual number of seamen shipped and discharged there is at least 600 per annum. The raising of the agency at Swansea to a consulate, under the act of July 11, 1888, has the same effect as in the case of Leeds. (See above item for Leeds.)

Page 87. *Dunfermline*—Consul: Appropriated, \$2,000; additional submitted, \$500.

The change proposed here is requested as a matter of fairness and justice to the consul; the official fees collected amount to about \$3,600 per annum, and, besides, it is of very great importance that this office, located as it is, in the very heart of the Scotch linen district, should be retained in the non-trading list of consulates with an adequate compensation.

Page 87. *Hamilton*—Consul: Appropriated \$2,000; additional submitted, \$500.

This is an important trade center in Ontario. By the raising of the agency at Paris, Ontario, as is required by the act of July 11, 1888, the consul at Hamilton loses \$1,000 per annum.

Page 87. *Newcastle-on-Tyne*—Consul: Appropriated, \$1,500; additional submitted, \$1,000.

The port of Newcastle is of much importance to United States shipping, being about equal to Cardiff in that line, and having at least four times the amount of direct trade with the United States as Cardiff, and is far less desirable as a place of residence.

Page 87. *Tamatave*—Consul: Appropriated, \$2,000; additional submitted, \$500.

Tamatave is the chief port of the Island of Madagascar, and is of much commercial value to the United States. The official fees collected are not large in amount, but generally each fee of \$2.50 represents an entire ship's cargo, and of great value. The import trade direct from the United States is very valuable, and will promptly increase when the country becomes tranquil. The consul is not vested with diplomatic functions, yet he is the only medium of communication between the United States Government and that of Madagascar. The delicate and important nature of the duties of the office require a man of marked ability to properly perform them, who should be given a living salary. The dangers and discomforts of life in Madagascar are very great.

Page 87. *Amsterdam*—Consulate: Appropriated, \$1,500; additional submitted, \$1,000.

This is a very important port and point of trade with the United States. The exports to the United States are very large and rapidly increasing. The official fees collected amount to about \$3,500 per annum. The growing importance of the place to the United States commercially renders the raising of the grade of the consulate proper and necessary.

Page 87. *Rotterdam*—Consul: Appropriated, \$2,000; additional submitted, \$500.

A very important port of the Netherlands, having very intimate and extensive trade relations with the United States. Direct lines of steamships and sailing-vessels connect Rotterdam with New York, Boston, and Baltimore. The port is visited annually by a large number of American vessels and American business men and tourists. It is proposed to abolish the agency at Schiedam, now under Rotterdam, from which place the consul receives about \$1,000 and the agent about \$800 per annum. (See note as to salaries of deputy consuls.)

Page 87. *Orange Free State*—Consul: submitted, \$2,500.

The reasons for asking for the establishment of consulates in the Orange Free State and Transvaal Republic are nearly identical, and are as follows: The Transvaal Republic is by all means the richest and most valuable as an inviting market for American goods of all the South African States. There are at present large numbers of United States citizens within its borders, and more are constantly going thither. Many complaints have been made because we have no consular representative in the republic. It should be stated that as yet we have no treaty with the Transvaal, but steps are now being taken looking to the conclusion of such an instrument. In the absence of a consular representative of the United States in the Transvaal, tariff legislation adverse to the interests of the United States has been enacted and will continue until we are properly represented there, which cannot be until the appropriation asked for has been made.

The United States has a very favorable treaty with the Orange Free State, and will send a consular representative there as soon as Congress shall provide a suitable salary for such an officer.

Page 87. *Odessa*—Consul: Appropriated, \$2,000; additional submitted, \$500.

This is the principal port of Russia on the Black Sea, and has an extensive trade, exporting large quantities of wool to the United States. The cost of living in Odessa, as in all cities of Russia, is exceptionally great, while the discomforts of life there are very considerable indeed.

Page 87. *Zurich*—Consulate: Appropriated, \$2,000; additional submitted, \$500.

This is the principal city in a commercial point of view. The annual exports direct to the United States amount in value to \$1,500,000. The official fees collected amounted last year to \$2,783.75. The vigilance of the consul, aided by his expert, has resulted during the past year in saving to the revenues of the United States at least twenty times the increase asked for.

Page 87. *Transvaal Republic*—Consul: Submitted, \$2,500. (See Orange Free State.)

Page 87. *Alexandria*—Consul: Submitted, \$2,500.

This office is now an agency under Cairo, from which place it is distant 150 miles. The commerce, while not very extensive, is important and likely to be very quickly and greatly increased. The raising of the grade of the office is demanded by the tremendous flood of American travel, which has grown from about twenty in 1884-'85, to more than three thousand in 1886-'87. The money expended in Egypt by this army of United States citizens was about \$2,000,000 last year, and the demand for a full grade and properly salaried consul at Alexandria is great, and should be responded to by granting the appropriation asked for.

Page 87. *Sophia*—Consul: Submitted, \$2,500.

This place is the capital of Bulgaria, and is the home of about twenty American missionaries, with their families. They have four or five schools at different points, with about four hundred pupils. The school-houses, dwellings, &c., are owned by American citizens. The remoteness of Sophia from any place where we have a consul and the peculiar political condition which prevails there, renders it very important that the appropriation asked for be given and the office established.

Page 87. *Bahia*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The reasons for asking for an increase at Bahia and Para are identical. Para and Bahia are large and important seaports of Brazil; each has a large and increasing direct trade with the United States. The trade of these ports consists of imports as well as exports, and should be fostered. The present salaries are manifestly inadequate, when the cost of living, the unhealthy character of the climate, and the commercial importance of the places are considered.

Page 87. *Para*—Consul: Appropriated, \$1,500; additional submitted, \$500. (See Bahia.)

Page 87. *Copenhagen*—Consulate: Appropriated, \$1,500; additional submitted, \$500.

This office is like the one at Stockholm. The consul fills the place of a secretary of legation, while he is in fact only a consul. The interests of the service require that the consul at Copenhagen should be better rewarded for his double duties,

Page 88. *Nice*—Consulate: Appropriated, \$1,500; additional submitted, \$500.

Nice is a favorite winter resort of many invalids from America, not a few of whom die there, leaving their estates to be settled by the consul, entailing upon that officer great labor in addition to his regular duties, for which there is no extra compensation. The present salary is entirely inadequate. The United States fleet has winter quarters in the immediate vicinity.

Page 88. *Kehl*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The sum asked for this place is less than the official fees collected each year, and much less than the consul received when compensated by fees.

Page 88. *Bristol*—Consulate: Appropriated, \$1,500; additional submitted, \$500.

This city has over 200,000 inhabitants, has a large direct export trade to the United States, and a large import trade therefrom. It is the principal port to which our live-stock for England is shipped. The business of the port and justice demand the increase asked for.

Page 88. *Brockville*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The official fees collected at this place are about the same as the salary requested, but are increasing rapidly, and will soon be much in excess of the proposed appropriation.

Page 88. *London, Canada*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The official fees collected at this place are greater than the salary asked for. The proposed change will result in restoring to the consul a compensation approaching in amount that which he enjoyed while the office was in the feed list, and which was then deemed too small.

Page 88. *Quebec*—Consul: Appropriated, \$1,500; additional submitted, \$1,000.

The trade between Quebec and the United States is not very great, but the place is expensive as a residence, and especially so to a United States consul, in consequence of the large number of American tourists that visit the city each year. The reason for asking for the increase of salary is, that under the law of July 11, 1888, the agency at Point Levi is to be raised to a consulate, which, if done, will reduce the income of the consul at Quebec \$1,000 per annum. (See note as to salaries, deputy consuls.)

Page 88. *Stratford*—Consul: Appropriated, \$1,500; additional submitted, \$500.

This is an important agency in Canada; the official fees collected amount to about \$3,000 per annum. The proposed change will only put the office on a level with other offices in Canada of like importance.

Page 88. *Cadiz*—Consulate: Appropriated, \$1,500; additional submitted, \$500.

This port is the second in importance in Spain, and has a large direct trade with the United States. Under the act of July 11, 1888, the agency at Jerez de la Frontera is to be raised to a consulate, which will reduce the income of the consul at Cadiz about \$1,000 per annum. The increase asked for is to, in a measure, make good that loss.

Page 89. *Mozambique*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Ghent*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Rio Grande de Sul*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Bombay*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Gaspé Basin*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Levuka*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Sierra Leone*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Turk's Island*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Windsor, Nova Scotia*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Talcahuano*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Algiers*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Gaboon*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Nantes*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Tahiti*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Stettin*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Cape Haytien*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Ruatan and Truxillo*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 89. *Venice*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Guaymas*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Piedras Negras*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Zanzibar*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Batavia*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Santiago, Cape Verde Islands*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Saint Paul de Loando*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Page 90. *Christiania*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

These items are those consular offices now regularly appropriated for at the rate of \$1,000 per annum each, with permission to the holders of such offices to engage in trade. It will be seen that if the salaries asked for be allowed, all of the offices included in this section will be removed from the trading class, and it is very desirable that they should be so removed. It is considered that the privilege of trading should be, and is, worth at least \$1,000 per annum to the holder of the office, but experience has shown that the interests of the United States, and of such persons as are engaged in trade with this country, who are not consular officers, will be much better protected by restricting the trading consuls to the very lowest number practicable, which end is sought to be attained by the foregoing recommendations. It is very desirable that all of the offices above named be raised to \$2,000 per annum; but if this is not done, it is deemed of special importance that the consulates at Piedras Negras, (Mexico), and Talcahuano, (Chili), be each increased at least \$1,000.

The office at Piedras Negras, situated as it is on the Rio Grande frontier, where our new railroads are being pushed into Mexico, taking with them immense amounts of American capital and large numbers of our citizens, has suddenly attained great importance, and should be filled by an able officer, who is restricted from trade.

The office at Talcahuano is by far the most important consulate on the Pacific coast of South America, exclusive of Panama. It is the great resort of whalers, and the number of seamen shipped, discharged, and relieved is very large indeed. The vessels visit this port to transship oil, bone, &c., and to refit. The amount of money expended by whalers in this port is very large, and the interests of the owners of such vessels demand that the consul there should be prohibited from engaging in trade. It is impossible to secure the services of a suitable person at the present salary if the trading privilege is withheld.

Page 91. *Reichenberg*—Commercial agent: Submitted, \$2,500.

The fees collected here amount to \$5,631. The salary asked will be a saving to the Treasury.

Page 91. *Rosario*—Consul: Submitted, \$1,500.

The compensation of the consul at this port last year was \$1,250, and was derived from invoice certificates, \$738.50, and for services to American vessels, \$741.82; which last amount was paid to the consul direct from the Treasury, as provided for by the act of June 26, 1884. This consul has the right to engage in trade, and is so engaged, and, owing to his position, enjoys a substantial monopoly, to the serious injury of others who desire to trade with the United States.

Page 91. *Charleroi*—Consul: Submitted, \$2,000.

The sum asked for is less than the amount annually collected and retained by the agent and his principal.

Page 91. *Carthagena*—Consul: Submitted, \$2,000.

This is a trifle less than the annual compensation of the consul under existing law. The salary asked for is of the non-trading class.

Page 91. *Calais*—Consul: Submitted, \$1,500.

This office is now a consular agency under Rouen. The Department does not advise the raising of the grade, but submits the estimate pursuant to the act of July 11, 1888.

Page 91. *Limoges*—Consul: Submitted, \$1,500.

The amount asked for here is something more than \$400 in excess of the official fees collected; but it is desired that the office should be placed in the non-trading class and be filled by a citizen of the United States, to accomplish which the salary asked for is required.

Page 91. *Roubaix*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Rouen*—Consul: Submitted, \$1,500.

This is an important trade centre of France, and the official fees collected there amount to considerably more than the salary asked for. The trade between Rouen and the United States is of such a character as to make it particularly desirable that the consul be restricted in that direction.

Page 91. *Geestemunde*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888. (See note as to salaries, deputy consuls.)

Page 91. *Gera*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Glachau*—Consul: Submitted, \$2,000, pursuant to act of July 11, 1888.

Page 91. *Hanover*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Magdeburg*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Aberdeen*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Belize*—Consul: Submitted, \$3,000.

This place is of considerable commercial value, especially to American vessels, but its political importance to the United States renders it very desirable that the office should be filled by an able officer, one not engaged in trade and a citizen of the United States. The climate is an exceedingly trying one, and a less salary than that asked would be too small to attract a suitable person for the position.

Page 91. *Coaticook*—Consul: Submitted, \$1,500.

The official fees collected at this place are about \$800 less than the salary asked for, but the consul's share of the agency fees make his compensation about the same as the proposed salary. It is desirable that this office should be denied the right to trade.

Page 91. *Lineboro'*—Consul: Submitted, \$1,500. *Owen Sound*—Consul: Submitted, \$1,500.

These offices are in Canada and are now consular agencies, and should for the present remain so. The estimate is submitted pursuant to act of July 11, 1888.

Page 91. *Huddersfield*—Consul: Submitted, \$2,000, pursuant to act of July 11, 1888.

Page 91. *Hull*—Consul: Submitted, \$2,500.

The salary asked for in this case is about \$1,000 greater than the official fees collected, but is as small as can be given if the best interests of the service are to be considered. The place is the most undesirable one in all of the United Kingdom

as a place of residence, and, owing to the small compensation of the office, it has been difficult to obtain the services of a suitable person as consul for many years past. Great irregularities were at one time practiced there, owing to the consul acting as a factor in matters relating to shipping and seamen, with which the port abounds. The proposed salary will secure the services of a suitable officer, and will exclude the office from the trading class.

Page 91. *Kidderminster*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Leicester*—Consul: Submitted, \$1,500.

This is an important agency under Nottingham, and is filled by an alien. The salary asked for is more than the official fees collected, and will require the appointment of an American, who will be restricted from trading.

Page 91. *Moncton*—Consul: Submitted, \$1,500.

This office is now a commercial agency in New Brunswick. The fees collected are greater than the salary asked for, and the appropriation is strongly recommended by the Department.

Page 91. *Morrisburg*—Consul: Submitted, \$1,500.

The salary asked for in this case is about \$400 in excess of the amount of fees collected for official services, but will prohibit the consul from trading, and in that respect is very desirable.

Page 91. *Newcastle, New South Wales*—Consul: Submitted, \$2,000.

This is a trading commercial agency under Sydney. The official fees collected usually exceed by several hundred dollars per annum the salary proposed. It is very desirable that this office be filled by a citizen of the United States, and that trading be prohibited.

Page 91. *Paris, Canada*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Point Levi*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888. (See note as to salaries, deputy consuls.)

Page 91. *Port Rowan*—Consul: Submitted, \$1,500.

The office will not be continued in the trading class if the salary asked for is appropriated. Fees, \$1,259.50.

Page 91. *Redditch*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Sorel*—Consul: Submitted, \$1,500.

The salary asked for this place will place the office in the non-trading class, which is very desirable at all principal offices in Canada.

Page 91. *St. Christopher*—Consul: Submitted, \$1,500.

The salary asked for at this place is less than the annual official fees collected. The salary asked for places the office in the non-trading list.

Page 91. *St. Helen's*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *St. Hyacinthe*—Consul: Submitted, \$1,500.

The salary requested for this office is less than the official fees collected, and will prohibit trade.

Page 91. *Stanbridge*—Consul: Submitted, \$1,500.

The official fees collected at this place are less than the salary proposed, but the agencies under this office make the compensation of the consul exceed \$1,500.

Page 91. *Swansea*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Trinidad*—Consul: Submitted, \$3,000.

This is a trading consulate. The salary proposed is not quite \$200 in excess of the fees received in the last fiscal year. The commerce with the United States is, however, steadily increasing, and the fees will probably soon exceed \$3,000 a year. The political importance of the place, owing to its proximity to Venezuela, and its being a place of refuge for Venezuelan exiles, is very considerable. It is an expensive and not very healthy post, in a tropical climate, and the salary should be at least equal to that of Demerara, which is now \$3,000.

Page 91. *Wallaceburg*—Consul: Submitted, \$1,500.

The salary proposed for this office will be a clear saving to the Treasury of at least \$1,000 per annum, and will prohibit trade by the consul.

Page 91. *Waubachene*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Woodstock*—Consul: Submitted, \$1,500.

The official fees collected at this office are about the same as the proposed salary. If the appropriation be made, trading by the consul will be prohibited, which is particularly desirable in New Brunswick and Nova Scotia at the present time.

Page 91. *Yarmouth*—Consul: Submitted, \$1,500.

Seaport of Nova Scotia. Large and increasing trade with United States, exporting fish, farm produce, &c., by direct steamers. Port resorted to by American fishing-vessels in large numbers, and commercial agent frequently called upon to protect their interests, and to relieve the wants of shipwrecked and destitute American seamen. During the pending fishery negotiations the office is particularly important, and it is strongly recommended that a salary be appropriated therefor. The fees last year amounted to \$1,717.50, and they are steadily increasing.

Page 91. *Castelamare*—Consul: Submitted, \$1,500.

The salary asked for at this place is about \$500 less than the official fees annually collected, and will prohibit trading by the consul.

Page 91. *Catania*—Consul: Submitted, \$1,500.

The proposed salary for this office is much less than the annual collection of official fees, and is in the non-trading class.

Page 91. *Garita Gonzalez*—Consul: Submitted, \$1,500.

This place is a railway station near Nuevo Laredo, Mexico. The office is a consular agency under Nuevo Laredo, and should remain as it now is. It is estimated for because the law requires such action. Official fees (which are collected for landing or debenture certificates alone) amount to \$2,387.25.

Page 91. *Merida*—Consul: Submitted, \$2,000.

The official fees collected at this place are less than the proposed salary. The consul's share of the fees collected by his agents makes his compensation nearly equal to the salary asked for.

Page 91. *Nogalez*—Consul: Submitted, \$2,000.

This is one of the most important places in all of Mexico. The office is now only a consular agency, but collected last year official fees to the amount of \$2,105.50. The salary asked is less than the fees collected, but if granted will place the office in the non-trading class, and will necessitate the appointment of a citizen of the United States.

Page 91. *Curaçoa*—Consul: Submitted, \$2,000.

The salary asked for in this case is less than the official fees now collected and retained by the consul, who also has the trading privilege, which will be cut off if the appropriation asked for be made.

Page 91. *Schiedam*—Consul: Submitted, \$1,500.

The Department does not advise any appropriation in this case. (See note salaries, deputy consuls.)

Page 91. *Schiedam*—Consul: Submitted, \$1,500, pursuant to act of July 11, 1888.

Page 91. *Bluefields*—Consul: Submitted, \$1,500.

This place is now a consular agency under San Juan del Norte, in Nicaragua, and should so remain for the present, at least. The official fees collected last year amounted to \$1,376.75. The name of the place is submitted because the law requires it to be done.

Page 92. *Moscow*—Consul: Submitted, \$1,500.

This office is now in the hands of an alien. The official fees amount to about \$800 per annum. It is desirable that the United States should have one of its citizens in this office, and that the consulate be placed in the non-trading class.

Page 92. *Almeria*—Consul: Submitted, \$1,500.

An important port of Spain, which has a very considerable trade with the United States, exporting direct large quantities of grapes and iron ore, and importing staves, petroleum, &c. Population, about 40,000. Official fees collected last year amount to \$2,539.13.

Page 92. *Baracoa*—Consul: Submitted, \$2,500.

The official fees collected at this port are considerably less than the salary now proposed, but it is exceedingly important that this office be placed in the non-trading class.

Page 92. *Cardenas*—Consul: Submitted, \$2,500.

The official fees collected at this port are about \$3,000 per annum. Giving the salary asked will result in a saving to the Government, and place the office in the non-trading class.

Page 92. *Denia*—Consul: Submitted, \$1,500.

This is an important Mediterranean port in Spain; has a large direct export trade with the United States. The place should have a salary, and be removed from the trading class of consulates. Fees collected last year amounted to \$1,912.50.

Page 92. *Jerez de la Frontera*—Consul: Submitted, \$1,500.

This is the most important agency in Spain. It is under the consul at Cadiz, and collects about \$1,750 per annum in official fees. It is desirable that the right to trade be taken from this office.

Page 92. *Chaux de Fonds*—Consul: Submitted, \$1,500.

This is an important agency under Basle, and is filled by an alien engaged in trade. The official fees collected last year amounted to \$1,645. The salary proposed will secure the services of a non-trading United States citizen.

Page 92. *Gottenburg*—Consul: Submitted, \$1,500.

This is a very important city in Sweden, and has considerable direct trade with the United States. The official fees collected last year amounted to \$1,509. It is desirable that this office be elevated by being placed in the non-trading class.

Page 92. *Stockholm*—Consul: Submitted, \$1,500.

This city is the capital of Sweden, where we have a minister resident, but we have no secretary of legation, and it is very desirable that the United States should have a salaried consul there, a citizen of the United States, who can take charge of the legation during the absence of the minister. The official fees collected at Stockholm last year amounted to \$1,567.50.

Page 92. *Salaries, consular officers not citizens*: Appropriated, \$6,000; additional submitted, \$4,000.

This additional sum is found to be required, owing to the large number of vice officers who are foreigners, and whose salaries, when in charge, cannot be paid out of the regular appropriation.

Page 92. *Salaries, deputy consuls*: Submitted, \$3,200.

This appropriation of \$3,200 is asked for in order that the Department may bring about a much needed reform at the four places mentioned, viz: Geestemünde, under Bremen; Garita Gonzalez, under Nuevo Laredo; Schiedam, under Rotterdam; and Point Levi, under Quebec. It is proposed, if this appropriation is made, to abolish the agencies at the four places named, and to have the duties performed in future by a deputy consul detailed from the consulate to which the agency now belongs. This will reduce the number of distinct offices; save much expense to the Treasury, and put the service into a very much more satisfactory and creditable condition than it now is, or ever can be, while the present system continues.

The following tabular statement exhibits the saving to the Government.

	Fees retained by agent and consul.	Proposed salary of deputy consul.
Geestemünde (Bremen).....	\$1, 192 00	\$800 00
Garita Gonzalez (Nuevo Laredo).....	2, 000 00	800 00
Schiedam (Rotterdam).....	1, 812 50	800 00
Point Levi (Quebec).....	2, 000 00	800 00
Total.....	7, 004 50	3, 200 00

It should be noticed however that the saving of \$3,804.50 thus effected will be diminished by the amount of the increase (if any) made in the salaries of the consuls at the ports above named.

ALLOWANCE FOR CLERKS AT CONSULATES.

Page 92. *London*: Appropriated, \$1,600; additional submitted, \$400.

The labor in the consulate-general at London is nearly double that of any other consular office in our service, and the sum asked for is absolutely required. The consul-general now pays the \$400 out of his private funds.

Page 92. *Havana*: Appropriated, \$1,600; additional submitted, \$400.

The sum of \$2,000 was formerly allowed to the consulate-general at Havana for clerk-hire, and was found to be barely sufficient to enable the consul-general to procure sufficient clerical aid to keep his office work in such a condition as the regulations require. Since the reduction it has been impossible to keep the current work of the office up except by the employment of additional help, which has been paid for by the consul-general out of his private funds. The office at Havana is peculiar, in that the duties of the consul-general are in a large degree *quasi* diplomatic. The expense of living and the discomforts and danger to life are as great as in the East.

Page 92. *Paris*: Appropriated, \$1,600; additional submitted, \$400.

For many years the sum of \$2,000 per annum for clerk-hire at Paris was appropriated, and the necessity for that allowance is far greater now than ever before. The consul-general is compelled to draw heavily upon his private funds to pay for clerical aid beyond that furnished by the Government. This is unjust and should be remedied, at least to the extent herein proposed.

Page 92. *Shanghai*: Appropriated, \$1,200; additional submitted, \$800.

The appropriation for clerk-hire at Shanghai was for years fixed at \$2,000, and was not too much. The office at this port is the most important we have in the East, and the demands for clerical aid are greater than in any other consulate in China or Japan. The labor connected with the consular post-office alone requires the almost continuous attention of one clerk. The restoration of the amount lately stricken from the allowance at this port is greatly needed and is most earnestly requested.

Page 92. *Antwerp*: Appropriated, \$800; additional submitted, \$700.

The need for clerical aid at Antwerp is second only to Liverpool of all the consulates in Europe. This port ranks next after Liverpool in direct shipping to the United States. It is wholly impossible for the consul to properly discharge the duties of his office with such help as he can procure for the sum now allowed his office for clerk-hire. As a matter of fact, he does not attempt to do it, but hires additional help at his own expense.

Page 92. *Barmen*: Appropriated, \$640; additional submitted, \$560.

The increase is asked for in this case because it is proposed to abolish the consulate at Elberfeld, which is only about twelve minutes walk from the Barmen consulate. The consular salary at Elberfeld is \$2,000, but the business can and should be done in the Barmen office. The Department desires Congress to abolish the office at Elberfeld in direct terms.

Page 92. *Maracaibo*: Submitted, \$800.

When this office was compensated by fees, the consul was allowed to retain for the payment of clerks, \$1,000 per annum; but when the post was transferred to the non-trading class, with a fixed salary, no provision was made for clerk-hire. The Department has allowed the consul \$400 per year from the fund subject to the order of the Secretary of State for clerk-hire, and the consul has paid from his own fund a like amount, making, in all, \$800, the sum now asked for.

Page 92. *Messina*: Submitted, \$800.

The need for a well paid clerk at Messina is well known to the Department, and was for years recognized by Congress. There is now no specific appropriation for that office, and the Department again presents the case with a most earnest recommendation that the sum asked for be appropriated.

Page 92. *Nuevo Laredo*: Submitted, \$800.

It is proposed to raise the salary and grade of the office at this place, and to transfer the consul-general from Matamoras to the office at Nuevo Laredo. The office is now a very important one, but when it shall have been made a consulate-general, with jurisdiction over the entire Rio Grande frontier, and most of the northern part of Mexico, its importance will be very greatly increased. The duties of the office cannot be properly discharged by a single individual.

Page 92. *Ottawa*: Submitted, \$800.

This has now become the most important office in Canada, both in the fees collected and in its location. The Department's experience during the past year has shown beyond question that a very competent clerk is required at this place. The sum asked for is regarded as entirely within the necessities of the case.

Page 92. *Palermo*: Submitted, \$800.

It is well known that this is the most important commercial city in Italy. For many years the consulate was allowed \$800 per annum for clerk-hire, and it is now desired to renew this very important and necessary appropriation.

Page 92. *Smyrna*: Submitted, \$800.

The sum now asked for is only the salary which for some fifteen years was granted to this place, and which has always been regarded by the department as very moderate indeed. The clerk should be, and the present is, familiar with at least five languages and dialects, viz.: French, Italian, Turkish, Arabic, and English. It is most earnestly hoped that the very moderate sum now asked for will be appropriated.

Page 92. *Tangier*: Submitted, \$800.

This place, like Smyrna, only in a greater degree, requires a very competent clerk. Nearly every great power except the United States support very imposing legations at Tangier. It is thought, however, that, with an increased salary for our representative and the raising of his grade to that of a consul-general, and by furnishing him with a competent clerk, who shall be versed in the numerous languages and dialects used in Morocco, we will be able to hold, for the present at least, a respectable position in that country. In view of all of these facts, the appropriation is most earnestly commended.

Page 92. *Belfast, Dundee*: Appropriated, \$640 each; additional submitted, \$160 each.

The sum asked for in this case will only restore the allowance to what it was for many years, and was never too much. As the work at the offices named is steadily increasing, it is manifest that the additional sum asked for should be granted.

Page 92. *Ecuador*: Submitted, \$800.

This office, although only a consulate-general, has as much diplomatic duties as consular to perform, and as no secretary of legation is allowed, and the consul-general must be in Quito at least half of the year, while the office at Guayaquil is at the same time kept open, it is indispensable that a clerk be provided.

Page 93. *Beirut*: Appropriated, \$480; additional submitted, \$160.

The peculiar nature of the duties of the consul at this port compels him to employ a clerk familiar with the dialects of the country and the habits of the people. Such a clerk cannot be obtained for less than the sum asked for, and which is now being paid, the \$160 being contributed by the consul from his private funds.

Page 93. *Piedras Negras*: Submitted, \$640.

This post, like all others on the Rio Grande frontier, has suddenly grown into importance, owing to the railroad extension from the United States into Mexico. Four hundred dollars is now allowed to this place for the fund for additional clerk-hire, which is subject to the orders of the Secretary of State. It is desired that a specific appropriation be made as submitted, which sum is now being actually expended, the deficiency being made good by the consul.

Page 93. *Paso del Norte*: Submitted, \$640.

This post is, perhaps, to-day the most important consulate on the Rio Grande, and its trade with the United States is rapidly increasing. The present provision for clerk-hire is the same as at Piedras Negras, and the consul here, as at the last-mentioned office, is compelled to pay out his private funds for clerical aid.

Page 93. *Aix la Chapelle*: Submitted, \$640.

The situation at this consulate is identical with that at the two offices in Mexico just mentioned. The services of a fairly good clerk at Aix la Chapelle are an absolute necessity. The duties of the office cannot be performed without such help. It is believed that with the allowance asked for it will be possible for the consul to secure the services of some young American, who can also be made vice and deputy consul, thus putting the business of the office entirely in the hands of citizens of the United States.

Page 93. *Prague*: Appropriated, \$480; additional submitted, \$120.

Six hundred dollars was formerly allowed for clerk-hire at this place and the business has increased very rapidly of late years, and is now nearly equal to that of Vienna.

Page 93. *Horgen*: Submitted, \$600.

This place has grown in commercial importance to the United States of late years, and is now in the front ranks owing to the peculiar products of the district. The exportations are all ad valorem goods and require the most critical examination. A good clerk is absolutely essential to the proper discharge of the duties of the office.

Page 93. *Kingston, Ja.*: Submitted, \$480.

This place is one of the most important British West Indian ports. We have very important commercial relations with Jamaica, and it is impossible for a consul to properly discharge his duties without the aid of a clerk. The sum asked for is the same as now provided for Demerara, which has a salary of \$3,000.

Page 93. *Rheims, France*: Submitted, \$480.

The demands for a clerk here are very great, and a clerk has been employed by the consul continuously. It is now proposed that the services be paid for by the Government.

Page 93. *St. Thomas, Ont.*: Submitted, \$480.

This is a very important office in Canada, and formerly had a clerk paid from the excess of fees. The office is now under a fixed salary and it is very desirable that a clerk be provided for by law. The sum asked for is very moderate.

Page 93. *Trinidad, Br. W. I.*: Submitted, \$480.

Everything that has been said in support of recommendation for a fixed salary at this place may be said in favor of a clerk. It has been and is now impossible for the consul to properly discharge the duties of his office without the help of a clerk. The great number of American vessels visiting this port requires very frequent journeys down the bay by the consul, and if he has no clerk the office must be closed when he is required to visit a vessel. The closing of a consulate during office hours causes much inconvenience and furnishes just grounds for complaint. The sum asked for is the same as is now given to Demerara, where less work is required.

MISCELLANEOUS.

Page 93. *Interpreters to Consulates in China, Corea, and Japan*: Appropriated, \$15,000.
(For Corea, see item relating to Chemulpho, page —.)

Page 93. *Interpreters, Guards, &c., in Turkish Dominions*: Appropriated, \$5,000; additional submitted, \$1,000.

All that has been said as to interpreters in China and Japan applies with equal force in Turkey. This appropriation is divided between at least ten persons, and it will be seen at once that any sum less than \$6,000 would be quite inadequate. The money appropriated under this head should be expended under the direction of the Secretary of State, the only restriction being that of the country. New offices are being created and old ones being closed, and the Secretary of State should have full authority to apply the fund to any and all offices within the Turkish Dominions.

Page 93. *Marshals for Consular Courts in China, Corea, Japan, and Turkey*: Appropriated, \$9,000; additional submitted, \$300.

There is no provision for a marshal's salary at the consulate at Chee Foo, and the consul there has been compelled to ask the British consul to loan the services of his marshal when such an officer was required by the consul of the United States. This has been done in the past quite frequently, but now the British consul expresses the hope that our consul will make other arrangements for the future, and, in order that this may be done, the additional appropriation named is required. (For need of marshal and a prison and prison-keeper in Corea, see item relating to Chemulpho, page 273.)

Page 93. *Salaries and Expenses, Inspectors of Consulates*: Submitted, \$18,000.

The need of an efficient scheme of consular inspection has long been felt. It was adverted to by the President in his first annual message. The recital in the estimates shows the nature of the service to be performed. No consideration can well be superior to that of securing, by every possible means, an honest and efficient administration of the public business, abroad as well as at home. The detection and correction of abuses is at all times difficult, even when under the immediate eye of the Executive Departments, and it is practically impossible at distant posts where large public interests and revenues are administered, with no other safeguard than the integrity of the officer. Charges of abuses are continually arising in such cases. They may be unfounded and malevolent, or may be true. Their proper investigation is due, in the one case, to vindicate the good fame of the incumbent; in the other, to protect the Government. Under a thorough system of inspection, the opportunity for abuses would be lessened. We now take a man from private life, and send him into complete isolation, thousands of miles away, and thenceforth know nothing of him or his doings except what he may choose to tell us of himself, or what his enemies may spread about him. If there be a consul general in the country, a consul may be reached and controlled through that channel; but such inspections are never satisfactory; besides, it often happens that the consul-general himself needs investigation. With no desire to impugn the general integrity of our service abroad, it is believed efficient inspection would save, in greater revenues collected and in diminished disbursements, much more than the cost of the proposed service, and greatly improve the standard of our consular representation. Each of the other Executive Departments have a large corps of inspectors constantly employed, and notwithstanding that their duties are almost entirely within the United States, where the delinquent official can be reached by mail or telegraph, and where the restraining effect of United States laws are at all times to be felt. The necessity becomes apparent for a similar power of investigation when the officers in question are in foreign countries, and all access to them and their accounts is the more difficult.

Page 94. *Publication of Consular and other Commercial Reports*: Appropriated, \$20,000; additional submitted, \$5,000.

The additional sum asked for is requested to enable the Department to maintain the standard of these publications, and to extend their scope so as to make them at least equal to similar publications in England, France, and Belgium. The practical usefulness of the reports has been greatly increased by illustrations of new machinery, new processes, and the like, that may be of value to producers and manufacturers of the United States. The outlay necessary for this object is small when compared with the value of the results. The cost of distributing the reports has become so great, by reason of the large editions issued, as to make it advisable for an additional appropriation. These items are covered by the additional sum asked for.

Page 94. *Contingent Expenses, United States Consulates*: Appropriated, \$150,000; additional submitted, \$50,000.

The additional sum asked for under this head is rendered necessary if the consular offices affected by the act of July 1, 1886, be granted fixed salaries, as contemplated by that act. It is proper to state, however, that the actual cost to the Treasury, in excess of the expense previously sustained, will be very much less than the additional sum asked for, and is explained as follows: Of the fee consulates which it is now proposed to put upon a fixed salary very many collect fees sufficient to pay the consul his salary, and such amount for rent, not exceeding \$500, as the Secretary of State may determine. Under the proposed system the rent cannot exceed twenty per cent. of the salary, and all of the fees are paid into the Treasury. All expenses, other than rent, will be the same as at present. The phraseology of the appropriation has been changed as follows: After the words "several consulates," the words "consular agencies" have been inserted, so as to read "several consulates, consular agencies, and commercial agencies." This addition is required in order to meet the requirements of the accounting officers of the Treasury. Up to the present time the Treasury has, at the instance of this Department, regarded the act as including consular agencies, but now demands that such offices be specifically named, which was done in the act of July 11, 1888. To remove all doubt upon this point, section 1696, Revised Statutes, should be repealed.

Respectfully submitted.

T. F. BAYARD.

APPENDIX O.

Statement showing wherein the estimates for pay, &c., of the army for the fiscal year ending June 30, 1890, vary from the amounts appropriated for like purposes for the fiscal year ending June 30, 1889. (Estimates for 1890, on pages 97-100.)

Items.	Amount estimated, 1890.	Amount appropriated, 1889.	Increase of estimate over appropriation.	Decrease of estimate under appropriation.	Remarks.
Pay of officers of the line.....	\$2,857,000 00	\$2,868,000 00		\$11,000 00	One Lieutenant-General less.
Additional pay for aides and mounted officers.....	10,414 43	8,000 00	\$2,414 43		Estimate is based on authorized number of aides and disbursements for mounted pay.
Pay of officers for length of service.....	870,030 00	815,000 00	55,030 00		Increase in length of service of officers.
Pay proper of enlisted men.....	4,309,520 00	4,137,000 00	172,520 00		Estimate made for pay of 25,000 men under present organization.
Pay of hospital corps.....	219,540 00	150,000 00	69,540 00		Estimate based on present organization of hospital corps.
Service-pay of enlisted men.....	388,056 00	381,360 00	6,696 00		Increase in length of service of enlisted men.
Pay of officers, Adjutant-General's Department.....	52,500 00	50,000 00	2,500 00		Estimate based on present organization.
Pay of officers, Ordnance Department.....	239,500 00	239,340 00	160 00		Estimate based on present organization.
Service-pay, Corps of Engineers.....	72,240 00	73,740 00		1,500 00	Decrease in aggregate service of officers.
Pay of officers, Ordnance Department.....	129,500 00	131,500 00		2,000 00	One storekeeper less.
Service-pay, Ordnance Department.....	45,880 00	42,960 00	2,920 00		Increase in aggregate service of officers.
Service-pay, Quartermaster's Department.....	51,400 00	50,000 00	1,400 00		Increase in aggregate service of officers.
Service-pay, Subsistence Department.....	21,800 00	22,000 00		200 00	Decrease in aggregate service of officers.
Pay of officers, Medical Department.....	429,900 00	426,700 00	3,200 00		Increase in numbers of captains, promoted from lieutenants by length of service.
Service-pay, Medical Department.....	116,400 00	110,000 00	6,400 00		Increase in aggregate service of officers.
Pay of officers, Pay Department.....	109,000 00	116,500 00		7,500 00	Three majors less.
Service-pay, Pay Department.....	32,500 00	33,500 00		1,000 00	Decrease in aggregate service of officers.
Pay of officers, Judge Advocate-General's Department.....	27,000 00	25,000 00	2,000 00		Estimate based on present organization.
Pay of officers on retired-list.....	976,169 15	920,000 00	56,169 15		Increase in number of retired officers.
Service-pay of officers on retired-list.....	284,215 24	275,000 00	9,215 24		Increase in aggregate service of officers.
Pay of retired enlisted men.....	94,733 10	60,000 00	34,733 10		Estimate based on number of men now on the retired-list.
Pay and traveling expenses of contract-surgeons, &c.....	100,920 00	85,000 00	15,920 00		Estimate based on number of contract-surgeons, matrons, and veterinary-surgeons required.
Pay and traveling expenses of paymasters' clerks, &c.....	86,707 69	80,000 00	6,707 69		Estimate based on amount expended last year for traveling expenses of paymasters' clerks.
Expenses of courts-martial, &c.....	7,595 73	10,000 00		2,404 27	Estimate based on amount expended last year.
Commutation of quarters to officers.....	176,615 40	158,000 00	17,615 40		Estimate based on amount expended last year.
Allowances for travel, &c., to discharged men.....	879,901 50	850,000 00	29,901 50		Estimate based on probable number to be discharged.
Amounts, not changed.....	592,400 00	592,400 00			
	13,180,438 24	12,711,000 00	469,438 24	25,604 27	
	12,711,000 00		25,604 27		
Excess of estimate over appropriation.....	469,438 24		469,438 24		

Statement showing the authorized active strength of the Army in commissioned officers, exclusive of the Signal Corps.

Total.....	4, 642, 779

APPENDIX Q.

In relation to the estimates for Electric-light, purchase of land, and new furniture for cadet quarters, Naval Academy.—(See page 124.)

U. S. NAVAL ACADEMY,
Annapolis, Md., September 29, 1888.

SIR: I transmit herewith the annual estimates for the support of the Naval Academy for the fiscal year ending June 30, 1890.

The following items are submitted in addition to the usual estimates:

1. For the purchase of the private property which lies between two portions of the Government land and entirely separates them. Until this property is purchased, the eleven acres outside the academy limits, and belonging to the academy, cannot be inclosed, improved, or made use of in any way beneficial to the academy.

The reasons urged for the purchase of the six acres referred to have been set forth on former occasions when the estimates have been submitted. I may now repeat the most urgent one—which is: To give the cadets more extended space for drills and exercises.

The discipline of the institution requires that the cadets should be kept habitually within the limits of the academy, and it is therefore, most desirable that they should have ample space for out-door exercise, which is so essential to their health and physical development, as well as their happiness and comfort.

2. An item for the purchase of an electric-light plant.

The grounds and buildings are now lighted by gas which is manufactured within the grounds. The cost of gas is only 85 cents per thousand, and is of good quality.

The cadets' quarters, in which they study, are lighted in the best manner, yet there are, annually, several cases of cadets whose eye-sight fails; and this notwithstanding the careful examination to which they are subjected when they enter. Where a cadet commences his course with even a moderate inclination to short-sightedness it almost invariably increases to a degree which renders him unfit for the service.

Much of this difficulty, both in the injury to apparently good eyes and the development of latent defects in others, is caused by study by gas-light; and I think it can be largely prevented, if not entirely removed, by the use of the electric light.

The academy is specially adapted to the efficient use of the electric light, and the maintenance of the plant would not exceed what it now costs to furnish gas, and would be more satisfactory from every point of view.

3. For the purchase of new furniture for the cadets' quarters.

Each cadet is now provided with a small iron bedstead, an iron washstand, a wardrobe, and one chair. In addition, the two occupants of a room have a table in common.

The wardrobes, tables, and bedsteads have been in use from twenty-four to thirty years and are now worn out. The wardrobes were, originally, of too slight construction, and have been repaired so often that they are a constant source of trouble.

Many of the bedsteads were used by the Army during the war, when the academy was an army hospital, and most of them were so bent that they fail entirely to answer their purpose.

It is proposed to replace the wardrobes, bedsteads, and tables.

Very respectfully,

W. T. SAMPSON,
Commander, U. S. Navy, Superintendent.

The Honorable SECRETARY OF THE NAVY,
Washington, D. C.

APPENDIX R.

In relation to certain estimates for "Marine Corps." (See pages 124-126.)

HEADQUARTERS UNITED STATES MARINE CORPS,
Quartermaster's Office, Washington, D. C., September 27, 1888.

SIR: I respectfully submit the annual estimates for the support of the quartermaster's department, United States Marine Corps, fiscal year 1890, and call your attention to the following changes in amounts estimated for, as against those appropriated by Congress for the same objects, fiscal year 1889:

Provisions, increased.....	\$1,678 20
Clothing, decreased.....	1,292 00
Repairs of barracks, increased.....	1,000 00
Hire of quarters for enlisted men, decreased.....	320 00
Military stores, decreased.....	500 00

The estimate for provisions is based upon the price of rations fiscal year 1889; an addition of five enlisted men to the retired list, and the board of recruiting parties, which latter item having theretofore been paid out of amount appropriated for "Transportation and recruiting."

The cost of erecting a barracks and officers' quarters at the navy-yard, Norfolk, Va., as submitted in last year's estimates, was \$60,000, but Congress appropriated only \$30,000 "towards the erection of a barracks;" \$15,000 additional will be required this year to complete the said building.

Very respectfully, your obedient servant,

H. B. LOWRY,
Major and Quartermaster U. S. Marine Corps.

The COLONEL COMMANDANT,
Headquarters U. S. Marine Corps.

APPENDIX S.

Recapitulation of the estimates of Indian service as furnished by the Indian Office. (See pages 131-146.)

<i>Appropriated for the fiscal year ending June 30, 1889.</i>

APPENDIX T.

In relation to the estimates for "Building for Bureau of Engraving and Printing." (See page 153.)

TREASURY DEPARTMENT,
Bureau of Engraving and Printing, October 23, 1888.

SIR: In November last, at my request, Mr. James J. Mitchell, inspector of heating, hoisting, and ventilating apparatus, office of Supervising Architect, was detailed to make an inspection of the building occupied by this Bureau, and under date of December 3, 1887, he made a report of the results of this inspection, and recommended the appropriation of \$28,450 for the following purposes:

Out-building.....	\$23,000
Pointing, cleaning, oiling, and penciling main building.....	4,250
Painting wood-work, main building.....	675
Painting iron-work around grounds, &c	450
Painting iron-stairs.....	75
Total.....	28,450

A copy of this report is herewith submitted.

During the last six years the attention of the Department and of Congress has repeatedly been called to the urgent necessity for the erection of a suitable out-building for this Bureau. This building is needed in order to provide proper accommodations for the carpenter shop, the stable and wagon house, the grinding of dry colors, the mixing and grinding of ink, and the storage of coal and other supplies and materials.

The carpenter shop is now in a small frame structure just south of the main building, and from its slight construction and the nature of the work carried on, it is liable to be destroyed at any time by fire.

The mixing and grinding of the ink is now done in the cellar of the main building, and the powdered color is carried by the belting and otherwise to the other parts of the building, fouling the air and discoloring the walls and ceilings. The lack of space compels the mixing of the dry colors in a dark room in the cellar without sunlight or proper ventilation. The removal of these processes to the rooms provided for them in the plan prepared by the Supervising Architect for an out-building, would remove these difficulties, and would also enable the Bureau to buy the dry colors in lump and grind them in its own mills, which it is very desirable that it should be able to do, in order to secure that the ink is of the proper quality, but which cannot be done with the present facilities.

There is now no provision whatever for storing or even sheltering the coal, of which more than 2,200 tons a year is used. It is dumped in lots of about 100 tons at the rear of the building, and wheeled in barrows into the boiler-room as required. It lies exposed to the weather until used, and, while being dumped and handled, gives rise to a thick dust, which penetrates the building and interferes seriously with the operation of some of the more delicate machinery. Space for storing at least 130 tons is provided in the proposed out-building. The stables, wagon house, and harness and storage rooms are now in temporary wooden structures ill-suited for the purpose, not in keeping with the main building, and in danger of destruction by fire. The original plans for the building of the Bureau included an out-building, but it was not built for lack of funds.

By act, approved October 2, 1888, entitled "An act making appropriations for sundry civil expenses of the Government, &c.," the Secretary is authorized to purchase, or acquire by condemnation, title to lot 12 in square 231, being the only lot in the north-half of that square not now owned by the Government, and steps have been taken under this authority to acquire title to the lot by condemnation, so that there will be no obstacle in the way of the erection of this building as soon as an appropriation is made therefor by Congress.

The necessity for the other work for which appropriation is asked is fully set forth in the report of Mr. Mitchell, and the wear of the last year has but added to this necessity.

I respectfully recommend; therefore, that an estimate of an appropriation of \$28,450, for the purposes aboved mentioned, be submitted to Congress.

Respectfully yours,

E. O. GRAVES,
Chief of Bureau.

Hon. C. S. FAIRCCHILD,
Secretary of the Treasury.

TREASURY DEPARTMENT,
Office of the Supervising Architect, December 3, 1887.

SIR: In accordance with your request, I inspected the building occupied by the Bureau of Engraving and Printing, and respectfully submit the following report with my recommendations:

The large pile of coal lying in the open air west of the building should be removed, as the dust therefrom is blown against the building, soiling the walls, and rendering frequent cleaning necessary. This fine coal dust is blown into the cellar, much to the detriment of the health of the employés, and sometimes rendering worthless the costly inks manufactured in the basement and used in printing notes.

Portions of the brick-work of the main building need repointing, especially that part below the water-table, and the entire structure needs cleaning, oiling, and penciling, in order to properly preserve it from the effects of the weather.

All the wood-work, both exterior and interior, needs painting very much, as do also the front and rear iron steps.

All the exterior iron-work, including fence around grounds, railing around the area-ways, columns at elevators, stairs at boiler-house, &c., needs one coat of paint.

The unsightly and combustible frame buildings on the south side of the main building, used for storage purposes, work-shops, &c., are totally inadequate for the purpose, and are a constant menace to the Bureau proper, on account of their liability to fire.

In view of the above facts, I have to recommend that the frame building above referred to be removed, and that the Government purchase the tract of land lying between the main building and the lot owned by the Government farther south, and erect thereon a brick building suitable and adequate for stabling, storage of fuel, &c., and work-shops.

This is absolutely necessary for the proper transaction of the public business and to decrease the danger of fire. The drawings now on file in the office of the Supervising Architect show the necessity for an out-building in connection with the Bureau.

The estimated cost of such a building, including a substantial coal-cellar is.....	\$23,000
Pointing, cleaning, oiling, and penciling the main building.....	4,250
Painting wood-work of main building.....	675
Painting iron-work around grounds, &c.....	450
Painting iron-stairs.....	75
Total.....	28,450

All of which is respectfully submitted.

Very respectfully,

JAMES J. MITCHELL,

Inspector of Heating, Hoisting, and Ventilating Apparatus.

Hon. E. O. GRAVES,
Superintendent of Bureau of Engraving and Printing.

APPENDIX U.

Statement (prepared in accordance with clause in Statutes at Large, vol. 24, page 512) of persons employed on contingent force at public buildings in course of construction, showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ended June 30, 1888.

APPENDIX V.

Explanation of estimates on page 177 for constructing the jetties and other works at South Pass, Mississippi River.

ST. LOUIS, MO., June 29, 1888.

SIR: We beg to call your attention to the fact that on the 30th day of September, 1889, the maximum channel through the jetties at the mouth of the Mississippi River will have been maintained, as required by law, for a period of ten years, and there will, therefore, be due and payable from the Government to us, as legal representatives of James B. Eads, deceased, on the date mentioned, the sum of five hundred thousand dollars (\$500,000), as per the provisions of the act of March 3, 1875, and the amendatory acts of June 19, 1878, and March 3, 1879.

The total contract price for the construction of the jetties and auxiliary works at the mouth of the Mississippi River was \$5,250,000, of which sum \$4,250,000 was paid in installments at different times during construction, and the remaining \$1,000,000 was held as security in the hands of the Government, \$500,000 of said sum being payable to Mr. Eads, or his legal representatives, when the maximum channel provided for had been maintained for ten years, and the other \$500,000 being payable, as aforesaid, when the maximum channel had been maintained for twenty years. The sum which will be due on the 30th of September, 1889, is the first \$500,000 herein mentioned.

The act of Congress making appropriation of moneys to cover the various payments of interest, and for maintenance of channel, due Mr. Eads, or his legal representatives, from time to time (see last proviso of act of May 13, 1879, 21 Statutes, page 4), does not include an appropriation to cover the \$500,000 due September 30, 1889, and we now call your attention to the matter, to the end that you may include in your estimates for the next fiscal year the amount necessary to cover the sum named. In this connection we beg to call your attention to the concluding section of the act of March 3, 1875 (18 Statutes, 466), which is as follows:

"Sec. —. That the option of discharging the obligations herein assumed by the United States, either in money or bonds, is expressly reserved, and the Secretary of the Treasury is hereby directed to issue the bonds of the United States, bearing five per centum interest, of the character and description set out in the act entitled 'An act to authorize the refunding of the public debt,' approved July fourteenth, eighteen hundred and seventy, to said Eads, or his legal representatives, in payment, at par, of the aforesaid warrants of the Secretary of War, unless the Congress of the United States shall have previously provided for the payment of the same by the necessary appropriations of money."

You will observe that, under the above section, we would, in case of a failure of Congress to make the necessary appropriation of money, be entitled to receive, at par, five per cent. bonds of the United States. In order that there may be no failure of appropriation, we thus early call your attention to the matter, with the request that you will direct the attention of Congress to the necessity of an appropriation to cover the money due to us as above indicated.

We are, very respectfully, your obedient servants,

JAMES F. HOW, }
ESTILL McHENRY, } *Executors of the estate of James B. Eads.*

Hon. WM. C. ENDICOTT, *Secretary of War, Washington, D. C.*

[First indorsement.]

OFFICE CHIEF OF ENGINEERS, UNITED STATES ARMY,
July 25, 1888.

Respectfully returned to the Secretary of War, together with a copy of the report thereon by Capt. M. L. Fisk, corps of engineers, dated the 20th instant, to which attention is invited. Captain Fisk, it will be seen, gives a succinct statement of the requirements of the acts of March 3, 1875, and the amendment thereof made in the River and Harbor Act of March 3, 1879, from which he concludes "the first ten years of maintenance will therefore end with September 29, 1889, and the \$500,000 payable at the end of the ten years will be due the following day, September 30, 1889, as stated in the within communication, provided there is no failure of the legal channel in the meantime."

"Should there be a failure of the legal channel between now and September 30, 1889, its effect will be to postpone the payment as many days as the legal channel may be wanting."

THOS. LINCOLN CASEY,
Brigadier General, Chief of Engineers.

[Second indorsement.]

OFFICE UNITED STATES ENGINEER, 63 CARONDELET STREET,
New Orleans, La., July 20, 1888.

Respectfully returned to the Chief of Engineers, United States Army.

The third unnumbered section following section 4 of the River and Harbor Act approved March 3, 1875 (see Annual Report of the Chief of Engineers for 1875, part 1, page 171), is as follows:

"Sec. —. That the said channel of thirty feet in depth and three hundred and fifty feet in width having been maintained for ten years, one-half of the one million dollars hereinbefore mentioned shall be released and paid to said Eads, his assigns, or legal representatives; and said depth and width having been maintained for ten additional years, the remaining half of the said one million dollars shall be released and paid as aforesaid, * * * * *"

The fourth unnumbered section of the same act, line 12, reads " * * * ; and if any failure to maintain said channel of thirty feet in depth and three hundred and fifty feet in width shall occur, the date for releasing the said money held in pledge shall be postponed for an equal period of time, and the compensation for maintaining said channel shall cease until said depth and width shall be again restored; the maintenance of a channel thirty feet in depth and three hundred and fifty feet in width for twenty years, exclusive of all such periods of failure, being intended by this act. * * * * *"

The section first above quoted was amended by the fifth paragraph of section 9 of the River and Harbor Act, approved March 3, 1879 (see Annual Report of the Chief of Engineers for 1879, p. 221), as follows:

"When a channel thirty feet in depth, without regard to width shall have been obtained through the jetties, there shall be paid five hundred thousand dollars, and the one million dollars provided by the hereinbefore recited act to be paid by

the United States in ten and twenty years shall be earned by said Eads and his associates, and the same with interest, shall be paid to said Eads or his legal representatives, at the times and in the manner provided by said act."

The official records show that the channel of 30 feet central depth was obtained July 8, 1879. The 20 years maintenance required by law therefore began with that date and the first 10 years would have expired July 7, 1889, had there been no failure of the legal channel between those dates.

Up to the present time, however, the 30 feet depth has been lacking for 84 days, as shown by the following table:

Central depth of 30 feet secured July 8, 1879. Period of maintenance (20 years) commenced with that date.

Deficiencies.				Locality deficient.	Reference.

The first 10 years of maintenance will therefore end with September 29, 1889, and the \$500,000 payable at the end of the 10 years will be due the following day, September 30, 1889, as stated in the within communication, provided there is no failure of the legal channel in the meantime.

Should there be a failure of the legal channel between now and September 30, 1889, its effect will be to postpone the payment as many days as the legal channel may be wanting.

W. L. FISK,
Captain of Engineers, U. S. A.

APPENDIX W.

In relation to the estimates for the Bureau of Engraving and Printing. (See pages 196 and 197.)

TREASURY DEPARTMENT,
Bureau of Engraving and Printing, October 22, 1888.

SIR: I have the honor to submit herewith estimates of the appropriations required for the support of the Bureau of Engraving and Printing for the fiscal year 1890, arranged under the following heads:

Salaries.....	\$18, 450
Compensation of employés.....	370, 000
Plate-printing.....	398, 000
Materials and miscellaneous expenses.....	189, 000
Total.....	\$975, 450

The estimates for compensation of employés, plate-printing, and materials and miscellaneous expenses, conform to the appropriations made for the current fiscal year, and are believed to be sufficient to meet all reasonable demands for work

which may be made upon the Bureau. The estimated production of securities in 1890 compares as follows with the estimated production on which the appropriations for the current fiscal year were based:

Class of security.	Estimated production in 1889.	Estimated production in 1890.
	<i>Sheets.</i>	<i>Sheets.</i>
United States notes, bonds, and certificates.....	10, 518, 200	7, 519, 700
National-bank notes.....	1, 000, 000	1, 375, 000
Internal-revenue stamps.....	26, 017, 080	32, 287, 000
Customs stamps.....	390, 000	395, 000
Miscellaneous.....	1, 100, 950	1, 145, 450
Total.....	39, 026, 230	42, 722, 150

The estimated production for 1890 exceeds that for 1889 by 3,695,920 sheets. It will be possible to print the increased number of sheets in 1890 without an increase in the appropriation, for the reason that there is a large decrease in the estimated production of notes and certificates which have two plate-printings on them, while the increase is mainly in the internal-revenue stamps which have but one plate-printing. The estimated number of plate-printings to be executed in 1889 is 54,220,719, and in 1890 55,428,187.

Respectfully yours,

Hon. CHARLES S. FAIRCHILD,
Secretary of the Treasury.

E. O. GRAVES,
Chief of Bureau.

APPENDIX X.

In relation to the estimates for the Coast and Geodetic Survey. (See pages 198-203.)

U. S. COAST AND GEODETIC SURVEY OFFICE,
Washington, September 21, 1888.

SIR: In transmitting for your approval the estimates of the appropriations required for the United States Coast and Geodetic Survey for the fiscal year ending June 30, 1890, I have the honor to submit the following explanation:

Exclusive of the estimates for printing and binding, which are the same each year, the aggregate of the estimates (\$575,950), is larger than that for the current year (\$559,885), an increase which is more than accounted for by the single item of \$25,000 for the preliminary survey of the boundary of Alaska, ("frontier line between Alaska and British Columbia"), a work originally estimated for by the honorable Secretary of State, but which Congress has directed to be done by this survey. With the Alaska boundary item omitted, these estimates would aggregate \$8,935 less than those for the current year.

For the considerations which have governed the estimates for field work, I respectfully refer you to my letter transmitting estimates for the fiscal year ending June 30, 1888, (Appendix Gg, p. 291, Book of Estimates), in which such considerations are given in detail.

For a full explanation of the class of expenditures mentioned as "party expenses," as well as of the items in relation to the "International Geodetic Association for the Measurement of the Earth," and in relation to a slight increase in the force of computers, draughtsmen, and engravers, which matters have already been explained to and acted upon by Congress, I respectfully refer to my letter of October 6, 1887, transmitting the estimates for the fiscal year ending June 30, 1889, (Appendix Ii, p. 312, Book of Estimates.)

Of the increased estimates for "pay of office force," \$2,000 is due to a transfer of an item for a computer in "publishing observations" to "chief accountant" under the head of "office force." The residue of such increase (\$3,065) is due to estimates for a few deserved promotions, for a change of a messenger to a clerkship, and for payment of regular salaries for two additional map-colorists, whose necessary work has heretofore been paid for out of the item for "extra labor" under the sub-head "office expenses," with the result of embarrassingly restricting the fund available for the remaining items of the paragraph "for miscellaneous expenses, contingencies, office furniture, repairs," &c., as well as for the "extra labor" upon which constantly increasing demands are made in the furnishing of charts, tracings, drawings, soundings, and a great variety of data and information to the Engineers U. S. Army, the Hydrographic Office, Navy Department, the Geological Survey, and other Departments and Bureaus of the Government, State and municipal officers and individuals.

An increase of \$6,000 is estimated for in the second paragraph of the "office expenses," in order to render possible the continuance of adequately prompt publication of the charts of the surveys as explained to you in my letter of January 20, 1888, transmitting a so-called "Deficiency Estimate" for a similar purpose. (House Ex. Doc. No. 111, 50th Congress, 1st session.)

Respectfully yours,

The Honorable THE SECRETARY OF THE TREASURY.

F. M. THORN,
Superintendent.

APPENDIX Y.

In relation to the estimates of the U. S. Fish Commission. (See pages 203 and 204.)

U. S. COMMISSION OF FISH AND FISHERIES,
Washington, D. C., October 24, 1888.

SIR: In explanation of the estimates of appropriations required for the service of the U. S. Commission of Fish and Fisheries for the fiscal year ending June 30, 1890, which were submitted to the Department on October 22, 1888, I beg to present the following:

An increase of the item for "Propagation of Food Fishes" from \$130,000 to \$145,000 will be necessary, by reason of the resumption of the propagation of the Salmon for stocking West Coast rivers at the McCloud River Station; the operation

of the fish hatcheries on the Columbia River, Oregon, (authorized by act of Congress approved March 3, 1887); and at Duluth, Minnesota, (authorized by act approved August 4, 1886); and for the general increase in the work of propagation at all the stations of the Commission.

The item for "Rent of Offices" is the same as that estimated for the fiscal year ending June 30, 1889.

The increase in the estimate for "Distribution of Food Fishes" from \$31,180 to \$40,000 is asked for to provide for the collection and distribution of the indigenous food fishes of the Mississippi Valley. This work, inaugurated the present summer, promises such large results in proportion to expenditure, that it is proposed to make it a prominent feature in the work of distribution.

By direction of Congress (act approved August 4, 1886,) the Commission's steamer, *Albatross*, was transferred from the Atlantic sea-board to the Pacific for the purpose of investigating the fishing grounds of those waters. The cost of fuel in the Pacific States and Territories is from two to three times that on the Atlantic Coast. The cost of maintenance and repairs is also greater. It is necessary, therefore, that the estimate for "maintenance of vessels" be increased from \$43,900 to \$45,000, this being the amount heretofore appropriated.

The breeding of salmon, for stocking New England waters and the Hudson River, requires the erection of permanent buildings and the construction of an extensive system of ponds. Such expenditures cannot be lawfully made unless the title to the land upon which the improvements are to be made vests in the United States. The estimate of \$6,000 for "Fish Hatchery, Craig's Brook, Me.," provides for the purchase of land, the construction of the necessary buildings and ponds, and for the equipment of the station.

Owing to the late date (October 2, 1888,) of the approval of the Sundry Civil bill for 1889, containing the item for construction of a fish hatchery at Neosho, Mo., and the delay incident to the transfer of the property to the United States, the preparation of plans for, and the construction of the necessary buildings and ponds, it is not probable that the station can be gotten ready for operation before the expiration of the current fiscal year. The appropriation of \$5,000 for the maintenance of this station for the fiscal year ending June 30, 1889, cannot, therefore, be used, and it is asked that the same be continued and made available for the fiscal year 1890.

Very respectfully,

Hon. CHARLES S. FAIRCHILD,
Secretary of the Treasury.

M. McDONALD,
Commissioner.

APPENDIX Z.

In relation to the estimate "Prevention of manufacture or sale of adulterated food or drugs in District of Columbia." (See page 205.)

TREASURY DEPARTMENT,
Office of Internal Revenue, Washington, October 30, 1888.

SIR: I have the honor to transmit herewith an estimate for an appropriation of \$10,000, that will be required to enable this office to carry into effect the provisions of the Act of October 12, 1888, entitled "An act for the prevention of the manufacture or sale of adulterated foods or drugs in the District of Columbia," which contemplates chemical analysis of samples of such articles under the direction of the Commissioner of Internal Revenue.

The chemical laboratory connected with this office, is at present fitted up solely for use in analyzing samples of oleomargarine and butter substitutes, so that additional apparatus and materials will be needed to analyze the variety of articles that come under the provisions of said act.

As the act went into effect immediately, but made no provisions for such expenses, I would recommend that the sum appropriated be made immediately available.

Respectfully submitted,

Hon. C. S. FAIRCHILD,
Secretary of the Treasury.

JOS. S. MILLER,
Commissioner.

APPENDIX A a.

Detailed estimate for "Pay of assistant custodians and janitors." (See page 206.)

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Division of Appointments, Washington, D. C., November 2, 1888.

Hon. C. S. FAIRCHILD,
Secretary of the Treasury.

SIR: I have the honor to submit herewith the following estimate of the amount of money required for the conduct of the custodian and janitor service in all of the public buildings, for the fiscal year ending June 30, 1890.

EXPLANATIONS BY THE COMMISSIONERS OF CERTAIN INCREASES IN ESTIMATES.

INSPECTOR OF ELEVATORS.

The estimate for inspector of elevators is rendered necessary in order to enable the Commissioners to comply with the requirements of the law to regulate the construction and operation of elevators in the District, approved March 3, 1887.

LABOR IN EXECUTIVE OFFICE.

The three laborers under head of executive office are necessary to the proper care of the District Municipal Building, sweeping, cleaning, &c.

ASSESSOR'S OFFICE.

The estimated increase of one clerk in assessor's office is due to increase of general business of that office.

ATTORNEY'S OFFICE.

The estimate for increase of salary of assistant attorney is due to the fact that the office requires the services of an accomplished lawyer, competent to manage the most important cases in court and advise the Commissioners.

The present incumbent is exceptionally well qualified and should be compensated accordingly.

ENGINEER DEPARTMENT.

The services of the additional number of employes of the Engineer Department are absolutely necessary for the proper conduct of the business of the department. The superintendent of sewers, assistant superintendent of streets, assistant engineers, clerks, the rodman, axeman, sewer-tapper, &c., are employes that have long been in the service of the department and their compensation paid from various appropriations for the character of the work upon which they are employed.

The increased amount of labor thrown upon the department, caused by increased appropriation, makes it necessary that the force as now employed should be maintained and placed upon the permanent roll.

The compensation of the superintendent of roads is increased to equal that of the superintendent of streets, as the duties performed by both are of a similar character.

The compensation of the inspector of lamps is increased because of the fact that his duties require his attention both day and night.

The proposition is submitted for the appointment of an electric inspector. The services of such an employé are found to be necessary, owing to the large expansion of electric lights and the erection of wires, and for the purpose of assisting in devising plans for placing all electrical wires underground. For this service is required a man specially skilled in this branch.

The phraseology used by the Commissioners in submitting their last estimates, for contingent expenses, &c., for the Engineer Department was based upon suggestions of the First Comptroller of the Treasury Department, but for some reason unknown, while undergoing consideration in Congress, was modified. The same phraseology is again submitted upon the suggestion of the First Comptroller of the Treasury Department, and its adoption is urged as a means of simplifying and facilitating the settlement of accounts.

IMPROVEMENTS AND REPAIRS.

The revenues of the District for the next fiscal year are estimated at over \$2,700,000 and the sum total of these estimates is based upon that approximation. The apparent excess of estimates over apparent revenues will be a draft upon the surplus standing to the credit of the District of Columbia.

The progress of improvements throughout the city and county is such as to demand the rapid extension of the sewer system and the improvements of the streets and roads.

The present pavement on Pennsylvania Avenue is in such bad condition as to require total renewal of surface. The expenditures heretofore made in the annual repairs thereof have been of so considerable amount that the Commissioners believe it to be economy and wisdom to renew the surface in its entirety. They, therefore, submit an estimate for that purpose.

PERMIT WORK.

The item submitted for permit work is increased to \$200,000 for the reason that the demand for this class of improvement has been so great as to exhaust the appropriation of \$90,000 for the present fiscal year at this date. The many urgent demands for this class of work for the various sections of the District urge that further and more provision should be made to meet the demands.

In addition to this it is the desire of the Commissioners to expend a large portion of the amount in the replacement of sidewalks upon many of the more prominent business streets of the city, as their present condition is wretched.

The item for the parking commission is increased for the reason that it is the desire of the Government to remove the present unsightly wooden tree-boxes upon the larger trees and protect them from the invasion of the horse and goat by surrounding them by a wire netting. This means of protection is cheap and effectual.

The increased amount estimated for lighting of streets, &c., is demanded by the natural growth of the city and expansion of improvements.

The item submitted for compensation of the board of examiners for steam-engineers and the contingent fund therefor, aggregating \$1,000, is submitted. Congress recently enacted a law requiring the appointment of this board, whose duties it is to examine all steam-engineers within the District of Columbia, and that duty has now been performed for upwards of eighteen months without compensation. The revenues derived as the result of their labors have been very considerable to the District, and it is submitted that proper compensation should be provided for the people performing the duties required by law.

SCHOOLS.

The small increase estimated in the salary of the superintendent of the first six school districts is designed to provide for the keeping of his horse, which is absolutely necessary to enable him to visit the schools under his charge.

The increase in the estimates for schools is due, first and principally, to the annual increase in the school population during the past year. The annual increase is estimated for former years at about 1,500, or thirty schools, which would require four eight-room school buildings. Second, because the provision made in the last appropriation act for county schools was not sufficient to afford such accommodations as to obviate the necessity of half-day schools. The increase in the county during the past year has been unusually great, and the demand for school accommodations in proportion, and the increase asked for in that division is, therefore, not excessive.

This includes one eight-room brick building on Seventh Street extended, which will enable the school authorities to dispense with a hired building, known as Prescott School, and relieve the building known as Soldier's Home School, a small two-room building, which is now greatly over-crowded. A building at Good Hope will be abandoned.

POLICE DEPARTMENT.

The increase estimated for in the salary of the major and superintendent of police is due to the fact that, in the opinion of the Commissioners, he is at present the most inadequately compensated of all the District officers, in proportion to the responsibilities imposed upon him by his position.

FIRE DEPARTMENT.

The increase of one foreman is due to the fact that the item was apparently inadvertently left out last year. The three additional men are needful for the operating of the new Chemical Engine estimated for.

The reason for exchanging engines instead of selling them is because, if sold at auction, as now required by law, they would only realize a nominal price, while the Commissioners are enabled to obtain their full value, at time of disposal, in an exchange.

PHYSICIANS TO POOR.

The services of two additional physicians to the poor are absolutely necessary, but the appropriation of \$15,000 for the relief of the poor is too small to sustain this additional charge upon it with justice to the other interests that are properly provided for out of that fund.

WATER DIVISION.

Until the present fiscal year Congress had always made provision for the employment of a clerk in the Water office at a compensation of \$1,200 per annum. In the last appropriation bill this item was inadvertently omitted. An item is therefore submitted for its replacement, the services of this clerk being urgently required in that office.

APPENDIX Dd.

Letter of the First Comptroller in relation to the Estimates of the Commissioners of the District of Columbia. (Estimates on pages 208-218.)

TREASURY DEPARTMENT,

First Comptroller's Office, Washington D. C., October 24, 1888.

SIR: I have the honor to return herewith the estimates for expenses of the Government of the District of Columbia for the fiscal year ending June 30, 1890, together with accompanying papers, viz: (1) Estimated general revenues of the District of Columbia for said fiscal year; (2) Schedule of streets, avenues, suburban streets, and county roads recommended for improvement; and (3) Explanations stating necessity for increases in the estimates which were submitted to you on the 1st instant, by the Honorable Commissioners of the District of Columbia, in compliance with section 3 of the act of June 11,

1878 (20 Stat., 104), for your approval, disapproval, or suggestions, and by you referred to this office on the 18th instant for "report," and, in reply to your reference, to respectfully report, as follows:

That, while these estimates, both in objects of expenditure and in amounts, especially under the head of "Improvements and Repairs," are largely in excess of the appropriations for the current fiscal year, yet, in view of the fact that the surplus general revenues of the District of Columbia, over and above the one-half of appropriations chargeable against the general revenues of the District, amounted to \$722,606.69 on the 30th day of June, 1888, which sum added to the estimated general revenues of the District for the fiscal year ending June 30, 1890, \$2,744,552, amounts to \$3,467,158.69, and the further fact that explanations stating the necessity and propriety for such increases in the estimates accompany the same, I, therefore, recommend that said estimates be submitted to Congress with your approval, for its appropriate action.

All of which is respectfully submitted.

Hon. SECRETARY OF THE TREASURY.

M. J. DURHAM,
Comptroller.

APPENDIX Ee.

Explanation of Estimates for Signal Service. (See pages 44 and 218-223.)

SIGNAL OFFICE, WAR DEPARTMENT,
Washington City, September 24, 1888.

SIR: In compliance with letter of September 11, 1888, I have the honor to submit herewith the estimates for appropriations for the fiscal year ending June 30, 1890, aggregating for the entire service, including the Signal Service proper, \$844,480.74, which shows, deducting the specific appropriation of \$1,250 asked for the building, &c., of military telegraph lines, a net reduction from the estimates for 1889, as submitted by this office, of \$1,991.64.

The estimates in detail are as follows:

Items.	Estimated for 1890.	Items.	Estimated for 1890.
Signal Service of the Army	\$7,500 00	Clothing not drawn, payable at discharge.....	\$11,834 60
Postage to Postal Union countries	500 00	Travel allowance, payable at discharge.....	3,800 00
Contingent expenses, Signal Service.....	11,800 00	Commutation of rations.....	116,800 00
Stationery, Signal Office.....	5,500 00	Commutation of fuel.....	32,640 00
Rent, Signal Office.....	600 00	Commutation of quarters.....	65,400 00
Printing and binding.....	12,000 00	Medical attendance and medicines.....	2,250 00
Signal Service: Pay and allowances of officers—		Interment of enlisted men.....	50 00
One Brigadier-general.....	5,500 00		340,055 60
Fourteen second lieutenants, mounted.....	21,000 00	Observation and report of storms—	
Longevity pay.....	5,100 00	Manufacture of instruments, &c.....	11,005 00
Mileage to officers.....	2,500 00	Telegraphing reports.....	120,000 00
Quarters to officers.....	4,752 00	Civilian employés outside of Washington.....	40,210 00
Forage for private animals.....	1,474 20	Rent of telephones, &c.....	2,200 00
Sales of fuel to officers.....	1,232 00	Rents of offices outside of Washington, D. C.....	26,250 00
Medical attendance and medicines.....	750 00	Fuel, furniture, &c., outside of Washington, D. C.....	26,266 94
Interment of officers.....	75 00	Manufacture, &c., of river gauges.....	2,000 00
	42,383 20	Maps and bulletins.....	15,000 00
Salaries, Signal Office.....	155,160 00	Maintaining and repairing military and sea-coast telegraph lines.....	4,800 00
Signal Service: Pay and allowances of enlisted men—			247,731 94
One hundred and twenty-five sergeants, pay of.....	51,000 00	Building, &c., military telegraph lines.....	1,250 00
Twenty corporals, pay of.....	4,800 00	Signal Service, transportation.....	20,000 00
One hundred and seventy-five privates (first-class), pay of.....	35,700 00		
Pay for length of service.....	11,981 00	Total	844,480 74
Retained pay, payable at discharge.....	3,800 00		

In connection with these estimates, I have the honor to state that when estimates were first specifically made by this office, for such items as had previously been provided for in the Army bill, the designations of such items were taken from the Army bill; and at that time, and up to the abandonment of Fort Myer, they were applicable, but now they are not only not applicable, but misleading.

Thus, the designation "barracks and quarters" has no significance, as there is no amount appropriated for barracks, nor is there any such required by this service, the entire amount appropriated being simply for commutation of quarters to the enlisted men of the Signal Corps.

In the estimates submitted, a classification is made which places all similar items of expense under one head; as, for instance, all items which form part of the pay and allowance of officers are grouped, also all items which form part of the pay and allowances of enlisted men, and so on, under the various appropriations.

One of the special features of the proposed plan is the re-arrangement of the appropriation "Observation and report of storms."

Briefly, the advantages under that appropriation are the consolidation of all appropriations of like character; for instance, all civilian employés are placed under one item, instead of under four or five, as in the old plan.

All rents and all supplies are carried in a like manner.

In connection with supplies purchased outside of Washington, the one item of "fuel," under the old plan, is termed "regular supplies;" it amounts to only \$6,000, while the total of supplies, which may be termed regular, as shown by the plan submitted, is \$26,000.

Under the old plan, there were 16 separate and distinct appropriations, while under the plan proposed there will be

only 12 distinct appropriations; in this particular alone, the suggested plan will economize clerical labor in the preparation of accounts.

I submit herewith certain statements required:

Statement showing the number of persons employed, and the amount paid to each, during the fiscal year ended June 30, 1888, from the appropriation for scientific experts, &c., in the Signal Office.

*While the law allows a force of 500 men, Congress has seen fit to appropriate for only 470.

I desire to invite attention to the inclosed statement, which is based upon the existing system of manning and equip-
ping, and shows the (estimated) cost of maintaining and operating the several sections of U. S. military and sea-coast
telegraph lines during the fiscal year ending June 30, 1890. And in consequence of the large cost of operating and main-
taining certain sections of the telegraph lines from which the public benefits are small, the Chief Signal Officer deems it
advisable that this data should be laid before the Committee on Appropriations; otherwise it might result, as it has in the
past, that, when estimates have been reduced, important lines have of necessity suffered proportionately with those of little
utility.

I am, very respectfully, your obedient servant,

A. W. GREELY,
Chief Signal Officer.

To the Honorable THE SECRETARY OF WAR.

[Based upon the existing system of manning and equipping these lines.]

Detailed estimates of the cost of maintaining and operating the several sections of non-military-telegraph lines during the fiscal year ending June 30, 1890.

[Based upon the existing system of manning and equipping these lines.]

Sections.	Offices.	Miles of line on section.	Number of enlisted men.	Number of civilians, operators, repair-men, messengers, and cleaners.	Rents per annum.	Pay of enlisted men; average \$850.	Pay of civilians per year.	Rent of telephone.	Cost of line material.	Cost of repairs, including transportation of repair-men.	Battery material.	Lights.	Fuel.	Stationery, forms, purchase and repair of instruments and tools.	Incidentals, furniture, stoves, ice, &c.	Transportation of supplies.	Transportation of men.	Totals.	Remarks.

APPENDIX Ff.

Explanation of estimates for the Garfield Memorial Hospital. (Page 224.)

WASHINGTON, D. C., *October 5, 1888.*

SIR: It is the earnest desire of the management of the Garfield Memorial Hospital that you will include in your estimate to be submitted to Congress for the fiscal year ending June 30, 1890, the following item:

"The Garfield Memorial Hospital: For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$15,000."

The maintenance of the hospital involves a very large expenditure, and the management have hoped that Congress could be prevailed upon to contribute more than \$10,000 to this purpose. For the current year \$15,000 was asked, and although the Senate unanimously favored this sum, only \$10,000 was finally appropriated, which is insufficient, inasmuch as it compels the friends of the hospital to pay a larger proportion on this account than they feel able, in face of the present obligations toward meeting the payments due on the new buildings, all of which have been paid for by private donations, the Government not having been asked, nor has it contributed anything, for the purchase of grounds or for the erection or repair of buildings.

That the hospital fills an indispensably useful function in relieving the sick poor of this District is attested by the fact that its wards are always crowded.

During the fiscal year ended June 30, 1888, there were admitted to the hospital 405 patients, which, with the 21 remaining from the preceding year, made a total of 426.

During the last year, through the kindness of a generous friend, a large elevator was placed in the well designed therefor in the new wing, and there is now being completed a new building to contain boilers and all apparatus necessary for steam-heating and for laundry purposes. In the work of providing for these improvements, and of procuring all the furniture, carpets, bedding, and linens of the hospital, the Ladies' Aid have constantly labored, and upon their continued assistance the efficiency of the hospital largely depends.

The board of directors, through its executive committee, and the Ladies' Aid, by its visiting committee, keep constant supervision of every detail of the hospital work, and in every expenditure the closest economy is exercised.

As stated in a former letter "All expenditures under the appropriation account are properly reported and vouchers therefor submitted to you, and they are finally audited and settled by the accounting officers of the Treasury. These vouchers show the absolute need of the aid requested and the manner in which the money appropriated has been applied."

The fullest inspection of the hospital by you is cordially and earnestly invited.

I have the honor to be, your obedient servant,

SAM'L F. MILLER, *President.*

TO HON. WILLIAM C. ENDICOTT, *Secretary of War.*

APPENDIX Gg.

Statement of items, &c., to accompany estimate (on page 224) of Artillery School.

DEPARTMENT OF ARTILLERY.	
Books and periodicals upon metals, artillery, and ordnance.....	\$250 00
Repairs for various instruments.....	100 00
1 anvil and shot for high-explosives pressure-gauge.....	50 00
Rubber hose, glass vases, tubes, overflow with nozzle attachment for densimeter.....	25 00
1 sink, porcelain-lined.....	25 00
1 small scale, and 1 set of weights, 1 ounce—0.01 grain, for weighing samples of high-explosive powder.....	20 00
3 emersion thermometers.....	10 00
1 reading-glass for scale and other instruments.....	3 00
5 gallons alcohol for experiments.....	10 00
Rubber, mixed.....	10 00
Watch-oil and other cleaning-material for instruments.....	5 00
3 dividers for gauges.....	3 00
Total for department of artillery.....	511 00
CHEMICAL LABORATORY.	
1 burette, Mohr, 200cc.....	\$2 00
1 burette, Mohr, 100cc.....	2 75
1 Bunsen burner, with tripod.....	1 75
1 cylinder, grad. 1,000cc.....	3 50
1 cylinder, grad. 500cc.....	3 00
1 dozen brushes, test-tube (ordinary).....	1 20
1 dozen brushes, test-tube (large).....	1 80
4 dozen brushes, test-tube (extra large, for bottles).....	80
6 bottles, 1-gallon capacity, glass stoppers.....	3 00
6 bottles, $\frac{1}{2}$ -gallon capacity, glass stoppers.....	2 00
6 bottles, $\frac{1}{4}$ -gallon capacity, glass stoppers.....	3 00
2 pairs scissors.....	1 00
4 chamois skins.....	1 50
30 yards muslin.....	3 00
15 yards flannel.....	5 00
2 dozen towels.....	4 00
1 feather duster.....	1 50
$\frac{1}{2}$ dozen balls twine.....	75
1 oil-can (for coal-oil).....	50
2 cork-screws.....	50
6 sponges.....	1 50
2 dozen lead-pencils.....	1 20
$\frac{1}{2}$ gross steel-pens.....	75
1 mop.....	50
50 gallons gasoline (74 degrees).....	15 00
25 gallons alcohol (95 per cent.).....	55 00
5 pounds sodium, acetate (crys.).....	1 50
10 pounds sodium, sulphate (crys.).....	2 50
10 pounds sodium, carbonate (crys.).....	2 00
10 pounds potassium, carbonate (crys.).....	2 50
10 pounds ammonia, liquid (concent. 28'').....	150
5 pounds sulphuric acid (C. P.).....	2 00
5 pounds hydrochloric acid (C. P.).....	1 62
5 pounds turpentine.....	1 50
5 pounds barium, chloride (C. P.).....	1 50
5 pounds barium, nitrate (crys. C. P.).....	2 50
5 pounds lead, acetate (C. P. T.).....	3 75
20 pounds mercury (Redist's best).....	25 00
5 pounds camphor (common).....	3 00
1 pound silver nitrate (C. P.).....	11 50
1 pound acid, pyrogallie.....	4 50
12 charcoal squares.....	1 00
1 dozen aluminium foil.....	2 00
12 cakes toilet soap.....	1 00
24 cakes common soap.....	1 00
2 gross matches.....	2 50
6 gross blotting-paper.....	2 50
1 gas apparatus, (complete).....	175 00
Total for chemical laboratory.....	368 37
CORDAGE.	
10 pounds 1-inch cotton rope.....	} \$25 00
20 feet raw-hide rope.....	
20 feet hair rope.....	
20 feet $\frac{3}{4}$ -inch wire rope.....	
20 feet 1-inch coir rope.....	
50 pounds seizing-stuff, in following sizes; 9, 12, 14, 18.....	

Statement of items, &c., to accompany estimates of Artillery School—Continued.

ELECTRICAL SUPPLIES—INCLUDING SUBMARINE MINING.

50 pounds salammioniac.....	\$4 00
12 cells disque, Leclanche battery.....	12 00
12 cells prism, Leclanche battery.....	12 00
100 zincs for Leclanche battery.....	8 00
6 dozen wood-screws, flat-heads, assorted.....	4 25
25 porcelain insulators, No. 4, 1½ by 1½ inches, with screws.....	75
25 porcelain insulators, No. 5, 2 by 2 inches, with screws.....	1 00
500 glass insulators, regulator pattern.....	20 00
10 pounds gutta-percha insulated wire, No. 16.....	15 50
3 gimlets, assorted.....	1 50
1 pair Weldon climbers and straps.....	3 50
2 pairs Stubs' No. 8 pliers.....	4 00
2 pairs Stubs' No. 7 pliers.....	4 50
2 Stubs' vise and straps, 5½ inches.....	5 00
6 triple-contact electrical bells, 2½-inch gong.....	9 00
6 nickle-plated box-bells, style C, 3-inch gong.....	7 80
25 push-buttons, black walnut, No. 1.....	6 25
12 pounds office wire staples.....	3 00
1 gutta-percha funnel, large size.....	50
1 gutta-percha funnel, small size.....	50
1 gutta-percha acid jug, size, 1 gallon.....	1 00
1 set Clark's screw-drivers, patent handle.....	1 25
1 battery syringe.....	75
3 barrels blue vitriol.....	30 00
3 miles galvanized-iron wire, No. 12.....	36 00
12 pounds office-wire, No. 18.....	7 50
12 pounds office-wire, No. 19.....	7 50
600 zinc spelters.....	40 00
6 chamois.....	3 00
36 paint-brushes, assorted sizes.....	11 16
50 pounds No. 20 cotton-wrapped copper wire, white.....	17 50
5 pounds tinnners' soft solder.....	1 00
2 pounds spelter solder.....	1 00
10 pounds Babbitt metal.....	2 50

Total for electrical and mining..... 283 21

BALLISTICS.

1 Boulange chronograph.....	\$150 00
1 set frames for screens.....	20 00

Total for ballistics..... 170 00

REPAIR-SHOPS.

Carpenter-shop.

1 Disston's hand-saw, No. 8 D.....	\$1 90
1 turning-saw and frame, 24-inch.....	1 45
1 Bailey adjustable veneer-scraper, 3-inch cutter.....	3 50
1 Bailey patent circular-plane, improved.....	4 00
1 Stanley's duplex patent rabbit.....	1 50
1 beading and moulding tool.....	2 00
Buck Bros.' socket tinner gonges, 1 each.....	1 48
1 Morand's improved kerosene glue-pot, 2 pints.....	1 50
1 cast-steel broad-hatchet.....	88
1 screw and plug cutter, ½-inch.....	25
1 Acme adjustable counter-sinker.....	50
2 Reamer's bits, extra quality, ½-inch half round.....	20
4 Pugh's post-augurs—1 2-inch, 1 2½-inch, 1 2½-inch, 1 3-inch.....	9 60
2 Pratt's patent augur-handles.....	1 50
1 set German bits.....	1 20
1 Garrett's bit-gauge.....	50
1 Stem's patent adjustable hollow-augurs.....	5 00
1 Cook's improved frammel-points, No. 2.....	2 50
2 self-locking clamps.....	2 00
3 cabinet-makers' clamps, 6-foot.....	3 39
1 Cheney's vise and anvil combined, No. 40.....	6 50
1 Burnes' improved foot-power mortising-machine, with 10 chisels.....	32 00
25 pounds Wheeler's patent wood-filler, assorted.....	4 00
10 pounds shellac.....	3 00
5 gallons varnish.....	3 00
10 gallons boiled linseed-oil.....	5 00
10 gallons alcohol (95 per cent.).....	7 50
2 gallons turpentine, spirits.....	2 00
79 gross wood-screws, steel, flat-head, assorted.....	60 04
19 gross wood-screws, brass, flat-head.....	14 23
18 quires flint-paper, assorted.....	5 40
2,000 feet white pine, 3 by 12 inches, planed.....	40 00

100 feet white pine, 3 by 12 inches, planed.....	\$5 00
500 feet black walnut, planed.....	50 00
100 feet black walnut, 3 by 12 inches, planed.....	10 00
2,000 feet poplar—1,000 feet —, 1,000 feet planed.....	36 00
1,000 feet hard pine, planed.....	15 00
500 feet hard pine, 4 by 4 inches.....	7 50

Total for carpenter-shop..... 351 02

APPENDIX Hh.

Explanation of estimates (on page 225,) for "Support of Military Prison at Fort Leavenworth, Kansas."

WAR DEPARTMENT,
Adjutant-General's Office, Washington, October 12, 1888.

SIR: I have the honor to submit for the appendix to the "Book of Estimates," the following statement of the detailed objects of expenditure for which the appropriation for the support of the military prison, Fort Leavenworth, Kansas, for the fiscal year 1890, is required under the estimate which has already been submitted, but which could not be made in detail because the appropriation for the current-year, which governs the amount to some extent, was not made earlier:

Subsistence of prisoners, teamsters, and watchmen, and commutation of rations for prisoners <i>en route</i> under transfers.....	\$25,100 00
Tobacco for prisoners on special or excessive hard labor	540 00
Materials for illuminating prison grounds.....	700 00
Forage and bedding for public animals used exclusively at the prison and hay for prisoners bedding.....	3,000 00
Stationery and blank books for prison offices; memorandum books and pencils for use of prison guard when on duty, postage stamps, envelopes and letter paper for issue to prisoners.....	1,000 00
Fuel for generating steam, heating building, &c.; steam pipe and fixtures; hose, belting, machinery, castings, horse and mule shoes, harness leather, horses and mules, wagons and other articles of transportation, stoves, and stove-pipe, bricks, fire-bricks, fire-clay, cement, iron, tin, solder, blacksmiths' coal, charcoal, glass, putty, nails, shingles, disinfectants, painters' tools and paints, scrubbing-brushes, axes, spades, shovels, and all articles required for proper police of prison buildings and grounds, and for all tools and miscellaneous articles required for general use in shops, laundry, bath-room, and stables, and for all necessary expenses in connection with the electric lighting of the prison.....	20,000 00
Material for manufacture of clothing; hats, socks, and other articles of clothing not made at the prison, but required for prisoners' wear at the prison, and for issue to prisoners on their release from the prison or from military posts; necessary machines, and tools for use in tailor's shop; blankets, bed-sacks, and bunks for prisoner's use; donations of \$5 each to prisoners on release from the prison or from military posts.....	9,400 00
Medicines, medical and surgical appliances, dressings, and articles required in the care and treatment of sick prisoners; hospital furniture and supplies, and heating appliances, and interment of deceased prisoners.....	2,000 00
Advertising for proposals for supplies.....	200 00
Expenses pursuing escaped prisoners and rewards for those recaptured.....	300 00
Repairs of officers' and non-commissioned officers' quarters; the hospital; the chapel; the offices, and all prison buildings and shops, including civilian labor thereon which cannot be done by prisoners.....	5,000 00
Pay of civilial employes, viz: One clerk in office of commandant, at \$150.00 per month; one clerk in office of assistant quartermaster, at \$116. ⁶⁷ / ₁₀₀ per month; one clerk in adjutant's office, at \$100 per month; five foremen-mechanics in shops, and one engineer at \$100 per month each; one fireman in charge of electric-light and steam-heating apparatus at night, at \$60 per month; one teamster, at \$40 per month, and four teamsters and two night-watchmen, at \$30 per month each; one forage and wagon-master in charge of prison transportation (formerly paid by the Quartermaster's Department), at \$60 per month; extra duty pay for prison-guard.....	17,140 00
In all.....	84,380 00

I am, sir, very respectfully, your obedient servant,

J. C. KELTON,
Acting Adjutant-General.

The Honorable THE SECRETARY OF WAR.

APPENDIX Ii.

Explanation of estimate (on page 225), for "Support of Soldiers' Home," District of Columbia.

OFFICE OF THE BOARD OF COMMISSIONERS OF THE SOLDIERS' HOME,
Washington, D. C., September 25, 1888.

SIR: The act of Congress approved July 11, 1888, "Making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1889, and for other purposes," contains the following words in the paragraph following the appropriation for the office of the Second Comptroller of the Treasury:

* * * "That the Secretary of War shall prepare and submit to Congress, through the Secretary of the Treasury, in the Book of Estimates for the fiscal year 1890, estimates in detail for the support and maintenance of the Soldiers' Home, and for all necessary expenses connected therewith, for the fiscal year 1890."

To enable the Secretary of War to comply with the requirement of Congress, I have the honor to submit herewith an estimate for \$250,675.95, and to give the following detailed statement of the several objects of expenditure and the amount required for each object:

Subsistence for 900 inmates and fifteen civilian employes, at \$7.25 per month per man, and 250 tons of ice, at \$8 per ton.....	\$81,605 00
Clothing, viz: 500 coats, at \$5 each; 500 vests, at \$1.75 each; 1,200 pairs of trousers, at \$3.25 per pair; 1,200 pairs of trousers, at \$2 per pair; 1,000 blouses, at \$2.20 each; 1,000 felt hats, at \$1 each; 1,000 straw hats, at 40 cents each; 2,700 pairs of shoes, at \$1.40 per pair; 2,700 flannel shirts, at \$1.20 each; 2,700 cot-	

ton shirts, at 35 cents each; 2,700 pairs of drawers, at 40 cents per pair; 4,000 pairs of woollen stockings, at \$3 and \$3.25 per dozen; 1,400 pairs of cotton stockings, at ten cents per pair; four pairs of rubber boots, at \$3.37½ per pair; four rubber coats, at \$3.37½ each, and fifty pairs of slippers, at 90 cents per pair..	\$23,552 75
Bedding, &c., viz: 121 bedsteads with woven wire mattresses, at \$5 each; 100 hair mattresses, at \$12 each; 100 hair pillows, at \$1.60 each; 800 pillow cases, at 20 cents each; 850 sheets, at 60 cents each; 600 woollen blankets, at \$5 each; 275 bed-spreads, at \$2.20 each; bedding for the hospital \$250; ten dozen roller towels, at \$3.60 cents per dozen, and ten dozen hand towels, at \$2 per dozen.....	6,546 00
Upholstering materials, moth paper, and musquito netting.....	567 00
Forage, &c., viz: 4,300 bushels of oats, at 42 cents a bushel; 325 bushels of shelled corn, at 60 cents per bushel; 1,076 bushels of corn-meal, at 60 cents per bushel; fifty-two tons of bran, at \$22 per ton, and sixty tons of hay, at \$17 per ton.....	4,810 60
Fuel and gas, viz: 1,015 tons of furnace coal, at \$5.70 per ton; 385 tons of range coal, at \$5.90 per ton; eighty tons of Cumberland coal, at \$4.10 per ton; 100 tons of egg coal, at \$5.75 per ton; six tons of chestnut coal, at \$5.85 per ton; two tons of cannel-coal, at \$15 per ton, and gas for all the building, \$4,161.50.....	13,186 60
"Out-door relief" to "persons who are entitled to admission to the home:" 300 persons, at \$8 per month, and about 100 persons, at rates from \$2 to \$6 per month, according to pension. (See section 6, act of Congress approved March 3, 1883, making regulations for the Home.).....	34,068 00
An allowance of \$1 per month for 250 inmates (non-pensioners.)	3,000 00
Medicines, \$1,200; surgical instruments and appliances, \$100; medical and surgical books, \$100; trusses, artificial teeth, spectacles, and miscellaneous articles for the hospital, \$300; pay of special nurses, \$124; material for coffins, \$436.....	2,260 00

APPENDIX Ll.

In relation to the estimate for "Defending suits in claims against the United States." (See page 233.)

DEPARTMENT OF JUSTICE, Washington, October 17, 1888.

SIR: In recommending an estimate for appropriations for the fiscal year 1890, I desire to make the following explanations: There are now pending in the Court of Claims nearly 13,000 cases; of these, nearly 6,000 have been sent from committees of Congress under the provisions of the statute commonly called the Bowman Act. About 5,569 cases have been brought under the French Spoliations Act. The appropriation for the defense of these latter is separate and specific.

The appropriation for the defense of suits other than French Spoliation for the last fiscal year (1888) was \$10,000. This, after the exercise of the greatest economy, and with a determination to have it distributed as nearly as possible over the entire year, so as to be just to all claimants, was, nevertheless, exhausted before ten months had expired. Much work in securing testimony and in having the Government represented where notices to take testimony had been given by claimants, was necessarily postponed or prevented.

The amount of business for the coming year is even larger than it was for the past year. A less sum than \$20,000 is inadequate for a faithful performance of the duties imposed upon the officers of the Government in the preparation of the defense of suits in the Court of Claims. This amount I have arrived at after a full examination of the pending business, and is based upon a completely economical basis.

The amount heretofore appropriated for the defense of French Spoliations is a fair criterion of the present needs for that purpose.

I therefore respectfully recommend the following estimates:

Defending suits in claims against the United States.....	\$20,000
Defense in French Spoliation claims	5,600

Very respectfully,

ROBERT A. HOWARD,
Assistant Attorney-General.

The ATTORNEY-GENERAL.

APPENDIX Mm.

In relation to the estimate for "Expenses of Territorial courts in Utah." (See page 234.)

SALT LAKE CITY, UTAH, March 26, 1888.

SIR: Yours of the 20th advising me to submit an estimate of what the probable deficiency will be for the current year, 1888, received.

There is now confined in the Utah penitentiary 240 prisoners, and the number is increasing every month. At this rate we can not expect to run the penitentiary at an expense of less than \$3,500 per month, since we are compelled to pay United States prisoners their money on discharge from this appropriation, which consumes nearly \$200 a month, so that the gross amount needed for this purpose will be about \$14,000.

We are also doing considerable work in Territorial cases before the courts, and I think an additional appropriation for marshal's fees and expenses, district attorney's, and commissioner's fees in these cases of \$6,000 would not be enough; mak-

ing a total amount needed to cover our expenses in Territorial courts \$20,000, which I sincerely hope you will be able to get, as the people here, as I have written you before, are very much incensed at Congress for not making sufficient appropriations to pay them for goods furnished the penitentiary. They are now three years behind, and the people threaten that unless some part of this is paid, they will cease to furnish the penitentiary, unless either you or myself will become personally responsible for it. And what is equally as bad, whenever they are compelled to wait so long for their money, they of course charge more for their goods, as they receive no interest on their accounts.

For the good of all parties interested I sincerely hope this appropriation can be had.

Very respectfully, your obedient servant,

FRANK H. DYER,
U. S. Marshal.

I fully concur in the above statement of Marshal Dyer, respecting the probable deficiencies for the fiscal year 1888.

GEO. S. PETERS,
U. S. Attorney.

Hon. ATTORNEY GENERAL,
Washington, D. C.

**STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE
FOLLOWING PROVISIONS OF LAW:**

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)
